The text appears to be a table of data, possibly related to economic growth and trade. It includes columns for various categories such as award date, location, budget, and status. The text is not a natural reading but rather a structured presentation of data.
The purpose of this activity is to support USAID's goal of promoting inclusive, accountable governance. The activity is aimed at strengthening linkages among government actors and enhancing state institutions to ensure transparency, accountability to citizens. The activities implemented under this award will strengthen the governance and policies related to the two landscapes, and provide technical assistance in support of the Sub-Purposes of the Project: (1) advancing community empowerment in Southeastern Cambodia and (2) advancing community empowerment in Northwestern Cambodia.

USAID's Essential Health Services (EHS) Activity: USAID's Essential Health Services (EHS) Activity seeks to improve access to quality health care services while enhancing the capacity of Ministry of Health and partners to ensure quality, efficient, and sustainable health services.

Reaching an AIDS-Free Generation (RAFG): USAID's Strategic Goal is to reduce the number of infections and deaths from HIV/AIDS by providing support to communities and governments to provide services, to protect and promote the rights of people living with and affected by HIV/AIDS, and to ensure that the response to HIV/AIDS is built on principles of human rights, social inclusion, gender equality, and community participation.

The purpose of this activity is to provide technical assistance and advisory services, including, but not limited to, assistance in support of strategic program development, implementation, and coordination to help countries manage transition from PEPFAR assistance in support of sustainable quality improvement of Cambodia's health services and systems.

USAID's Demographic and Health Surveillance System (DHSS) Activity: USAID's Demographic and Health Surveillance System (DHSS) Activity seeks to improve the quality of monitoring and evaluation in support of USAID's programming and program management. The activity will strengthen the capacity of Ministry of Health and partners to ensure quality, efficient, and sustainable health services.

USAID's Social and Economic Monitoring (SEMO) Activity: USAID's Social and Economic Monitoring (SEMO) Activity seeks to provide technical assistance and advisory services, including, but not limited to, assistance in support of strategic program development, implementation, and coordination to help countries manage transition from PEPFAR assistance in support of sustainable quality improvement of Cambodia's health services and systems.

USAID's Environmental and Climate Change Policy and Planning (ECC) Activity: USAID's Environmental and Climate Change Policy and Planning (ECC) Activity seeks to provide technical assistance and advisory services, including, but not limited to, assistance in support of strategic program development, implementation, and coordination to help countries manage transition from PEPFAR assistance in support of sustainable quality improvement of Cambodia's health services and systems.

USAID's Democracy, Human Rights, and Governance (DRG) Activity: USAID's Democracy, Human Rights, and Governance (DRG) Activity seeks to provide technical assistance and advisory services, including, but not limited to, assistance in support of strategic program development, implementation, and coordination to help countries manage transition from PEPFAR assistance in support of sustainable quality improvement of Cambodia's health services and systems.

USAID's Environment and Global Climate Change (EGCC) Activity: USAID's Environment and Global Climate Change (EGCC) Activity seeks to provide technical assistance and advisory services, including, but not limited to, assistance in support of strategic program development, implementation, and coordination to help countries manage transition from PEPFAR assistance in support of sustainable quality improvement of Cambodia's health services and systems.

USAID's Climate Change and Environment for Sustainability (CCES) Activity: USAID's Climate Change and Environment for Sustainability (CCES) Activity seeks to provide technical assistance and advisory services, including, but not limited to, assistance in support of strategic program development, implementation, and coordination to help countries manage transition from PEPFAR assistance in support of sustainable quality improvement of Cambodia's health services and systems.

USAID's Water, Sanitation, and Hygiene (WASH) Activity: USAID's Water, Sanitation, and Hygiene (WASH) Activity seeks to provide technical assistance and advisory services, including, but not limited to, assistance in support of strategic program development, implementation, and coordination to help countries manage transition from PEPFAR assistance in support of sustainable quality improvement of Cambodia's health services and systems.

USAID's Health, Nutrition, and Social Protection (HNSP) Activity: USAID's Health, Nutrition, and Social Protection (HNSP) Activity seeks to provide technical assistance and advisory services, including, but not limited to, assistance in support of strategic program development, implementation, and coordination to help countries manage transition from PEPFAR assistance in support of sustainable quality improvement of Cambodia's health services and systems.

USAID's Education and Training (ET) Activity: USAID's Education and Training (ET) Activity seeks to provide technical assistance and advisory services, including, but not limited to, assistance in support of strategic program development, implementation, and coordination to help countries manage transition from PEPFAR assistance in support of sustainable quality improvement of Cambodia's health services and systems.

USAID's Economic Development (ED) Activity: USAID's Economic Development (ED) Activity seeks to provide technical assistance and advisory services, including, but not limited to, assistance in support of strategic program development, implementation, and coordination to help countries manage transition from PEPFAR assistance in support of sustainable quality improvement of Cambodia's health services and systems.

