

Ukraine – Complex Emergency

MAY 27, 2022

SITUATION AT A GLANCE

- The GoRF invasion of Ukraine displaces nearly 15 million people, bringing the total number of individuals displaced globally to approximately 100 million people for the first time in recorded history.
- Persistent GoRF bombardment of Luhansk *Oblast's* Severodonetsk city and nearby areas in eastern Ukraine hinders civilian evacuations.
- The GoRF renews attacks on Kharkiv *Oblast's* Kharkiv city, as the countrywide civilian death toll surpasses 4,000.
- International donors—including the USG—mark three months since the GoRF invasion with a joint statement calling on parties to the conflict to protect civilians and humanitarian aid workers.

TOTAL U.S. GOVERNMENT HUMANITARIAN FUNDING For the Ukraine Response in FY 2022 ¹	USAID/BHA ²	\$476,828,503
	State/PRM ³	\$211,622,792
Total		\$688,451,295

TIMELINE

Dec. 2021–Feb. 2022

USAID/BHA pre-positions staff and relief supplies in anticipation of increased humanitarian needs in Ukraine

February 24, 2022

GoRF armed forces further invade Ukraine

February 24, 2022

USAID/BHA announces the activation of a DART to lead the USG humanitarian response to the crisis in Ukraine and a Washington, D.C.-based RMT to support the DART

February 27, 2022

The USG announces nearly \$54 million in additional humanitarian assistance.

March 3, 2022

The first USAID/BHA relief commodities arrive in Lviv for onward distribution

March 9, 2022

U.S. Vice President Kamala Harris announces an additional \$53 million in USG humanitarian assistance

March 15, 2022

State/PRM announces an additional \$186 million in assistance

March 24, 2022

The White House announces \$1 billion in planned USG humanitarian assistance

May 2, 2022

DART staff visit Lviv city to coordinate with humanitarian partners

May 5, 2022

Administrator Power announces \$387 million in additional USAID/BHA humanitarian assistance

KEY DEVELOPMENTS

GoRF Invasion Brings Global Displacement to Record High, Increases Protection Risks Among the Displaced

Since the Government of the Russian Federation (GoRF) further invaded Ukraine on February 24, more than 6.7 million refugees had fled Ukraine to neighboring countries as of May 26, the Office of the UN High Commissioner for Refugees (UNHCR) reports. The conflict had also internally displaced more than 8 million people as of early May, according to the International Organization for Migration (IOM). With nearly 15 million people—approximately 30 percent of Ukraine’s pre-war population—displaced in just three months, the GoRF invasion of Ukraine has propelled the number of displaced persons worldwide to more than 100 million for the first time in recorded history, representing more than 1 percent of the global population, UNHCR announced on May 23.

Ongoing displacement from and within Ukraine continues to drive humanitarian needs and expose civilians to significant protection risks, with relief actors raising particular concern regarding human trafficking and gender-based violence (GBV). As the conflict continues, human trafficking risks are likely to increase due to dwindling access to income-generating activities, affordable accommodations, and essential commodities; loss of documentation; and family separation among displaced households, according to the Protection Cluster, the coordinating body for humanitarian protection activities, comprising UN agencies, non-governmental organizations (NGOs), and other stakeholders. Moreover, risk of trafficking and GBV—including conflict-related sexual violence, intimate partner violence, sexual exploitation and abuse, and sexual harassment—is particularly high for women and girls in transit, at border crossing points, and in collective shelters for displaced individuals, the UN reports. In response, the Protection Cluster—led by State/PRM partner UNHCR—activated an Anti-Trafficking Task Force in late May to integrate human trafficking prevention and preparedness into the Ukraine humanitarian response. Furthermore, in coordination with local NGO partners, UNHCR has provided protection services—including psychosocial support, legal assistance, and referrals to critical services—to nearly 197,000 people in Ukraine since the onset of the conflict, reaching individuals at border crossing points, displacement centers, and through online support.

