# COUNTERING TRANSNATIONAL CORRUPTION GRAND CHALLENGE FOR DEVELOPMENT: HOW TO GET INVOLVED

*The **Countering Transnational Corruption Grand Challenge for Development (CTC Grand Challenge)** will leverage innovation and collaboration to prevent corrupt actors from siphoning off critical resources that should be used for the public good.*

Through the CTC Grand Challenge, USAID and its partners are building coalitions and sourcing novel tools and approaches to curb the threat of transnational corruption - notably by detecting and disrupting **illicit finance** and **trafficking in commodities**, strengthening transparency and accountability in **global supply chains**; and promoting standards, practices, and norms that enhance **integrity in the public and private sectors**.

**Join us!**

## Contribute Resources, Knowledge, and Expertise:

- Become a [foundational or operational partner](#) and provide financial support for the Grand Challenge as a whole or specific Grand Challenge activities
- Provide access to **data** to inform innovation and decision making
- Contribute to the overall **strategy, oversight, and management** of the Grand Challenge or to a specific activity
- Help build the Grand Challenge network through amplifying our **communications** and connecting us to **partners and solvers**
- Engage in **capacity building** and **mentorship** for our innovators
- Flag **market gaps** where new products or tools developed, scaled, or replicated under the Grand Challenge can make a difference
- **Identify** opportunities to transfer innovations from one market, sector, or geography to another

## Support Specific CTC Grand Challenge Activities:

- Serve as a **judge** for a competition to select promising tools and approaches
- **Host an event** on behalf of the CTC Grand Challenge
- Provide **activity design and implementation** support

## Be a Solver:

- Apply or adapt one of your **tools or approaches** to a transnational corruption problem or develop a new one
- Harness the power of your workforce by supporting or hosting an activity such as **a prize competition, datathon, codefest, or hackathon**
- Build or join a **collective action** effort
- Respond to an **open call for innovation**

## Help Innovators Grow and Scale Their Solutions:

- Provide targeted **technical assistance, mentorship, and/or matching funds** to support the growth and scaling of solutions sourced through the CTC Grand Challenge
- Provide access to **acceleration services, research, and testing facilities** to ease innovators' journey
- **Pilot and test** the solutions in your operations

## Use Our Innovations:

- Build a market for and **use** CTC Grand Challenge innovations