USAID's Development, Democracy, Human Rights, and Governance (DDHRG) Activity: USAID's Development, Democracy, Human Rights, and Governance (DDHRG) Activity seeks to provide technical assistance and advisory services, including, but not limited to, assistance in support of strategic program development, implementation, and coordination to help countries manage transition from PEPFAR assistance in support of sustainable quality improvement of Cambodia's health services and systems.

USAID's Environmental, Social, and Labor (ES&L) Activity: USAID's Environmental, Social, and Labor (ES&L) Activity seeks to provide technical assistance and advisory services, including, but not limited to, assistance in support of strategic program development, implementation, and coordination to help countries manage transition from PEPFAR assistance in support of sustainable quality improvement of Cambodia's health services and systems.

USAID's Economic Growth and Employment (EGE) Activity: USAID's Economic Growth and Employment (EGE) Activity seeks to provide technical assistance and advisory services, including, but not limited to, assistance in support of strategic program development, implementation, and coordination to help countries manage transition from PEPFAR assistance in support of sustainable quality improvement of Cambodia's health services and systems.

USAID's Democracy, Human Rights, and Governance (DHG) Activity: USAID's Democracy, Human Rights, and Governance (DHG) Activity seeks to provide technical assistance and advisory services, including, but not limited to, assistance in support of strategic program development, implementation, and coordination to help countries manage transition from PEPFAR assistance in support of sustainable quality improvement of Cambodia's health services and systems.

USAID's Development Innovation, Transition, and Evaluation (DITE) Activity: USAID's Development Innovation, Transition, and Evaluation (DITE) Activity seeks to provide technical assistance and advisory services, including, but not limited to, assistance in support of strategic program development, implementation, and coordination to help countries manage transition from PEPFAR assistance in support of sustainable quality improvement of Cambodia's health services and systems.

USAID's Health and Economic Development (HED) Activity: USAID's Health and Economic Development (HED) Activity seeks to provide technical assistance and advisory services, including, but not limited to, assistance in support of strategic program development, implementation, and coordination to help countries manage transition from PEPFAR assistance in support of sustainable quality improvement of Cambodia's health services and systems.

USAID's Food Security and Agricultural Development (FSAD) Activity: USAID's Food Security and Agricultural Development (FSAD) Activity seeks to provide technical assistance and advisory services, including, but not limited to, assistance in support of strategic program development, implementation, and coordination to help countries manage transition from PEPFAR assistance in support of sustainable quality improvement of Cambodia's health services and systems.

USAID's Strengthening Agriculture (USAID-STRENGTH) Activity: USAID's Strengthening Agriculture (USAID-STRENGTH) Activity seeks to provide technical assistance and advisory services, including, but not limited to, assistance in support of strategic program development, implementation, and coordination to help countries manage transition from PEPFAR assistance in support of sustainable quality improvement of Cambodia's health services and systems.

USAID's Forestry, Agriculture, and Natural Resources (FARN) Activity: USAID's Forestry, Agriculture, and Natural Resources (FARN) Activity seeks to provide technical assistance and advisory services, including, but not limited to, assistance in support of strategic program development, implementation, and coordination to help countries manage transition from PEPFAR assistance in support of sustainable quality improvement of Cambodia's health services and systems.

USAID's Economic, Social, and Environmental Development (ESED) Activity: USAID's Economic, Social, and Environmental Development (ESED) Activity seeks to provide technical assistance and advisory services, including, but not limited to, assistance in support of strategic program development, implementation, and coordination to help countries manage transition from PEPFAR assistance in support of sustainable quality improvement of Cambodia's health services and systems.

USAID's Economic Development and Environment (EDE) Activity: USAID's Economic Development and Environment (EDE) Activity seeks to provide technical assistance and advisory services, including, but not limited to, assistance in support of strategic program development, implementation, and coordination to help countries manage transition from PEPFAR assistance in support of sustainable quality improvement of Cambodia's health services and systems.

USAID's Economic Development and Environment (EDE) Activity: USAID's Economic Development and Environment (EDE) Activity seeks to provide technical assistance and advisory services, including, but not limited to, assistance in support of strategic program development, implementation, and coordination to help countries manage transition from PEPFAR assistance in support of sustainable quality improvement of Cambodia's health services and systems.

USAID's Economic Development and Environment (EDE) Activity: USAID's Economic Development and Environment (EDE) Activity seeks to provide technical assistance and advisory services, including, but not limited to, assistance in support of strategic program development, implementation, and coordination to help countries manage transition from PEPFAR assistance in support of sustainable quality improvement of Cambodia's health services and systems.

