11. STATEMENT OF DUTIES

1. General Statement of Purpose of the Contract:

Launched in 2003 by President George W. Bush, and reauthorized in 2008, PEPFAR holds a place in history as the largest effort by any nation to combat a single disease. Since its inception, PEPFAR has successfully demonstrated worldwide success in addressing the HIV/AIDS epidemic with gains particularly evident in Africa. It achieved success in expanding access to HIV prevention, care and treatment in low-resource settings.

With a projected population of over 100 million people, Ethiopia is the second most populous country in Sub-Saharan Africa. Despite impressive economic growth, Ethiopia remains a low-income country with a real per capita income of US \$550 and 33.5% of the population living below the international poverty line of \$1.90/day. According to the 2015 UN Human Development Index, Ethiopia ranks 174 out of 188 countries on both the overall index and the per capita Gross National Income, with a gross domestic product of \$1,428. It is also one of the least urbanized countries, with 80% of the population living in rural areas. The HIV/AIDS epidemic in Ethiopia continues to be characterized by a low-intensity, mixed epidemic with significant heterogeneity across geographic areas and population groups. There is significant prevalence variation by region; from 4.8% in Addis Ababa, 4.4% in Gambella, to 0.6% in Southern Nations, Nationalities and Peoples' (SNNPR) region. Key and Priority Populations (KP and PP) are key drivers of the epidemic. For KP, PEPFAR-E only targets Female Sex Workers (FSW); and for PP, PEPFAR-E includes divorced and widowed persons, Orphans and Vulnerable Children, HIV negative partners in discordant couples, clients of FSWs, uniformed personnel, and vulnerable adolescent girls and young women.

Since 2005 trends in ANC prevalence in Ethiopia show steady and steep declines by as much as 60% according to latest UN models of HIV incidence, and suggest general success of combined prevention efforts by PEPFAR, GOE and other partners. With the right strategies, an AIDS-free generation may be truly achievable in this setting. A high circumcision rate (92%), among other factors such as significant gains in prevention of mother-to-child transmission (PMTCT), continue to favor primary prevention among the general population. Among the general population, sources of new infection can be divided into sexual transmission from high-risk behavior before or outside marriage and sexual and vertical transmission occurring within marriage. The aging demographic profile of the epidemic combined with high rates of sero-discordant married couples (65%) imply that more HIV transmission occurs within marriage compared to other African epidemics; remarriage rates, however, exceed 40% regardless of gender or residence. Widowed and divorced men and women show substantially higher infection rates than other groups. Early arranged marriage, partner violence, and gender inequality are cited as causes of high divorce rates and significantly elevated rates of HIV prevalence associated with divorce and remarriage.

Beginning in 2005, implementation of PEPFAR is through 5 USG agencies: U.S. Centers for Disease Control and Prevention (CDC), U.S. Department of Defense (DOD), U.S. State Department (Population and Refugee Migration Office, and the Community Grants Office), Peace Corps, and the U.S. Agency for International Development (USAID); however Peace Corps is in the process of transitioning out of PEPFAR. To date bilateral USG investment is \$2.6 billion. In addition Ethiopia has been a recipient of over \$2 billion from the Global Fund to fight AIDS, Tuberculosis and Malaria (Global Fund). Given the nature of Ethiopia's epidemic, PEPFAR-E's strategic goals are primarily to (i) support the Government of Ethiopia to achieve the UNAIDS Fast Track Strategy toward sustained epidemic control; and (ii) support the national HIV/AIDS response to strengthen case detection, treatment, care and support interventions toward key and priority populations, and in high HIV burden geographic areas. PEPFAR funds prevention, care and treatment activities implemented at facility and community sites; as well as cross-cutting activities in laboratory, strategic information, and supply chain management. Historically, support for health systems strengthening (HSS) have included efforts to expand the health workforce through support to pre-service training, implementation of Ethiopia's Pharmaceutical Logistics Master Plan, the Laboratory Master Plan, the Health Management Information System Scale-up, Health Sector Financing Reform and Health Insurance, Hospital Reform Implementation Guidelines, and the Human Resources for Health (HRH) strategy. The private healthcare sector is nascent but growing and could be an important complement to the public arena, particularly as the public sector engages private practice as a workforce retention strategy. PEPFAR supports activities through 44 partners including government, civil society, international and local NGOs, and the World Health Organization. In 2014, PEPFAR began transitioning the full care and treatment portfolio to the Ethiopian government, providing funding to eight of 11 Regional Health Bureaus (RHBs) and one international NGO to provide technical assistance.

