To Interested Applicants:

The purpose of this Annual Program Statement (APS) is to solicit applications for funding from the USAID Social Cohesion and Reconciliation (SCORE) Activity. Global Communities, through the United States Agency for International Development (USAID), is announcing a two-step process:

Step 1: Applicants submit concept papers;
Step 2: Full applications from shortlisted applicants

This process is intended to select eligible proposals to implement activities to cover the following areas of intervention in social cohesion and reconciliation:

1. Engage with community, citizen-driven initiatives and networks to strengthen and promote social cohesion and reconciliation.
2. Reduce socio economic disparities and exclusions by supporting recovery and resettlement of conflict-affected populations, create economic opportunities for the most marginalized communities and strengthen Local Government bodies and CBOs to provide sustainable services to the most marginalized communities and populations.
3. Enhance community resilience by providing access to psychosocial and trauma healing services and creates opportunities for youth and women to exercise leadership in promoting responsible citizenship and reconciliation.
4. Any other innovative, non-traditional, wide-ranging national or local level special activities to promote social cohesion and reconciliation

This APS solicits applications for interventions that seek to transform relationships from the community to the national government level, to build horizontal and vertical social capital and foster the capacity to leverage that social capital for increased resilience and a vision of shared Sri Lankan identity. This approach is based on the growing evidence that sustainable impact toward reconciliation and peacebuilding is best achieved by combining interpersonal approaches that engage individuals and communities in skills building and attitude change and institutional approaches that are led by government to implement supportive policies and mechanisms.

The applications for interventions should be able to be implemented in districts throughout Sri Lanka, but particularly in the SCORE Year 1 target districts of Jaffna, Vavuniya, Trincomalee and Moneragala. Applicants should clearly mention the geographic areas in which project activities will be implemented.

SCORE, on behalf of USAID, anticipates awarding grants to successful applicants submitted in response to this APS. Competition for this APS will be open for twelve months on a rolling basis.

All concept papers for review in the first round of evaluations are due by 15 September 2018. Successful concept papers that fall within the criteria set forth in this APS may be invited to submit full proposals. Successful applications may be selected for funding by SCORE.

The length of the proposed activities or interventions can be up to one (1) year. The number of awards and amount of available funding is subject to change and Global Communities reserves the right to make no awards as a result of this APS.

Submission of questions: Questions on this APS should be addressed to SCOREAPS@globalcommunities.org and will be reviewed and answered on a rolling basis. Telephone calls regarding technical content will not be entertained.

The issuance of this APS does not constitute an award or commitment on the part of Global Communities, nor does it commit Global Communities to pay for costs incurred in the preparation and submission of a concept paper or an application. Global Communities reserves the right to fund any or none of the applications submitted. Further, Global Communities reserves the right to make no awards as a result of this APS.
(1) **Description of the Proposed Program**

The purpose of the USAID Social Cohesion and Reconciliation (SCORE) Activity is to strengthen Sri-Lankan-led efforts to advance social cohesion and reconciliation. SCORE seeks to address certain underlying challenges to reconciliation by fostering a shared and inclusive Sri Lankan identity, reducing socio-economic and political disparities that undermine social cohesion, and enhancing community resilience through multiple capacity building initiatives. SCORE is designed to achieve the results listed under the following scope of work:

1. **Promote a cohesive Sri Lankan Identity**
   - Result 1.1: Communities engage constructively in reconciliation processes
   - Result 1.2: Citizen-driven initiatives and networks strengthened to promote social cohesion and reconciliation
   - Result 1.3: Improved local and national government institutions and processes promoting social cohesion and reconciliation

2. **Reduce socioeconomic disparities and exclusion**
   - Result 2.1: Recovery and resettlement of conflict affected populations advanced
   - Result 2.2: Improved economic opportunities for the most marginalized communities
   - Result 2.3: Local governments and CBOs strengthened to provide sustainable services to the most marginalized communities and populations

3. **Enhance community resilience**
   - Result 3.1: Increased access to psychosocial and trauma healing services
   - Result 3.2: Increased opportunities for youth and women to exercise leadership in promoting responsible citizenship and reconciliation

Global Communities’ strategy considers the evolving political context by applying growing evidence that **sustainable impact** toward reconciliation and peacebuilding is best achieved by: 1) combining interpersonal and institutional approaches; and 2) enabling the continued engagement across identity groups that is necessary for changes in attitudes to be sustained. We apply an **adaptive management** approach
with regular vertical and horizontal reviews between staff, partners, stakeholders and community members to rapidly support strategic opportunities and contextual shifts.
