Hold down <ctrl> key to make **nonsequential** selections.

# Data Available in DOLPHN

- Current and historical demographic and health indicator data
- Over 60 indicators with definitions
- Focus on USAID-assisted countries
- Country Health Statistical Reports (68 countries)
- Full source citation information for each indicator value

# Types of Data

## Indicator Categories

- Demographic (9)
- Socioeconomic (12)
- Family Planning (7)
- Maternal Health (8)
- Child Survival (18)
- HIV/AIDS (7)
- Infectious Diseases (4)

## Projections & Trend Data

- Population by Age & Sex
- Total Fertility Rate per Woman
- Infant Mortality Rates
- Under-5 Mortality Rates
- Vaccination Coverage (DPT3)
- Contraceptive Prevalence Rates

# Search Capabilities

- Multiple indicators for an individual country
- A single indicator for multiple countries
- Multiple indicators for multiple countries
- Narrow searches to a particular USAID region or sub-region
- Specific Year or Range of Years
- Most Recent Data available
- Projections where available

# Other capabilities

- Outputs in both HTML and Excel formats
- Ability to export and save data in Excel
- Easy-to-use help function to assist users
- Ability to print search results
- Easy access to Country Health Statistical Reports

# Data Sources

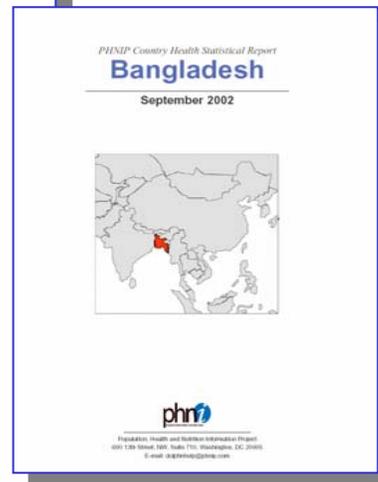

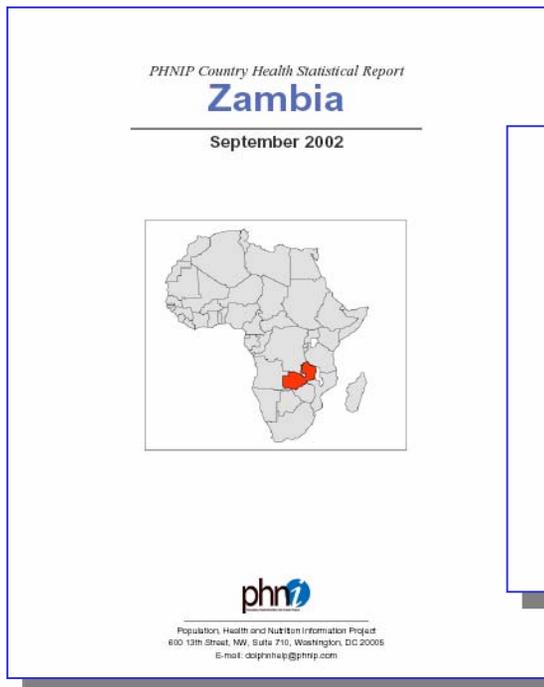

- Demographic & Health Surveys (DHS)
  - Macro International
- United States Census Bureau (BUCEN)
- Centers for Disease Control & Prevention (CDC)
- UNAIDS
- UNESCO
- UNICEF
- World Bank
- World Health Organization (WHO)

# Updating Data

- Data updated as new DHS Reports are released
- BUCEN, UNAIDS, UNICEF, WHO, World Bank data updated annually

# Country Health Statistical Reports

- Each profile contains statistical data on current health conditions, population dynamics, health and family planning behavior, and health and population trends in a given developing country

- CHSR's are easily accessible on the DOLPHN and Global Health Websites.

# Future Enhancements

- Charting capability to automatically construct graphs from selected data
- Regional averages for select indicators
- Expanded indicators and source selection

# Feedback is Essential

- Your questions, comments, and recommendations are welcome
