**Description:**
This programme - implemented by the Energising Development (EnDev) partnership, managed by GIZ and RVO - employs a Results Based Financing (RBF) approach to overcome identified market failures that are constraining private sector investment in low carbon energy access (electricity and cooking) in developing countries. This programme targets a range of benefits, including economic growth (through the creation of enterprises and jobs for men and women), reduction of greenhouse gas emissions, and improvements in health as a result of clean cooking methods (particularly for women and young children). The programme has expanded considerably in scope since its initial design, and now implements 17 projects as opposed to the 10 originally planned. This means that the portfolio of RBF approaches has the potential to gather an even broader range of lessons than had first been anticipated. Already the approach taken in this programme is influencing the wider energy access community.

**Location:** Sub Saharan Africa

**On- or Off-Grid:** Off-Grid

**Geography:**
Global

**Eligibility:**
Not Specified

Africa Clean Energy (ACE) Programme Competitive Business Facility

**Category:** Finance  
**Sub-Categories:** Grant Funding, Technical Assistance  
**User:** Private Sector  
**Donor:** Department for International Development (DFID)  
**Donor Countries:** United Kingdom

**Description:**  
The program will catalyze a market-based approach for private sector delivery of solar home system (SHS) products and services, leading to improved energy access for people in sub-Saharan Africa. The program will work in 14 priority countries: Mozambique, Malawi, Zambia, Zimbabwe, Tanzania, Rwanda, Uganda, Kenya, Ethiopia, Somalia, Nigeria, Ghana, Sierra Leone and Senegal. The program will support technical assistance to improve the enabling environment, and finance for businesses seeking to enter new and emerging SHS markets in sub-Saharan Africa for their start up and early commercialization of ideas.

**Locations:** Ethiopia, Ghana, Kenya, Malawi, Mozambique, Nigeria, Rwanda, Senegal, Sierra Leone, Somalia, Tanzania, Uganda, Zambia, Zimbabwe  
**On- or Off-Grid:** Off-Grid

**Geography:**  
Ethiopia, Ghana, Kenya, Malawi, Mozambique, Nigeria, Rwanda, Senegal, Sierra Leone, Somalia, Tanzania, Uganda, Zambia, Zimbabwe

**Eligibility:**  
Enterprises that aim to sell household solar products and services to households. It does not focus on community-wide and larger mini-grids. Technical Assistance to improve country enabling environments to facilitate markets in household solar.

African Renewable Energy Fund (AREF)

**Category:** Finance  
**Sub-Category:** Equity  
**User:** Project Developers

**Donors:** African Biofuel and Renewable Energy Company (ABREC), African Development Bank (AfDB), Dutch Development Bank (FMO), ECOWAS Bank for Investment and Development (EBID), West African Development Bank (BOAD)

**Donor Countries:** Cote d'Ivoire, Multi-donor, Netherlands

**Description:**  
The African Renewable Energy Fund (AREF) targets investments in small to medium size energy generation projects that generate energy from the following renewable and clean energy sources: hydro, wind, solar, and biomass projects, certain geothermal projects and certain stranded natural gas projects. In addition, the Fund focuses on building technical and financial capacity of the local developers it partners with to enable them to roll out additional power projects to meet the growing demand for energy resulting from increasing urbanization and economic growth.

**Location:** Sub Saharan Africa  
**On- or Off-Grid:** Both

African Union Development Agency (AUDA-NEPAD) Renewable Energy Programme

**Category:** Finance  
**Sub-Categories:** Project Implementation, Project Preparation, Technical Assistance  
**User:** Public Sector  
**Donor:** African Union Development Agency (AUDA-NEPAD)  
**Donor Countries:** Multi-donor  

