The Local Partner Development (LPD) activity focuses on building the capacity of Jamaican institutions, civil society organizations and key public and private partners to become more effective in advancing collaborative, evidence-based youth crime and violence prevention strategies that mobilize and sustain targeted secondary and tertiary prevention efforts.

To assist Jamaica's response to the COVID-19 pandemic, LPD also implemented a one-year intervention (2020-2021), delivering social welfare support to vulnerable youth, families, and communities, as well as providing assistance to address issues such as child abuse and domestic violence.
