
Day Three Review and Wrap Up

Module Objective:

Application of principle themes from day three of training throughout the project life cycle

Principle Themes | Day Three

- Recognize the opportunities and challenges associated with integrating compliance and conformance systems by:
 - ❖ Using a management system approach to support continuous improvement and market integration in project design
 - ❖ Encouraging the use of voluntary standards within grants and contracts to reduce risk and costs
 - ❖ Improve project performance and reporting using and building 3rd party systems

Day Three and the Project Cycle