**Description:**  
AUDA-NEPAD Renewable Energy focuses on macro & mini off-grid technology with the overall objective of increasing electricity access in countries where access is less than 20% such as Sierra Leone, Niger, Chad, Burkina Faso, DRC, Malawi, Zimbabwe, Mozambique, Uganda, Burundi, Eswatini and Eritrea. The initiative uses an integrated approach to broaden the socio-economic impacts of energy access through the productive use of energy, linking with climate smart agriculture and improved access to clean water. In addition to the traditional renewable energy sources, the programme has a bioenergy component that takes into consideration, the transformation of crop residue into modern bioenergy (e.g. biogas and biodiesel). The programme implementation strategy is anchored on across multi-sectoral stakeholders coordination comprising (government line ministers, private sector, academia, communities and development partners) to collectively identified projects with three impacts; socio economic, resilience and human wellbeing while through national project steering committees established at each country level foster smooth execution, operationalization and ownership structure. Ultimately, the programme aims to accelerate clean energy transition in Africa.

**Locations:** Algeria, Angola, Benin, Botswana, Burkina Faso, Burundi, Cameroon, Cape Verde, Central African Republic, Chad, Comoros, Côte d'Ivoire, Democratic Republic of the Congo, Djibouti, Egypt, Equatorial Guinea, Eritrea, Ethiopia, Gabon, Gambia, Ghana, Guinea, Guinea-Bissau, Kenya, Lesotho, Liberia, Libya, Madagascar, Malawi, Mali, Mauritania, Mauritius, Morocco, Mozambique, Namibia, Niger, Nigeria, Republic of the Congo, Rwanda, Sao Tome and Principe, Senegal, Seychelles, Sierra Leone, Somalia, South Africa, South Sudan, Sudan, Tanzania, Togo, Tunisia, Uganda, Zambia, Zimbabwe, eSwatini

**On- or Off-Grid:** Off-Grid

**Geography:**  
Africa

**Eligibility:**  
The eligibility is limited to African Member States.

**Agence Francaise de Developpement (AFD) Green Energy Fund**

**Category:** Finance  
**Sub-Category:** Debt Finance  
**User:** Private Sector  

**Donors:** Agence Francaise de Developpement (AFD), Industrial Development Corporation (IDC)  
**Donor Countries:** France, South Africa  

**Description:**  
To provide finance to renewable energy and energy efficiency projects of smaller scale and manufacturing of green products in South Africa.  

**Location:** South Africa  
**On- or Off-Grid:** Both  

**Geography:**  
South Africa  

**Eligibility:**  
Solar and biomass; other technologies are considered on a case by case basis. Energy Efficiency (EE):  
- A maximum of 200% increase in production capacity is allowed for expansion projects; and  
- Greenfield operations are considered on a case by case basis.  
AFD funds are blended at a leverage level of at most 50% funding from IDC; and no refinancing

## Clean Energy Lending Toolkit

**Category:** Finance  
**Sub-Category:** Debt Finance  
**User:** Open to All  

**Donor:** United States Agency for International Development (USAID)  
**Donor Countries:** United States of America

**Description:**
Describe procedures and shares case studies to help the financial industry determine the profitability and viability of lending to consumers, small and medium-sized enterprises, energy companies and project implementers. It also gives information on how to assess capabilities and needs to successfully serve this market and create products for lending to clean energy companies.

**Locations:** Algeria, Angola, Benin, Botswana, Burkina Faso, Burundi, Cameroon, Cape Verde, Central African Republic, Chad, Comoros, Côte d'Ivoire, Democratic Republic of the Congo, Djibouti, Egypt, Equatorial Guinea, Eritrea, Ethiopia, Gabon, Gambia, Ghana, Guinea, Guinea-Bissau, Kenya, Lesotho, Liberia, Libya, Madagascar, Malawi, Mali, Mauritania, Mauritius, Morocco, Mozambique, Namibia, Niger, Nigeria, Republic of the Congo, Rwanda, Sao Tome and Principe, Senegal, Seychelles, Sierra Leone, Somalia, South Africa, South Sudan, Sudan, Tanzania, Togo, Tunisia, Uganda, Zambia, Zimbabwe, eSwatini