Escalating GoRF Hostilities in Eastern, Southern Ukraine Impede Civilian Evacuation Efforts

In recent weeks, the GoRF has increased attacks in Luhansk *Oblast’s* Severodonetsk city, where an estimated 15,000 civilians remained largely without access to water or electricity for more than a week as of May 26, the UN reports. The constant shelling and May 21 destruction of a crucial bridge leading out of the city has severely limited humanitarian access and restricted civilian evacuation efforts, and on May 24 a Severodonetsk city official advised civilians remaining in the besieged city to continue to shelter

rather than attempt dangerous evacuations, international media report. On the same day, GoRF shelling struck a bus evacuating 18 civilians from Luhansk's nearby Vrubivka town, although no civilians were injured, according to a Government of Ukraine (GoU) official. In addition, GoRF shelling had damaged a critical gas supply line and the last remaining gas distribution station in Luhansk as of May 25, further inhibiting access to basic services and restricting civilian movement.

GoRF attacks have also escalated in Donetsk *Oblast* and continued in Kherson *Oblast* in recent days. In Donetsk's Bakhmut *Raion*, humanitarian conditions are reportedly dire among the 20,000 civilians remaining in Bakhmut city; however, constant shelling is impeding both evacuation attempts and delivery of humanitarian aid to the city, as well as to nearby areas, according to the UN. In mid-May, U.S. Government (USG) partner the UN Children's Fund (UNICEF) provided remote support to evacuate and secure alternative shelter locations for internally displaced persons (IDPs) in two SPILNO centers—UNICEF's strategic hubs to support children and families in transit inside Ukraine—amid the increased hostilities in Bakhmut *Raion*. GoRF forces shelled both locations soon after the evacuations, significantly damaging the centers and underscoring the continued insecurity facing civilians and aid workers. Meanwhile, in southern Ukraine's Kherson, GoRF missiles struck a convoy of vehicles evacuating civilians from GoRF-occupied areas on May 18, resulting in at least three deaths and injury to six others, international media report. The international community continues to urge parties to the conflict to allow safe evacuation corridors for civilians fleeing conflict-affected areas, which require coordinated pauses in hostilities.

GoRF Renews Attacks in Kharkiv, Estimated Civilian Death Toll Rises

After two weeks of improved security conditions following the mid-May GoRF retreat from Kharkiv *Oblast's* Kharkiv city, renewed GoRF attacks in residential areas of the city on May 26 killed nine civilians and injured 19 others, international media report. Moreover, in the *oblast's* Lozova city, GoRF attacks injured at least eight civilians and damaged residential buildings, health care facilities, and schools on May 20, according to the UN. The renewed attacks come as the total official civilian death toll surpasses 4,000, according to the latest Office of the UN High Commissioner for Human Rights (OHCHR) report, which monitors and documents civilian casualties in Ukraine; the UN agency had also recorded more than 4,700 civilians injured due to hostilities as of May 26. However, both OHCHR and the GoU continue to underscore that civilian casualty figures are likely much higher, particularly as evidence of mass casualty events comes to light. On May 24, residents of Donetsk's Mariupol city uncovered more than 200 bodies beneath the rubble of a residential building damaged by GoRF attacks in the city, international media report. The discovery follows early May reports from media-led investigations that a mid-March airstrike on a theater serving as a bomb shelter in Mariupol killed an estimated 600 civilians.

Overall, local officials in Mariupol estimate that months of significant GoRF bombardment had resulted in at least 22,000 deaths among city residents as of May 25, nearly 5 percent of the city's pre-war population of 450,000 people, though OHCHR remains unable to verify the number of casualties in Mariupol due to limited access to the city. In addition, GoRF hostilities had reportedly destroyed an estimated 90 percent of Mariupol's infrastructure as of late May, according to the city's mayor. Mariupol's remaining residents continue to lack sufficient access to electricity, food, income, and safe drinking water. As in other GoRF-controlled areas of Ukraine, only organizations accredited by de facto authorities are permitted to carry out humanitarian activities in Mariupol, restricting the ability of humanitarian actors to respond to persistent needs.

