

Alignment with GHS Agenda Objectives

Prevent Avoidable Epidemics: including naturally occurring outbreaks and intentional or accidental releases by:

- Preventing the emergence and spread of antimicrobial drug resistant organisms and emerging zoonotic diseases and strengthening international regulatory frameworks governing food safety:
- Promoting national biosafety and biosecurity systems:
- Reducing the number and magnitude of infectious disease outbreaks: (immunizations)

Emerging Threats Program

Alignment with GHS Agenda Objectives

Detect Threats Early: including detecting, characterizing, and transparently reporting emerging biological threats early through real-time bio-surveillance, by:

- **Launching, strengthening and linking global networks for real-time biosurveillance:**
- **Strengthening the global norm of rapid, transparent reporting and sample sharing in the event of health emergencies of international concern:**
- **Developing and deploying novel diagnostics and strengthen laboratory systems:**
- **Training and deploying an effective bio-surveillance workforce:**

Emerging Threats Program

Alignment with GHS Agenda Objectives

Respond Rapidly and Effectively to biological threats of international concern by:

- **Developing an interconnected global network of Emergency Operations Centers and multi-sectoral response to biological incidents**
- **Improving global access to medical and non-medical countermeasures during health emergencies:**