The PEPFAR Deputy Country Coordinator, reporting to the PEPFAR Country Coordinator (PCC) in Ethiopia, will support the full mandate of the PEPFAR Ethiopia Coordination Office (PECO). The Deputy Country Coordinator will work closely with the PCC to ensure full communications between and among the various USG agencies involved in the President's Emergency Plan for AIDS Relief (PEPFAR) in Ethiopia as well as communicating with the Office of the U.S. Global AIDS Coordinator (OGAC), particularly the Ethiopia Country Lead. The Deputy Coordinator manages critical and time-sensitive communications and work products between and among the various US Government (USG) agencies involved in the PEPFAR Ethiopia Program. The Deputy Coordinator liaises routinely with OGAC. In the absence of the Country Coordinator, the Deputy Coordinator serves as the Acting Country Coordinator.

2. Statement of Duties to be Performed:

The Deputy PEPFAR Coordinator:

- Works under the direction of the PEPFAR Country Coordinator (PCC), to provide day-to-day coordination in implementing the USG PEPFAR strategy. Supports the PCC as the focal point for all USG matters related to HIV and AIDS.
- Participates in PEPFAR Ethiopia policy and technical discussions and strategic planning and negotiations with the GOE, cooperating partners and the USG interagency team to implement PEPFAR investment priorities.
- Applies knowledge and expertise in HIV and AIDS, primary health care and health

policy to situate effective HIV/AIDS strategies and programs within the broader health sector agenda.

- In conjunction with the Coordinator, support the development of the annual Country Operational Plan (COP). Ensure appropriate documentation of performance results, including quarterly reviews, semi-Annual and Annual Performance Reports (S/APR and APR).
- Interfaces within the USG agencies to ensure the full and effective implementation of all PEPFAR programs and initiatives. Works with OGAC to ensure the full implementation of all PEPFAR policies and directives from Washington; and the timely submission of all PEPFAR documents such as COP, APR, and all other required documents.
- Works closely with the Global Fund (Secretariat, Country Coordinating Mechanism, and technical oversight committees), to ensure synergy between PEPFAR and Global Fund supported programs.

SPECIFIC TASKS TO BE ACCOMPLISHED:

a. HIV/AIDS Coordination and Planning with the Ethiopia Interagency Collaborative Team

- Manages all logistical and practical support for scheduled and ad hoc meetings of the PEPFAR Collaborative Team and Interagency Technical Teams, as well as meetings with stakeholders and implementing partners
- Develops and manages compliance with annual calendars and work plans for production of the Country Operational Plan
- Serves as co-convenor (with the PEPFAR Country Coordinator) of regular meetings of PEPFAR agency liaisons from USAID, CDC, Peace Corps, Department of Defense and Refugee Program for optimal coordination of programs

b. HIV/AIDS Subject Matter Specialist

- Works closely with the Strategic Technical Advisor to provide technical support for Strategic Information activities (SI) and other USG Technical Working Groups (TWGs) for HIV/AIDS prevention, care and treatment mitigation, particularly as the work relates to the production of the various target and financial performance reports
- Participates in National and USG Technical Working Groups (TWGs) as relevant
- Participates in inter-agency sites visits as relevant

c. HIV/AIDS Coordination with the Office of the Global AIDS coordinator (OGAC)