USG, International Donors Call for Protection of Civilians and Aid Workers

Marking three months since the February 24 GoRF invasion of Ukraine, 12 international donors—including the USG—released a statement on May 24, urging parties to the conflict to respect international humanitarian law and protect civilians, health care workers, and humanitarian personnel, as well as civilian infrastructure. The group also called for safe and unimpeded humanitarian access to conflict-affected areas, as well as respect for the humanitarian notification system (HNS) to ensure the safety of relief staff conducting life-saving programs. Relief organizations use the HNS to alert the GoRF and GoU of humanitarian movements and infrastructure coordinates, according to the UN.

Furthermore, the donors urged parties to the conflict to create the conditions necessary to allow people to evacuate safely from areas experiencing active hostilities to the locations of their choice.

KEY FIGURES

87,000

Number of USAID/BHA-provided high-thermal blankets delivered for distribution in Ukraine

U.S. GOVERNMENT RESPONSE

LOGISTICS AND RELIEF COMMODITIES

USAID/BHA partners are working to transport relief commodities to Ukraine from neighboring countries and provide these items to conflict-affected individuals, as security and humanitarian access conditions permit. Between late February and late April, USAID/BHA provided the IOM with approximately 87,000 blankets and 18,500 kitchen sets to improve living conditions for displaced people; 20,000 High Energy Biscuits (HEB) to meet emergency food needs; and 4,800 10-liter water containers, as well as water tanks and treatment units, to improve access to safe drinking water and prevent disease among communities in Ukraine.

Moreover, USAID/BHA is supporting the UN World Food Program (WFP) to lead the Logistics and Emergency Telecommunications clusters. As part of its role as the Logistics Cluster lead, WFP is coordinating logistics services for the broader humanitarian response, developing common advocacy to address logistical challenges, facilitating humanitarian convoys and corridors to hard-to-reach areas, and establishing logistics bases to consolidate and prioritize humanitarian cargo deliveries. As of mid-May, the Logistics Cluster had facilitated the movement of approximately 11,000 metric tons (MT) of humanitarian assistance for distribution to conflict-affected households in Ukraine since late February.

Meanwhile, State/PRM is supporting IOM and UNHCR to provide logistics support to the refugee response in neighboring countries.

FOOD SECURITY

To meet increasing food needs among conflict-affected individuals, WFP is scaling up operations to assist up to 6 million people in Ukraine and neighboring countries by June with USAID/BHA and other donor support. As part of this effort, USAID/BHA is funding WFP to procure and distribute more than 67,900 MT of in-kind food assistance to support approximately 1.3 million people and deliver HEB sufficient to meet immediate food needs for 239,000 people for five days in Ukraine. This assistance will help people fleeing active fighting, households who have lost income sources due to

\$205 Million

In dedicated FY 2022 USAID/BHA funding for life-saving food assistance

conflict, and other vulnerable populations to access the food they need. Overall, WFP had reached 5 million individuals with emergency food assistance and cash distributions in Ukraine as of May 25.

USAID/BHA is also supporting Catholic Relief Services (CRS) to provide cooked meals to people in collective shelters in Moldova who have fled the war in Ukraine.

\$109 Million

In dedicated FY 2022
USAID/BHA support for
MPCA

MULTIPURPOSE CASH ASSISTANCE

USAID/BHA supports IOM, WFP, and two international NGOs (INGOs), while State/PRM supports IOM, UNHCR, and an implementing partner, to provide multipurpose cash assistance (MPCA) to help conflict-affected individuals meet their basic needs. Cash allows displaced or other conflict-affected people to access food, household items, shelter, safe drinking water, and other supplies through local markets, and distributing cash can be faster and more efficient than providing in-kind commodities.

WFP is providing cash assistance to vulnerable people for three months across Ukraine, and the UN agency had reached more than 800,000 displaced people with MPCA with USAID/BHA and other donor support as of May 25. Meanwhile, as of May 25, State/PRM partner UNHCR had enrolled more than 362,000 people across 11 *oblasts* of Ukraine to receive MPCA. State/PRM is also supporting IOM and UNHCR to provide MPCA to refugees in neighboring countries, as well as UNICEF to provide cash assistance to vulnerable households with children in transit. As of May 25, UNHCR had enrolled nearly 180,000 people in Moldova, Poland, Romania, and Slovakia in its MPCA program.