Climate Investor One (CIO)

Category: Finance
Sub-Category: Debt Finance
User: Project Developers

Donors: Climate Fund Managers (CFM), Dutch Development Bank (FMO), United States Agency for International Development (USAID)
Donor Countries: Multi-donor, Netherlands, United States of America

Description:
Climate Investor One (CIO) is a financing facility designed to support renewable projects through sequential stages of the project’s life. CIO provides technical, environmental and social due diligence together with development costs support at an early stage. It then finances a large part of construction costs with equity, removing the need for debt finance during construction. Finally, once the project is operational, CIO provides long term debt to deliver stability and optimized funding during the operational stage.

Locations: Ghana, Kenya, Nigeria, Rwanda, Tanzania
On- or Off-Grid: Not Specified

Geography:
Primarily low and lower-middle income countries. Initial, but not exclusive, focus on Kenya, Tanzania, Rwanda, Ghana, Nigeria

Eligibility:
CIO will finance up to 50% of the development and 75% of the construction costs subject to a cap of USD$5 million and USD$75 million, respectively

Direct Equity and Support for Investment Funds

**Category:** Finance  
**Sub-Category:** Equity  
**Users:** Financiers, Project Developers  
**Donor:** United States International Development Finance Corporation (DFC)  
**Donor Countries:** United States of America

**Description:**
Direct equity: DFC can provide direct equity into projects in the developing world which will have developmental impact or advance U.S. foreign policy. An equity investment can be particularly important when operating in credit constrained environments or early stage companies. DFC’s ability to make equity investments will allow to play a catalytic role in mobilizing private sector capital on behalf of U.S. interests abroad.

Investment Funds: DFC-supported funds help address the shortfall of private equity capital in developing countries and help these economies access long-term growth capital, management skills, and financial expertise, all of which are key factors in expanding economic development and creating new opportunities for people in low-income and developing nations.

**Locations:** Angola, Benin, Botswana, Burkina Faso, Burundi, Cameroon, Cape Verde, Central African Republic, Chad, Comoros, Côte d’Ivoire, Democratic Republic of the Congo, Djibouti, Egypt, Equatorial Guinea, Eritrea, Ethiopia, Gabon, Gambia, Ghana, Guinea, Guinea-Bissau, Kenya, Lesotho, Liberia, Madagascar, Malawi, Mali, Mauritania, Mauritius, Mozambique, Namibia, Niger, Nigeria, Republic of the Congo, Rwanda, Sao Tome and Principe, Senegal, Sierra Leone, Somalia, South Africa, South Sudan, Tanzania, Togo, Uganda, Zambia, Zimbabwe, eSwatini

ElectriFI

Category: Finance
Sub-Category: Debt Finance
User: Private Sector

Donors: European Union (EU), United States Agency for International Development (USAID)
Donor Countries: European Union, United States of America

Description:
ElectriFI was created as a financing scheme to bridge the gaps in structuring and financing, thus stimulating the private sector, and mobilizing financiers in the sector of energy development cooperation. It is a fund for renewable energy investments and energy efficiency with a focus on rural electrification. ElectriFI contribution per project is between EUR 0.5M and EUR 10.0 million (or equivalent local currency). Support can be made available in the forms, including, debt, quasi-equity and equity. ElectriFI provides financial support primarily through risk capital. It does not provide grant funding, concessional loans or other low-cost capital.

