

Partnerships for Enhanced Engagement in Research (PEER)

PEER invites developing country researchers to apply for financial support for research and capacity-building activities in partnership with U.S. scientists sponsored by nine federal science agencies. U.S. federal science agencies participating in the PEER program include: the National Aeronautics and Space Administration, National Institute of Health, National Oceanic and Atmospheric Administration, National Science Foundation, U.S. Department of Agriculture including the Agricultural Research Service, National Institute of Food and Agriculture, and Forest Service, U.S. Geological Survey, and the Smithsonian Institution. General technical areas funded include, but are not limited to, water resources management, climate change, biodiversity, energy, disaster mitigation, nutrition, maternal and child health, and infectious diseases. In addition to the overarching fields above, PEER invites pre-proposals from applicants in the following specific countries or regions or working on the following topical areas:

- **Global: Health Implementation Science**
- **Infectious Disease in the Middle East**
- **Central and South Central Asia: Transboundary Water Research**
- **SERVIR Priority Countries: Environmental Management and Climate Change Resilience**
- **RDMA Priority Countries: Rapid Assessment of Fish Stocks**
- **Brazil: Biodiversity in the Brazilian Amazon**
- **Indonesia: Multiple Sectors**
- **South Africa: Multiple Sectors**
- **Vietnam: Biodiversity**
- **Planet NI Priority Countries: Renewable Energy and Microgrids**
- **India: GE Partnership**
- **Tunisia: Multiple Sectors**