1.6 Million

Number of people that
can receive health care
with supplies distributed
by USG partner UNICEF

HEALTH

To support the health needs of conflict-affected populations, USG humanitarian partners are providing health care supplies, medicine, and other health assistance in Ukraine and neighboring countries. USAID/BHA is supporting UNICEF, the UN World Health Organization (WHO), and two INGO partners to respond to emergency health needs in Ukraine, including by treating trauma injuries and providing other essential health care services. With USG and other donor support, UNICEF distributed medical supplies sufficient to treat more than 1.6 million people to health care facilities across Ukraine from February 24 to May 17.

Meanwhile, USAID/BHA partner WHO had delivered more than 500 MT of life-saving medical supplies—including essential medicines, medical equipment, and supplies to treat traumatic injuries—to health facilities in Ukraine as of May 25, with a majority of items delivered to conflict-affected regions. Also with USAID/BHA support, WHO has delivered 10 interagency emergency health kits—sufficient to provide health care for 100,000 people for three months—and five trauma and emergency surgery kits, with combined medicines and supplies to support at least 500 surgical operations in emergency situations, into Ukraine’s capital city of Kyiv.

State/PRM is supporting WHO to provide health care to refugees in neighboring countries. This includes meeting urgent trauma care needs by deploying emergency medical teams; providing trauma kits, essential medical supplies and equipment, and logistics support to fill urgent gaps; extending access to coronavirus disease (COVID-19) services to refugee populations, including vaccinations; preventing and responding to vaccine-preventable diseases, such as measles and polio; providing psychosocial support to vulnerable populations and frontline health care workers; and preventing sexual exploitation and abuse.

In addition, State/PRM is supporting the UN Population Fund (UNFPA) in Hungary, Moldova, Poland, and Slovakia to increase health system capacity to absorb an increased refugee caseload through the deployment of mobile and static integrated community sexual and reproductive health (SRH) and GBV health units, supplies, and interventions to increase access to SRH and GBV prevention and response services. State/PRM is also supporting UNICEF in neighboring countries to scale up health support, including to prevent disease outbreaks and support infection prevention and control training. In addition, State/PRM is supporting IOM to provide primary health care consultations, mobile health and emergency services, and mobile psychosocial support teams.

85,000

Number of people that USAID/BHA hygiene supplies provided to IFRC and an INGO can support in Ukraine

WASH

Disaster-affected populations are often more susceptible to illness and death from waterborne diseases, such as cholera and dysentery, as disasters affect access to hygiene items, sanitation services, and safe drinking water. In response, USG humanitarian partners are providing water, sanitation, and hygiene (WASH) supplies, such as hygiene kits containing soap and other items to reduce disease transmission; repairing damaged water and sanitation infrastructure; and transporting and distributing safe drinking water in conflict-affected areas. In addition, USAID/BHA also supports the WASH Cluster to provide humanitarian coordination and information management support, including sharing critical information with humanitarian partners regarding conflict incidents affecting WASH infrastructure and services.

USAID/BHA supports IOM, UNICEF, and four INGO partners to address WASH needs. With support from USAID/BHA and other donors, UNICEF has facilitated access to safe drinking water for more than 2 million people in Ukraine by increasing water availability in collective sites, such as shelters for IDPs; conducting water trucking services; and distributing drinking water between late February and late May. The UN agency also distributed WASH commodities to nearly 142,000 people across Ukraine during the period. Furthermore, USAID/BHA has delivered 105 shipping pallets of hygiene supplies to the International Federation of Red Cross and Red Crescent Societies (IFRC), 95 pallets to IOM, and 65 pallets to an INGO partner in neighboring countries for onward distribution into Ukraine; each pallet

contains supplies sufficient to meet the needs of 500 people.

State/PRM partners are also conducting WASH activities among conflict-affected communities in Ukraine and refugees in neighboring countries, including by strengthening sanitation infrastructure in shelters and distributing hygiene kits to refugees. State/PRM is also supporting IOM to provide hygiene kits, safe drinking water, and water infrastructure.