On- or Off-Grid: Both

Geography:
Global

Eligibility:
Ticket sizes between €0.5 and €10 million, early projects or pilot phase, own capital is expected to be in the scale of 15-50%

Contact information:
electrif@edfimc.eu

Energizing Development (EnDev)

**Category:** Finance  
**Sub-Category:** Grant Funding  
**User:** Private Sector

**Donors:** Australian Government Department of Foreign Affairs and Trade (DFAT), Department for International Development (DFID), Dutch Ministry of Foreign Affairs (DGIS), Federal Ministry for Economic Cooperation and Development (BMZ), Norwegian Ministry of Foreign Affairs, Swedish International Development Agency (Sida), Swiss Agency for Development Cooperation (SDC)  
**Donor Countries:** Australia, Germany, Netherlands, Norway, Sweden, Switzerland, United Kingdom

**Description:** Sustainable access to modern energy services that meet the needs of the poor. EnDev includes a Results-Based Financing mechanism providing incentive-based payments to stimulate off-grid energy access markets. This can include household solar. EnDev promotes sustainable access to modern energy services for households, social institutions and small to medium-sized enterprises in developing countries in Africa, Asia and Latin America.

**Locations:** Benin, Kenya, Rwanda, Tanzania  
**On- or Off-Grid:** Off-Grid

**Geography:**  
Kenya, Rwanda, Tanzania and Benin (RBF calls to date)

**Eligibility:**  
An important precondition is that structures need to be in place to secure access to energy in the long run. In this way, the partnership program seizes present potential and fosters positive outlooks. However, EnDev only intervenes if the access would not occur otherwise within the next five years.

**Supported Projects:**  
- can prove successful strategies (performance),  
- meet criteria determined by a needs assessment, and;  
- match focal areas defined by financiers.

**Contact information:**  
Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH  
Energizing Development  
Dag-Hammarskjöld-Weg 1-5  
65760 Eschborn, Germany

FMO Infrastructure Development Fund/ Direct Investment

Category: Finance  
Sub-Category: Debt Finance  
User: Private Sector  
Donors: International Finance Corporation (IFC), Proparco  
Donor Countries: France, Multi-donor

Description:  
€362 million fund with target Returns: 20-25% for equity, 15-20% for debt.

The IDF financing is available for:
- Long-term financing for large infrastructure projects (loans of up to €20 million – in euros, USD or local currencies).
- Minority shares in equity investments.
- Investments in dedicated infrastructure investment funds.
- Early stage equity for new project development are also an option.

Location: Sub Saharan Africa  
On- or Off-Grid: Off-Grid

Geography:  
Sub Saharan Africa

Eligibility:  
The sectors served by the IDF are energy, transport, ports, agribusiness, water, environment and social infrastructure.

The IDF is available to infrastructure projects that are positively impacting social-economic development and/or improvements in areas such as power, agribusiness, water, transport, and environment.

To be eligible, a project must meet FMO’s standard criteria. Aside from financial-economic performance, projects are scrutinized in areas such as corporate governance, environmental impact and social policies to ensure the sustainability of the investment. IDF has a higher degree of risk acceptance than FMO’s own funding. To assess eligibility, FMO reviews investment plans, market analyses, due diligence studies, expected returns and the commitment level of management and co-financiers.

IFC Global Infrastructure Project Development Fund

**Category:** Finance  
**Sub-Category:** Equity  
**User:** Project Developers  
**Donors:** International Finance Corporation (IFC), World Bank (WB)  
**Donor Countries:** Multi-donor  

**Description:**  
Helps develop public-private partnerships and private projects for infrastructure in developing countries. It provides early-stage risk capital and actively participates in the project development phase to create private infrastructure projects that are commercially viable and able to more rapidly achieve financing close. The IFC serves as a co-developer and provides expertise in critical areas, while partially funding the project's development. For Private project developers. Fund can provide up to $8 million in early stage for project expenses (Feasibility Studies, Environmental Studies, Financial Models, Negotiating terms etc.) Mainly for grid scale utility-size projects.

