# Report to Congress on Modernizing the Websites and Digital Services of the U.S. Agency for International Development

As required by Section 3(b)(2) of Public Law 115-336,<sup>1</sup> the 21st Century Integrated Digital Experience Act (21st Century IDEA), this report includes a list of key websites and digital services the U.S. Agency for International Development (USAID) has prioritized and targeted for modernization.

## Background

Section 3(a) of the 21st Century IDEA requires each Federal Executive Branch Department and Agency to provide a prioritized list of its “most-viewed or ... otherwise important” public websites and digital services, and to offer an estimation of the cost and schedule to modernize these sites and services.

## Key Websites and Digital Services

USAID has identified the following website as high-traffic and/or important for public engagement:

- **USAID.gov (including its subsets [explorer.usaid.gov](http://explorer.usaid.gov) and [results.usaid.gov](http://results.usaid.gov))** – the public website for USAID and the primary user-engagement tool for the Agency to interact with, and disseminate information to, the general public, partners, beneficiaries, and other Federal Government Departments and Agencies

## Priorities for Modernization

USAID has prioritized USAID.gov, which the Agency has reviewed and determined complies with the requirements of Section 3(a) of 21st Century IDEA. USAID updated the website before the passage of 21st Century IDEA, and therefore reports no estimated costs for modernizing it.
