The service provider will deliver the service as same as its current warranties.

**Selection Criteria**

A) Detailed Price Quote (60%)

B) Past Performance (40%)

All interested parties must submit a detailed price quotation along with documentation that demonstrates previous successful completion of services described in this statement of work; this could include letters of recommendations, appreciation or other evidence of vendor capability from previous customers.

The USAID Contracting Officer will select the successful contractor using a Best Value approach, considering price factors and past performance. The Contracting Officer, at the Government's discretion, may enter into negotiations with one or more offeror to discuss improvements in the proposal and cost deduction. Upon successful negotiation with the vendor, a purchase order will be issued, and a lump sum payment made upon acceptance of all deliverables and within 30 days of receipt of invoice.