**Location:** Sub Saharan Africa  
**On- or Off-Grid:** Not Specified  

**Geography:**  
Sub Saharan Africa  

**Eligibility:**  
Project must be a PPP. Must be early stage. Generally for projects > $200 million  

**Contact information:**  
Alain Ebobisse, E-mail: AEbobisse@ifc.org, Phone: 202-458-1850

IFC Infrastructure Department - Power Group

**Category:** Finance  
**Sub-Categories:** Debt Finance, Equity, Guarantees  
**User:** Private Sector  
**Donor:** International Finance Corporation (IFC)  
**Donor Countries:** Multi-donor

**Description:**  
Finances electricity generation, transmission, and distribution upgrades in developing countries, with a particular focus on natural gas and renewable energy such as solar, wind, and hydropower. Can finance projects at an early stage, lead investment rounds, mobilize additional funding through syndication programs, and work with the World Bank on an integrated series of reforms and guarantees to support a transaction.

**Location:** Sub Saharan Africa  
**On- or Off-Grid:** Both

**Geography:**  
Developing countries that are a member of IFC, and regional programs.

**Eligibility:**  
Project must have good prospects of being profitable, benefit the local economy, and meet IFC’s Performance Standards. Requires detailed appraisal, and review and approval by IFC Board. IFC does not lend directly to SME’s or individuals.

**Contact information:**

IFC Sub-National Finance

**Category:** Finance  
**Sub-Categories:** Debt Finance, Guarantees  
**User:** Public Sector  

**Donor:** International Finance Corporation (IFC)  
**Donor Countries:** Multi-donor

**Description:**  
Offers local governments and creditworthy State-Owned Enterprises the opportunity to finance public infrastructure projects without sovereign guarantees. Also helps mobilize domestic resources, by e.g. using partial guarantee instruments. Primarily water and waste water, but also includes power, district heating, and gas transmission and distribution.

**Location:** Sub Saharan Africa  
**On- or Off-Grid:** Both

**Geography:**  
Developing countries that are a member of IFC, and regional programs.

**Eligibility:**  
Creditworthy municipal and regional governments, and their service entities; selected nationally-owned infrastructure enterprises; banks and financial institutions that finance subnational infrastructure; PPPs that provide subnational infrastructure.

**Contact information:**  
Elena Bourganskaia  
Global Head of Sub-National Finance

IFC-Canada Climate Change Program

**Category:** Finance  
**Sub-Category:** Guarantees  
**User:** Private Sector  

**Donors:** Government of Canada (GoC), International Finance Corporation (IFC)  
**Donor Countries:** Canada, Multi-donor  

**Description:**  
The objective of the Program is to address market barriers that prevent the faster, more widespread or longer-term sustainable adoption of low-carbon technologies and business models designed to address climate change. These include, for example, the lack of financing for clean energy projects due to financial intermediaries' lack of expertise and perceptions of high risk; the limited capacity, experience, and information available to companies that seek to develop clean energy projects; and the lack of a supportive enabling environment.

**Locations:** Angola, Benin, Burkina Faso, Burundi, Cameroon, Cape Verde, Central African Republic, Chad, Comoros, Côte d'Ivoire, Democratic Republic of the Congo, Djibouti, Equatorial Guinea, Eritrea, Ethiopia, Gambia, Ghana, Guinea, Guinea-Bissau, Kenya, Lesotho, Liberia, Madagascar, Malawi, Mali, Mauritania, Mozambique, Niger, Nigeria, Republic of the Congo, Rwanda, Sao Tome and Principe, Senegal, Sierra Leone, Somalia, South Sudan, Sudan, Tanzania, Togo, Uganda, Zambia, Zimbabwe, eSwatini

**On- or Off-Grid:** Both

**Geography:**  
Projects funded by the Program Countries that are eligible for Overseas Development Assistance (ODA) and are also Non-Annex I Parties to the United Nations Framework Convention on Climate Change.

**Eligibility:**  
Eligible investments and advisory services activities support the abatement of greenhouse gas (GHG) emissions and climate adaptation opportunities, such as those related to (i) low carbon actions in the power sector, including renewable energy and increased efficiency in generation, transmission, and distribution; (ii) large-scale adoption of energy efficient technologies and other demand management techniques in industrial sectors, as well as commercial and residential buildings; (iii) sustainable agriculture, forestry, and land use; and (iv) reductions in the vulnerability of human or natural systems to actual or expected climate change impacts and risks by maintaining or increasing adaptive capacity and resilience.

