

# U.S. HURRICANE MATTHEW RESPONSE EFFORT

Hurricane Matthew, a Category 4 storm, struck the central Caribbean on October 4-6, 2016. In advance of the storm's arrival, USAID activated a regional Disaster Assistance Response Team (DART) on October 3. The DART – which at its height comprised of more than 70 people—led the U.S. humanitarian response efforts in coordination with affected governments. The majority of the U.S. response was focused on Haiti, which sustained the most damage from hurricane.

## U.S. Humanitarian Assistance

# Over \$82 Million

provided to Haiti, The Bahamas, and Jamaica. In Haiti we provided:

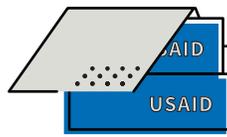

**49,400**  
Blankets

**23,200**  
Kitchen Sets

**28,100**