- Participates in meetings with the OGAC review team for Ethiopia
- Serves as secondary point of contact for ad hoc queries from OGAC regarding status of overall planning and reporting for PEPFAR in Ethiopia
- With the Country Coordinator, manages iterative participation in headquarters interagency reviews of the annual Ethiopia Country Operational Plans, , semi-annual and annual performance reporting, and other PEPFAR wide review processes

d. Budgeting, Personnel Management and Administrative Responsibilities

- Leads Expenditure Analysis process and COP budget preparation
- With the Country Coordinator, tracks expenditures and pipelines, reprogramming, and FACTS INFO data against annual operating budgets

- Liaises with OGAC budget and appropriations staff and in-country participating agencies to ensure rapid and effective availability and use of funds
- Provides technical and leadership support with special projects as requested

3. Supervisory Relationship:

The Deputy PEPFAR Coordinator does not have a supervisory role. Although the incumbent will be a senior member of a very dynamic team in a fast-paced environment, he/she must be able to work independently with minimal supervision. The incumbent is accountable for the effective performance of the PEPFAR Country Coordination Office and the ability for team members to work together to prioritize actions for effective implementation.

4. Supervisory Controls:

The Deputy Coordinator directly reports to the PEPFAR Country Coordinator. General direction and supervision provided by the PEPFAR Country Coordinator.

12. PHYSICAL DEMANDS:

The work requested does not involve undue physical demands.

Note: No in-person appointments or telephone calls will be entertained, unless you are required to have more information about this solicitation.

II. MINIMUM QUALIFICATIONS REQUIRED FOR THIS POSITION

Applications will be initially screened by the Human Resources Office to determine whether applicants have met the advertised minimum qualifications. A list of qualified applicants will be referred to the hiring office for further consideration and screening.

Experience and/or knowledge of the Global Fund is desired.

III. EVALUATION AND SELECTION FACTORS

The Government may award a contract without discussions with offerors in accordance with [FAR 52.215-1](#). The CO reserves the right at any point in the evaluation process to establish a competitive range of offerors with whom negotiations will be conducted pursuant to [FAR 15.306\(c\)](#). In accordance with [FAR 52.215-1](#), if the CO determines that the number of offers that would otherwise be in the competitive range exceeds the number at which an efficient competition can be conducted, the CO may limit the number of offerors in the competitive range to the greatest number that will permit an efficient competition among the most highly rated offers. The FAR provisions referenced above are available at <https://www.acquisition.gov/browse/index/far>. **The TEC will conduct interviews with all**

offerors in the competitive range and provide the final rating and ranking of the offerors based on the interview and/or written test. The CO will consider findings from the reference checks as part of the responsibility determination.

EDUCATION (20 points): MPH, MSH, or PhD in health, public health, epidemiology, sociology or related field. *Additional evaluation points will be given to offerors who exceed the minimum requirement.*

EXPERIENCE (30 points): Minimum five years' experience in public health/development programs in developing countries with demonstrated broad technical knowledge and experience in (a) program analysis and planning, (b) planning and management of programs in developing countries. At least two of the five years of experience must be in HIV/AIDS. Demonstrated ability to work effectively with a range of stakeholders; across entities that may not share the same perspective; and negotiate an agreed way forward in the context of differing points of view. Experience and/or knowledge of the Global Fund is desired.

KNOWLEDGE, SKILLS AND ABILITIES (50 points): The incumbent must have knowledge of and experience with complex, web-based program planning and reporting databases. The incumbent must have ability to analyze and monitor complex health situations. High degree of judgment, maturity, ingenuity and originality to interpret strategy; to analyze, develop and present work; and to monitor and evaluate implementation of programs is required. Must have excellent interpersonal skills and be able to work constructively in diverse teams. Knowledge of HIV/AIDS and public health programming related to service delivery is required.