**Contact information:**  
Kruskaia Sierra-Escalante, Manager  
IFC Blended Climate Finance  
ksierraescalante@ifc.org

**Last updated:** August 12, 2020

**Category:** Finance  
**Sub-Category:** Debt Finance  
**User:** Private Sector

**Donors:** Government of Canada (GoC), International Finance Corporation (IFC)  
**Donor Countries:** Canada, Multi-donor

**Description:**
AREI is an African-led continental platform to accelerate access to clean, affordable and gender-sensitive renewable energy systems. Canada is providing a $150 million repayable contribution (returnable capital model) to IFC to invest in eligible renewable energy projects that support AREI objectives over a 25-year period. Canadian funds are expected to leverage an additional USD 350 million in public and private sector investments, thus “unlocking” private capital that would normally not be available to these projects.

**Locations:** Angola, Benin, Botswana, Burkina Faso, Cameroon, Cape Verde, Central African Republic, Chad, Comoros, Côte d’Ivoire, Democratic Republic of the Congo, Eritrea, Ethiopia, Gabon, Gambia, Ghana, Guinea, Guinea-Bissau, Kenya, Lesotho, Liberia, Madagascar, Malawi, Mali, Mauritania, Mauritius, Mozambique, Namibia, Niger, Rwanda, Sao Tome and Principe, Senegal, Seychelles, Sierra Leone, Somalia, South Africa, Tanzania, Togo, Uganda, Zambia, eSwatini

**On- or Off-Grid:** Both

**Geography:**
ODA-eligible counties in Sub Saharan Africa.

**Eligibility:**
Eligible investments technologies as per AREI criteria.

### Pilot projects

**Category:** Finance  
**Sub-Category:** Technical Assistance  
**Users:** Private Sector, Project Developers, Public Sector, U.S. Companies  
**Donor:** United States Trade and Development Agency (USTDA)  
**Donor Countries:** United States of America  

**Description:**  
USTDA tests U.S. equipment and technology in overseas settings to promote cutting-edge U.S. solutions and identify new development opportunities for scalability and replicability throughout emerging markets. USTDA partners with U.S. companies to co-fund the piloting of U.S. solutions as USTDA funding covers services and analytics, not equipment.

**Location:** Sub Saharan Africa  
**On- or Off-Grid:** Both  

**Geography:**  
Low- and middle-income countries, with priority given to select countries in each region.

**Eligibility:**  
Technology/solution must be U.S. made and the project must represent an opportunity many times greater than the initial investment of USTDA assistance. The project must be likely to receive implementation financing, once the solution is proven.

**Contact information:**  
Africa@ustda.gov

### Renewable Energy Performance Platform (REPP)

**Category:** Finance  
**Sub-Category:** Debt Finance  
**User:** Project Developers  
**Donors:** African Trade Insurance Agency (ATI), European Investment Bank (EIB), UK Department of Energy and Climate Change (DECC), United Nations Environment Programme (UNEP), United States International Development Finance Corporation (DFC)  
**Donor Countries:** European Union, Kenya, United Kingdom, United States of America  

**Description:**  
REPP works to bridge the gap between the Levelized Cost of Electricity (LCOE) and the prevailing tariff in each country, by tailoring a range of services to each project. These services include providing technical assistance to projects, facilitating access to existing risk mitigation instruments and long-term lending from REPP partners as well as providing results-based finance, for example, in the form of top-ups to existing tariffs, where appropriate.

