RWANDA

PMI has supported Rwanda to fight malaria since **2007**

Rwanda's entire **13.5 million** population is at risk for malaria

Malaria is a major burden in the country, with **1.7 million cases** and **3,300 deaths** in 2021*

Rainy season is from **March to May** and **October to November**

PMI'S PROGRAM IN RWANDA

The U.S. President's Malaria Initiative (PMI) provides vital financial and technical assistance that enables the Government of Rwanda to deploy lifesaving interventions proven to fight malaria.

PMI is a critical funding source for insecticide-treated nets, malaria diagnosis and treatment, vector control, and more. PMI investments also support stronger, more-resilient health systems. For example, PMI helps train health workers, strengthen supply chains, improve data monitoring, and reinforce health policies.

PMI Rwanda's fiscal year 2022 budget was \$19 million. PMI investments support and build on those made by the Government of Rwanda, in coordination with other stakeholders. PMI investments are detailed in the Malaria Operational Plan for Rwanda,* which was developed in consultation with the Malaria and Other Parasitic Diseases Division, other donors, and technical organizations. Planned PMI activities reflect national and PMI strategies, draw on best-available data, and align with the country context and health system.

PMI'S IMPACT ON RWANDA'S MALARIA FIGHT

Since partnering with PMI, Rwanda has made significant progress against malaria. Child death rates have fallen and lifesaving interventions such as mosquito nets and diagnostic testing are reaching more people. Health systems are stronger and health workers have received more than 136,200 trainings to help them fight malaria.

SINCE PMI SUPPORT BEGAN*

● Baseline ● Most Recent

*See the latest PMI Annual Report on pmigov for more detail

The U.S. President's Malaria Initiative (PMI) supports 24 partner countries in sub-Saharan Africa and three programs in the Greater Mekong Subregion in Southeast Asia to control and eliminate malaria. Led by the U.S. Agency for International Development (USAID) and implemented together with the U.S. Centers for Disease Control and Prevention (CDC), PMI delivers cost-effective, lifesaving malaria interventions alongside catalytic technical and operational assistance to equip and empower partner countries to end malaria.

TOTAL PMI FUNDING INVESTED

\$292,227,000

DELIVERED SINCE LAUNCH