12

Number of USG implementing partners providing essential protection services

PROTECTION

Conflict often exacerbates individuals' vulnerability to protection risks. People must cope with threats such as sexual violence, violence in the home, family separation, exploitative labor, and exclusion from life-saving humanitarian assistance, among other concerns. In response, USAID/BHA supports UNICEF, WHO, and six INGOs to implement protection interventions for vulnerable populations. USAID/BHA partners provide mental health and psychosocial support services (MHPSS) to children, persons with disabilities, and older people; operate mobile protection teams to reach remote communities with GBV prevention and response activities, legal assistance, and MHPSS; and conduct other protection activities. Furthermore, USAID/BHA is supporting UNICEF to meet the protection needs of children in displacement centers, as well as assist unaccompanied and separated children, who are particularly vulnerable to exploitation.

In addition, State/PRM partners—including IOM, UNHCR, and UNICEF—provide protection and legal services to vulnerable individuals in Ukraine and neighboring countries. Partners are establishing Blue Dots, which are multi-agency facilities that provide one-stop protection services and social service referrals to new refugee arrivals in neighboring countries. As of May 25, State/PRM partners had established 33 Blue Dots reaching tens of thousands of people with protection services in Bulgaria, Hungary, Italy, Moldova, Poland, Romania, and Slovakia.

In neighboring countries, State/PRM is providing protection support through IOM, UNFPA, UNHCR, and UNICEF. Services include GBV prevention and response, child protection, and MHPSS support; prevention and response to trafficking in persons; and establishment of child-friendly and women and girl-friendly spaces, which not only offer case management and referral services, but also provide areas for women and children to feel physically and emotionally safe.

CONTEXT IN BRIEF

- The GoRF commenced widespread attacks against Ukraine on February 24 after months of gathering hundreds of thousands of military forces and heavy weaponry near its border with Ukraine. Immediately prior, the GoRF had ordered forces into Donetsk and Luhansk non-government-controlled areas after recognizing the areas' independence from Ukraine on February 21.
- On February 24, USAID announced the activation of a USAID Disaster Assistance Response Team (DART) to lead the USG humanitarian response to the crisis in Ukraine, with initial staff in Rzeszów, Poland; Chişinău, Moldova; Budapest, Hungary; Bucharest, Romania; and Bratislava, Slovakia. To support the DART, USAID activated a Response Management Team (RMT) in Washington, D.C. State/PRM staff in Warsaw, Poland; Budapest, Hungary; Chişinău, Moldova; Bucharest, Romania; Bratislava, Slovakia; and Washington, D.C., also continue to support response activities.
- Since March 2014, the conflict in eastern Ukraine has caused large-scale population displacement and widespread damage to infrastructure. The heaviest fighting has occurred in the easternmost *oblasts* bordering Russia, particularly Donetsk and Luhansk; however, the large influx of IDPs from these areas has also affected neighboring *oblasts*. The UN estimated that 2.9 million conflict-affected people in eastern Ukraine required humanitarian assistance as of early 2022 prior to the February 24 GoRF invasion.
- On November 26, 2021, U.S. Chargé d’Affaires Kristina A. Kvien renewed the disaster declaration for Ukraine for FY 2022 due to widespread displacement and continued humanitarian needs of vulnerable populations in eastern Ukraine.

PUBLIC DONATION INFORMATION

- The most effective way people can assist relief efforts is by making cash contributions to humanitarian organizations that are conducting relief operations. A list of humanitarian organizations that are accepting cash donations for disaster responses around the world can be found at [interaction.org](https://www.interaction.org).

- USAID encourages cash donations because they allow aid professionals to procure the exact items needed (often in the affected region); reduce the burden on scarce resources (such as transportation routes, staff time, and warehouse space); can be transferred very quickly and without transportation costs; support the economy of the disaster-stricken region; and ensure culturally, dietarily, and environmentally appropriate assistance.
- More information can be found at:
 - USAID Center for International Disaster Information: cidi.org
 - Information on relief activities of the humanitarian community can be found at reliefweb.int.

USAID/BHA bulletins appear on the USAID website at [usaid.gov/humanitarian-assistance/where-we-work](https://www.usaid.gov/humanitarian-assistance/where-we-work)