**Locations:** Benin, Burkina Faso, Burundi, Côte d'Ivoire, Ethiopia, Ghana, Kenya, Liberia, Madagascar, Malawi, Mali, Mozambique, Nigeria, Rwanda, Senegal, Sierra Leone, Tanzania, Togo, Zimbabwe

ResponsAbility

Category: Finance
Sub-Category: Debt Finance

User: Project Developers

Donors: International Finance Corporation (IFC), ResponsAbility, Shell Foundation
Donor Countries: Multi-donor, Multinational, United Kingdom

Description:
The company supplies debt/equity financing to non-listed firms in developing countries. Through their activities, these firms help to meet the basic needs of broad sections of the population and to drive economic development – leading to greater prosperity in the long term. Late development stage (i.e. major contracts should be signed or close to signing).

Focus on renewable energy sources: ResponsAbility can provide equity or debt financing to private companies that are active in the field of renewable energy generation – whether the power they produce is fed into the grid or used for captive consumption.

Investing in innovative business models: Financing is also available to companies that produce or distribute renewable energy products to domestic users, as well as to other companies with innovative business models along the value chain. Suppliers of energy-efficient appliances, as well as renewable energy mini-grids, may also qualify for investment.

Addressing the efficient use of energy: Increasing the efficiency of energy consumption can help to mitigate growth-related increases in energy demand. ResponsAbility works through dedicated financing for the financial sector used to fund energy efficiency projects. ResponsAbility may also finance such projects directly (e.g. ESCO financing).

Location: Sub Saharan Africa
On- or Off-Grid: Off-Grid

Geography: Unknown

Eligibility:
- The project must have reached a late development stage, i.e. major contracts should be signed or close to signing (e.g. PPA, EPC, and O&M)
- Equity sponsors should be identified and ready to invest or have already invested
- The project must classify as a Category B or Category C project under the IFC Performance Standards
- ResponsAbility does not compete with the local financial sector, i.e. projects must have a financing gap that cannot be filled locally
- ResponsAbility does not offer refinancing of already completed projects

The fund is complemented by a Technical Assistance Facility, which is supported by SECO.

Sustainable Energy Fund for Africa (SEFA)

**Category:** Finance  
**Sub-Categories:** Equity, Grant Funding  
**Users:** Other Stakeholders, Project Developers  

**Donor:** African Development Bank (AfDB)  
**Donor Countries:** Cote d'Ivoire

**Description:**  
Multi-donor trust fund managed by the African Development Bank providing catalytic finance to unlock private sector investments in clean energy. SEFA avails technical assistance and concessional finance instruments to remove market barriers, build a more robust pipeline of projects and improve the risk-return profile of individual investments. SEFA's overarching goal is to contribute to universal access to affordable, reliable, sustainable and modern energy services for all in Africa, in line with the Sustainable Development Goal 7.

**Locations:** Algeria, Angola, Benin, Botswana, Burkina Faso, Burundi, Cameroon, Cape Verde, Central African Republic, Chad, Comoros, Côte d'Ivoire, Democratic Republic of the Congo, Djibouti, Egypt, Equatorial Guinea, Eritrea, Ethiopia, Gabon, Gambia, Ghana, Guinea, Guinea-Bissau, Kenya, Lesotho, Liberia, Libya, Madagascar, Malawi, Mali, Mauritania, Mauritius, Morocco, Mozambique, Namibia, Niger, Nigeria, Republic of the Congo, Rwanda, Sao Tome and Principe, Senegal, Seychelles, Sierra Leone, Somalia, South Africa, South Sudan, Sudan, Tanzania, Togo, Tunisia, Uganda, Zambia, Zimbabwe, eSwatini

**On- or Off-Grid:** Both

**Geography:** AfDB Regional Member Countries

**Eligibility:**  
Project undertaken in the Bank’s Regional Member Countries. Proposed project’s sponsor is a privately-owned or is a PPP (reimbursable Grant/0% loan at financial closure). Regional Member countries can use project preparation funding to prepare competitive tenders (Grant). Proposed project will be aligned with the three SEFA thematic areas: (i) Green Baseload, (ii) Green Mini-Grids and (iii) Energy Efficiency

## Universal Green Energy Access Program (UGEAP) by GCF

**Category:** Finance  
**Sub-Category:** Debt Finance  
**User:** Private Sector  
**Donors:** Deutsche Bank, Green Climate Fund (GCF)  
**Donor Countries:** Germany, Multi-donor  

**Description:**  
Blended finance model, leveraging private capital and building capacity for lending to green ESCOs among local FIs in 8 SSA countries. The user would be local financial institutions lending to green energy supply companies.

