## **PART 12 – CONFLICTS OF INTEREST AND EMPLOYEE CONDUCT**

45. The employee has been notified of laws, rules and regulations, and policies on employee conduct that apply to him/her while on this assignment.

A non-federal employee on assignment to a federal agency, whether by appointment or on detail, is subject to a number of provisions of law governing the ethical and other conduct of federal employees. Title 18, United States Code, prohibits certain kinds of activity:

- Receiving compensation from outside sources for matters affecting the government (section 203);
- Acting as agent or attorney for anyone in matters affecting the government (section 205);
- Acting or participating in any matter in which he or she, the immediate family, partner, or the organization with which he or she is connected has a financial interest (section 208);
- Receiving salaries or contributions from other than government sources for his or her own government services (section 209);
- Soliciting political contributions (sections 602 and 603);
- Intimidating to secure political contributions (section 606);
- Failing to account for public money (section 643);
- Converting property of another (section 654);
- Disclosing confidential information (section 1905); and
- Lobbying with appropriated funds (section 1913).

Non-federal employees are also subject to the Ethics in Government Act of 1978, 5 CFR part 2635, which regulates employee responsibilities and conduct, as well as agency standards of conduct regulations. The Intergovernmental Personnel Act does not exempt a federal employee, whether on detail or on leave without pay, from federal conflict-of-interest statutes when assigned to a non-federal organization. The federal employee may not act as an agent or attorney on behalf of the non-federal entity before a federal agency or a court in connection with any proceeding, application, or other matter in which the federal government is a party or had a direct and substantial interest. The federal agency should be particularly alert to any possible conflict of interest, or the appearance thereof, which may be inherent in the assignment of one of its employees. Conflict-of-interest rules should be reviewed with the employee to assure that potential conflict of interest situations do not inadvertently arise during an assignment.

Non-federal employees on assignment to the federal government are subject to the provisions of 5 USC Chapter 73, United States Code (suitability, security, and conduct, including restrictions on political activity), and any applicable non-federal prohibitions.