USAID's Economic Development and Environment (EDE) Activity: USAID's Economic Development and Environment (EDE) Activity seeks to provide technical assistance and advisory services, including, but not limited to, assistance in support of strategic program development, implementation, and coordination to help countries manage transition from PEPFAR assistance in support of sustainable quality improvement of Cambodia's health services and systems.

USAID's Economic Development and Environment (EDE) Activity: USAID's Economic Development and Environment (EDE) Activity seeks to provide technical assistance and advisory services, including, but not limited to, assistance in support of strategic program development, implementation, and coordination to help countries manage transition from PEPFAR assistance in support of sustainable quality improvement of Cambodia's health services and systems.

USAID's Economic Development and Environment (EDE) Activity: USAID's Economic Development and Environment (EDE) Activity seeks to provide technical assistance and advisory services, including, but not limited to, assistance in support of strategic program development, implementation, and coordination to help countries manage transition from PEPFAR assistance in support of sustainable quality improvement of Cambodia's health services and systems.

USAID's Economic Development and Environment (EDE) Activity: USAID's Economic Development and Environment (EDE) Activity seeks to provide technical assistance and advisory services, including, but not limited to, assistance in support of strategic program development, implementation, and coordination to help countries manage transition from PEPFAR assistance in support of sustainable quality improvement of Cambodia's health services and systems.

The EHIP Water Supply and Management activity will provide water supply systems to rural and urban health centers, schools, and other community service facilities in Ethiopia. The implementation duration will be approximately 24 months. The activity will be implemented by the Ministry of Water, Irrigation, and Energy, and the Ministry of Health, working in collaboration with local water utilities and community organizations. The activity will focus on the development of sustainable water supply systems, including the construction of water treatment plants, supply networks, and storage facilities. The activity will also support the training of local technicians and operators, ensuring the long-term sustainability of the water supply systems. The anticipated budget for the activity is $10M - $24.99M, and the anticipated period of performance is from September 2018 to September 2020.
The United States Agency for International Development (USAID) seeks assistance from implementing organizations (for-profit and not-for-profit non-governmental organizations, universities, businesses, international organizations, and others) who can provide the following services.

The purpose of the project is to reduce social conflict and improve social cohesion in Guatemala’s Western Highlands Region. The project seeks to bring together diverse stakeholders, including government agencies, NGOs, community organizations, businesses, and other partners, to develop and implement strategies that promote peace and social cohesion.

The project will actively engage community members as participants and leaders in transformation efforts, involving the most affected communities and policymakers in all aspects of project design, implementation, and sustainability.

The project will leverage USAID’s relationships with local organizations and civil society groups to support capacity-building efforts and promote collaboration.

This activity will strengthen physical rehabilitation services and systems in Georgia by implementing the Long-term War Victims Fund (LWVF) for the Strengthening Physical Rehabilitation in Georgia (SPRING) activity.

Global Health

Global Health Technical Support to Strengthen Tuberculosis Integrated Health Systems (E3/PBPM)

This award will dramatically reduce cases of multidrug-resistant (MDR) TB through integration of care, training, and awareness raising related to MDR TB prevention and management, especially for indigenous communities and other vulnerable populations. This activity will align with the national TB control programs and health system to support the MDR TB Action Plan, improve TB/HIV co-management, and boost knowledge management and learning for USAID health projects in the Philippines. The award will provide assistance to the Office of Health for monitoring and evaluation, BEING AND COULD POSSIBLY BE REMOVED FROM THE BUSINESS FORECAST. The activity is new technical and administrative resources and hydro-climatic events, ecosystems management, and weather and climate decision support, with specific themes of drought and fire risk, water management and monitoring and evaluation.

Global Health - Phase 3 (B3/PBPM)

The overall purpose of this activity is to reduce greenhouse gas (GHG) emissions from fire and land use change. The activity will leverage key Peace milestones to mainstream climate change and adaptation considerations into design, development, and implementation of Peace programs, support to1) climate change projects and programs implementing the CCAG, and support to2) increasing the possibility to receive future on-budget support from USAID.

Sustainable Development - Global Change

The purpose of scaling-up Green Infrastructure (GI) in Peru as a strategy to regulate water and balance ecosystems management and monitoring and evaluation.

Agriculture and Food Security

Agricultural Biotech in Peru

The goal of this activity is to provide access to agriculture technology for smallholder farmers, including support to the institutional framework and legal environment. The activity will support the implementation of the National Biotechnology Development Plan. It will enhance the productivity, efficiency, and competitiveness of smallholder farmers in Peru.

Sustainable Development - Global Change

The overall purpose of this activity is to reduce greenhouse gas (GHG) emissions from fire and land use change. The activity will leverage key Peace milestones to mainstream climate change and adaptation considerations into design, development, and implementation of Peace programs, support to1) climate change projects and programs implementing the CCAG, and support to2) increasing the possibility to receive future on-budget support from USAID.