**Locations:** Benin, Kenya, Namibia, Nigeria, Tanzania  
**On- or Off-Grid:** Both  

**Geography:**  
Phase 1: Kenya, Rwanda, Tanzania, Uganda, Namibia, Zambia.  
Phase 2: Any country active in Sub Saharan Africa.

**Eligibility:**  
Lend 5-10 year senior USD debt:  
— Through local FIs to deliver capital to local energy supply companies in local currency; or  
— Directly as syndicated project finance loans in parallel to local & regional (development) banks (no FX exposure envisaged).

USADF Blended Finance Funding

**Category:** Finance  
**Sub-Category:** Debt Finance  
**User:** Private Sector  

**Donor:** United States African Development Foundation (USADF)  
**Donor Countries:** United States of America

**Description:**  
Provides a combination of grant and debt or equity funding to African-owned and operated energy enterprises that deploy renewable resources and power local economic activities, and have a strong demonstrated potential to scale.

**Locations:** Kenya, Mali, Nigeria  
**On- or Off-Grid:** Off-Grid

**Geography:**  
Select Sub Saharan Africa countries (Nigeria, Kenya, Mali to date)

**Eligibility:**  
Applicants must provide off-grid solutions that deploy renewable resources and power local economic activities

**Contact information:**  
[info@usadf.gov](mailto:info@usadf.gov)

## USTDA Grants

**Category:** Finance  
**Sub-Category:** Grant Funding  
**Users:** Private Sector, Project Developers, Public Sector, U.S. Companies  
**Donor:** United States Trade and Development Agency (USTDA)  
**Donor Countries:** United States of America  

**Description:**  
Grant support open to project developers and host governments for feasibility studies, technical assistance, and the comprehensive analyses that infrastructure projects need to move from concept to financing and implementation.

**Location:** Sub Saharan Africa  
**On- or Off-Grid:** Both  

**Geography:**  
Low- and middle-income countries, with priority given to select countries in each region.

**Eligibility:**  
Grant recipients must be host country entities and can either a) approach USTDA with a U.S. firm ready to perform the USTDA-funded activity (sole-sourced) or b) work with USTDA to compete out the work to U.S. firms (competed). Project must: (1) be likely to receive implementation financing, and in addition, have a procurement process that provides "equal access" to U.S. firms; (2) represent an opportunity for sales of U.S. goods and services that is many times greater than the initial investment of USTDA assistance; (3) be a development priority of the project sponsor and country where the project is located and have the endorsement of the U.S. Embassy in that nation. It may also involve U.S. companies that are facing market entry problems and/or strong competition from foreign companies which often receive subsidies and other support from their governments.

World Bank Solar Risk Mitigation Initiative (SRM) under Energy Sector Management Program (ESMAP)

Category: Finance  
Sub-Category: Technical Assistance  
User: Open to All

Donor: United States Agency for International Development (USAID)  
Donor Countries: United States of America

Description:  
The Energy Sector Management Program is a trust fund that supports a host of technical assistance and knowledge work in support of advancing global energy goals and client governments. The SRMI was launched at the COP 24 in December 2018 by the World Bank’s Energy Sector Management Assistance Program (ESMAP), the Agence Francaise de Developpement (AFD) and the International Solar Alliance (ISA), and joined recently by the International Renewable Energy Agency (IRENA). SRMI is an integrated approach to solar deployment that will leverage private sector investments, bilateral and multilateral development, finance, and concessional climate finance.

On- or Off-Grid: Both

Geography:  
Africa

Eligibility:  
Open to all
