

USAID PROGRAMMING ALIGNMENT WITH THE ALLIANCE FOR PROSPERITY (A4P)

USAID's activities under the Strategy for Engagement in Central America align to nearly **79%** of the Alliance for Prosperity's Lines of Action (LoA), based on a 2016 analysis.

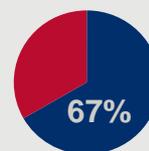

■ USAID alignment with A4P LoA
■ A4P LoA not supported by USAID

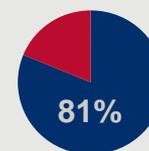

Alignment to Strategic Areas: The A4P's LoA fall into four Strategic Areas (SA). USAID's alignment is as follows:

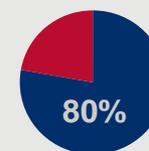

SA1:
Fostering
the Productive
Sector

SA2:
Developing
Human
Capital

SA3:
Improving
Citizen Security
and Access
to Justice

SA4:
Strengthening
Institutions

- Due to legal, policy, and/or regulatory restrictions, USAID is not programming in certain A4P LOA; for example, large infrastructure and secondary school education. These LOAs are not reflected within these graphs.
- USAID also programs in areas outside of the A4P that are USG priorities, including the strengthening of civil society; the protection of human rights; support for anti-corruption entities; and focusing on those areas of the country that help meet the goals of reducing homicides, migration, and poverty.
