	GROUP PRESENTATION ASSIGNMENT INSTRUCTIONS "This is a group presentation. The subject should be disaster management related. Some of the subjects that other groups have used are: First aid Use of fire extinguishers Growing emergency foods Water safety Home safety Emergency evacuation procedures	
WB 1-6	The evaluation sheet on **WB1-6** indicates what the instructors will be evaluating. The focus of this presentation is on presenting a complete lesson of training using both ILM and DPM. Co-ordination, timing, and continuity of flow are also important. There should be a performance objective and instructional objectives with testing to evaluate the success of the training. Visual aids should follow the course guidelines.	*Briefly review the points on WB 1-6.*
Flip Chart	Each group will select a course co-ordinator. At least 3 additional participants will be used to make presentations. One participant can be assigned the responsibility for visual aids and equipment. All participants should have a role in the presentation. You are limited to a maximum of 50 minutes. The instructors will give you a signal at 5 minutes left and 1 minute left. They will stop you at 50 minutes. The group will then self critique after which the instructors will present their critique. The instructors will be available to help with your preparations. Each group will have a time to practise in the main room. If any special equipment or supplies are required, ask your group advisor for assistance.	*Put this information on flipchart and put up in the room.*
