Subject: FY 2004 Update of the CSH Guidance

The FY 2004 update of the CSH Guidance has been completed and is located in ADS Series 200 as a Mandatory Reference. The CSH Guidance is an annually-updated document intended to (1) provide comprehensive guidance to USAID operating units on the definition and use of the Child Survival and Health Programs Fund (referred to as the CSH Programs Fund) and beginning this Fiscal Year, the Global HIV/AIDS Initiative Account; (2) delineate special considerations and procedures for programming and reporting on CSH funds; and (3) provide reference documents to management, technical, program, and budget officers.

Significant modifications and additions to the May 23, 2003, Guidance on the Definitions and Use of the Child Survival and Health Programs Fund are as follows:

- References to the new "Global HIV/AIDS Initiative" account which was included in the FY 2004 Appropriations Act have been added. Among other things, this account provides program funds to implementing agencies of the Emergency Plan for AIDS Relief. The identified implementing agencies to date are USAID, Department of Health and Human Services, Department of Defense, Department of Labor, and Peace Corps. The Guidance provided in this document as it pertains to HIV/AIDS activities has been cleared by S/GAC and applies to HIV/AIDS activities funded by both the CSH Fund and the Global HIV/AIDS Initiative account.

- Guidance is included regarding the implementation of certain provisions of the U.S. Leadership Against HIV/AIDS, Tuberculosis and Malaria Act of 2003, Pub. L. No. 108-25 (the "AIDS Authorization") and the FY 2004 Appropriations Act. Acquisition and Assistance Policy Directive 04-04 provides clauses that must be included as new standard provisions for assistance agreements and contracts that include FY 2004 HIV/AIDS funds.
- Significant modifications have been made to sections of the Guidance pertaining to HIV/AIDS, particularly as it relates to the President's Emergency Plan for AIDS Relief. Notable changes include information regarding: monitoring, evaluation, and reporting; "ABC" prevention activities; commodities and the Commodity Fund; injection and blood safety; condoms; and multi-sectoral programs for HIV/AIDS.
- A new reference has been added describing the consolidation of all HIV/AIDS primary area emphasis codes into one HIV/AIDS code ("AIDS") for FY 2004 for the agency coding system. Further information has been included regarding the future expanded collection HIV/AIDS budget codes/data.
- New legislative excerpts have been added in Appendix II, most notably excerpts from the United States Leadership Against HIV/AIDS, Tuberculosis, and Malaria Act of 2003.
- References regarding the former USAID Strategic Plan have been replaced to refer to the new Joint State/USAID Strategic Plan.
- Information has been included stipulating that funds that had been designated for the United Nations Population Fund (UNFPA) and transferred to the CSH account are to be reallocated to the vulnerable children category of the CSH account to support the new Trafficking Initiative.

Point of Contact: Any questions concerning this Notice may be directed to Brad Cronk, PPC/P, (202) 712-5786.
