PURPOSE:

The purpose of this AAPD is to provide notice to USAID Contracting Officers and Agreement Officers of new addresses and means of submission for submitting documents to USAID’s Development Experience Clearinghouse (DEC) and to provide a revised contract clause, AIDAR 752.7005, and revised assistance instrument and interagency agreement schedules and standard provisions in ADS Chapters 303, 306, and 308 with these addresses.

BACKGROUND:

DEC acquires USAID-funded reports and publications for dissemination to the international development community. Effective August 18, 2003, it relocated to new quarters, and it has revised the addresses and means of submission for contractors, recipients, and participating agencies to use in submitting documents to it to reflect the move and to offer new options for submitting documents.

GUIDANCE:

As interim promulgations pending formal revision of AIDAR and ADS 303, 306, and 308, we are providing the current addresses and means of submission to DEC. Substitute the following full text revisions of the contract clause or the assistance instrument or interagency agreement provisions in lieu of those current versions contained in these documents in solicitations, new awards, and existing awards:

A. Acquisitions: AIDAR 752.7005.

Note: the updated AIDAR 752.7005 was issued under the AAPD 13-02.

NOTE: The new language has been incorporated into the schedule of the Assistance templates (For Internal Use Only See http://inside.usaid.gov/M/OAA/policy/news_AssistanceAwardTemplates.html). The revised provision has been incorporated into the Standard Provisions for U.S. and Non-U.S. Non-governmental Organizations which are listed under the Internal Mandatory References of ADS 303. See http://www.usaid.gov/policy/ads/300/303maa.pdf

1. PURPOSE:

This AAPD provides guidance on processing and generating awards, and award modifications in the Global Acquisition & Assistance System (GLAAS).

Required Action: Effective immediately, Negotiators, Contracting Officers (COs), and Agreement Officers (AOs) must process and generate all acquisition and assistance (A&A) awards and A&A award modifications in GLAAS. The exceptions to this requirement are awards falling outside the parameters of GLAAS, such as leases, bilateral obligations, awards funded by Master Funding Documents, Miscellaneous Obligating Documents, and Travel Authorizations.

2. BACKGROUND:

GLAAS is USAID’s worldwide, web-based Acquisition and Assistance System. GLAAS helps USAID fulfill the President’s mandate for greater transparency, efficiency, and collaboration in Government. This is achieved by integrating with government-wide systems, generating reports, interfacing with Phoenix, standardizing and streamlining Agency business processes, and facilitating collaboration between Washington and the Missions. In order to achieve these goals, it is critical that GLAAS be fully utilized.

M/OAA/E has included utilization of GLAAS on the Evaluation Scorecard used as part of the Procurement System Review.

3. GUIDANCE:

To maximize the benefits of GLAAS, negotiators, COs, and AOs must process and generate the entire award/modification package in GLAAS. In addition to entering the information needed to pass GLAAS validations and record the obligations in Phoenix, negotiators, COs, and AOs must also create their award and award modifications in GLAAS using the appropriate templates, clauses/provisions and forms available in the system. **Processing awards and award modifications within GLAAS is mandatory for ALL A&A staff in Missions and USAID/Washington. Failure to process A&A documentation in GLAAS will result in disciplinary action, with potential loss of warrant authority.**

GLAAS includes the standard FAR forms for acquisition awards and the standard letter cover pages for assistance awards. Other USAID specific forms can be found in the GLAAS Library. For guidance using GLAAS forms, please refer to the User Guide for Filling out a Form: [http://inside.usaid.gov/glaas/sites/default/files/16_Filling_Out_a_Form.pdf](http://inside.usaid.gov/glaas/sites/default/files/16_Filling_Out_a_Form.pdf). GLAAS also contains the most current version of the AIDAR clauses and Assistance provisions. FAR clauses are updated within 30 business days from the effective date of each Federal Acquisition Circular (FAC) update.

In addition, acquisition and assistance templates have been created to help standardize awards and ensure mandatory clauses and provisions are included in awards. For each acquisition award type in GLAAS, there are corresponding clause templates—one specifically for the FAR clauses and the other for the AIDAR clauses. There are also several templates for the various types of Assistance Awards. For guidance using GLAAS clauses/provisions, please refer to the User Guide for Working with Clauses: [http://inside.usaid.gov/glaas/sites/default/files/17_Working_with_Clauses.pdf](http://inside.usaid.gov/glaas/sites/default/files/17_Working_with_Clauses.pdf). After the appropriate award template or form and corresponding clauses/provisions are selected, one must complete all fill-in information before generating the award. Once the award is generated, GLAAS has a function whereby the person preparing the award documentation is able to “Check Out” the MS Word version of the award, perform any necessary formatting updates, and “Check In” the award document so that the award document is completed in GLAAS. Once the document is checked back in to GLAAS, the award can be printed, along with the cover page, and sent to the vendor/recipient for signature.
After the award is Approved and Released, and the cover page has been signed by relevant parties, the Negotiator must scan the signed copy, open the released award, and upload the signed copy as a Supporting Document.

The Negotiator/Contract Specialist must -
- Complete the awards/modifications in GLAAS,
- Attest in his/her recommendation in the Negotiation Memorandum that the award/modification has been undertaken in GLAAS, and
- Attest that he/she will scan/upload the fully signed award/modification into the Support file within 3 days of execution.
