1. **PURPOSE:**

This Acquisition & Assistance Policy Directive (AAPD):

A. Provides contract clauses and assistance provisions to be included in contracts, grants and cooperative agreements that obligate or intend to obligate (in the case of solicitations) FY04-FY13 funds made available for HIV/AIDS activities, regardless of the program account, including:
   (1) Conscience Clause Implementation (previously titled “Organizations Eligible for Assistance”);
   (2) Condoms; and
   (3) Prohibitions on Promotion or Advocacy of the Legalization or Practice of Prostitution or Sex Trafficking.

B. Replaces all previous versions of the contract clause and assistance provision titled “Organizations Eligible for Assistance” with the revised versions in Attachments A through C, titled “Conscience Clause Implementation”;

C. Provides guidance to Contracting Officers (COs) and Agreement Officers (AOs) regarding what actions to take if an organization raises a Conscience Clause objection; and

D. Replaces and supersedes in their entirety AAPD 05-04, AAPD 05-04 Amendment No. 1, AAPD 05-04 Amendment No. 2, AAPD 05-04 Amendment No.3, PEB No. 2005-08, and PEB 2008-04.

The provisions in this AAPD impose funding restrictions that enable USAID to exercise administrative remedies should the awardee violate the United States Leadership Against HIV/AIDS, Tuberculosis, and Malaria Act of 2003, as amended, by not complying with the terms of the award.

**Required Actions:**

A. COs and AOs must insert the contract clauses and assistance provisions in Attachments A, B, or C in accordance with the conditions in Section 2.A, 2.B, 2.C and 2.D.

B. COs and AOs must consider the guidance regarding “Conscience Clause Objections” in Section 2.E.

C. COs and AOs must comply with the “Organizational Integrity Guidance” in Section 2.F.
2. **GUIDANCE:**

   A. Conditions

   AOs must include the provisions in Attachments A, B or C as prescribed in Sections 2.B, 2.C and 2.D below when obligating or intending to obligate (in the case of solicitations) FY04-FY13 funds made available for HIV/AIDS activities, regardless of the program account.

   B. Assistance Awards

   (1) For assistance awards to Non-Governmental Organizations (NGOs) and Non-Exempt Public International Organizations\(^1\) (PIOs) that meet the conditions set forth in Section 2.A above, AOs must include the provisions in Attachment A in each of the following:

   (a) Any new Request for Applications (RFA) and Annual Program Statement (APS);  
   (b) Any new grant or cooperative agreement; and  
   (c) Any modification to an existing grant or cooperative agreement.

   (2) For assistance awards to Alliance for Open Society International (AOSI), Pathfinder or a member of Global Health Council ("GHC"), or InterAction\(^2\) (with the exception of DKT International, Inc.) that meet the conditions set forth in Section 2.A above, AOs must also include the language in the footnote in Attachment A, section A.3 in each of the following:

   (a) Any new grant or cooperative agreement; and  
   (b) Any modification to an existing grant or cooperative agreement.

   (a) Any new grant or cooperative agreement; and  
   (b) Any modification to an existing grant or cooperative agreement.

   C. Contracts

   1. For contracts that meet the conditions set forth in Section 2.A above, the CO must include the special provisions in Attachment C in each of the following:

---

\(^1\) The PIOs that are statutorily exempted are listed in Section 2.F.

\(^2\) The lists of members of GHC and InterAction can be found at: [http://www.usaid.gov/business/business_opportunities/cib/pdf/GlobalHealthMemberlist.pdf].

\(^3\) As under previous versions of AAPD 05-04, this AAPD 12-04 does not apply to USAID contributions to capital of multidonor trust funds, such as to the Trust Fund for the Global Fund to Fight AIDS, Tuberculosis and Malaria.
(a) Any new acquisition solicitation;
(b) Any new contract;
(c) Any amendment to an existing contract; and
(d) For any Indefinite Quantity Contract (IQC), in the basic IQC contract at the time
that the CO executes a new task order or an amendment to an existing task order.\(^4\)

2. For contracts to AOSI, Pathfinder or a member of Global Health Council (―GHC‖), or InterAction\(^5\) (with the exception of DKT International, Inc.) that meet the conditions set forth in Section 2.A above, COs must also include the footnote in Attachment C, section C.3 in each of the following:

(a) Any new contract or IQC award; and

4. Grants under Contracts

If a contract provides for the contractor to execute grants to NGOs (not-for-profits or for-profits), then the AO must provide in the solicitation that the contractor must comply with the requirement to use the assistance provisions in Section 2.B of this AAPD. \(^4\) The special provisions in Attachment C must be included in the IQC award. Such provisions will be deemed to apply to any order placed under the IQC for HIV/AIDS activities.

instruments are modified on or after the effective date of this AAPD, to add funding for any reason.

This modification must be bilateral (i.e., must be signed by the USAID AO/CO and the awardee). By signing the modification, the contractor or recipient agrees to be bound by the clause requirements. Current contracts, grants, and cooperative agreements need not be modified to include the new clauses until they are modified to add funds.

E. Conscience Clause Objections

Operating units design solicitations following evidence-based and country-specific approaches to create the most effective program with the most efficient use of resources. Linkages and referrals – across HIV/AIDS services and between HIV/AIDS programs and other health or development programs – to create multisectoral or comprehensive programs are frequently programmatically appropriate in order to achieve desired health outcomes.

Under Sections A.1, B.1 and C.1 in Attachments A, B, and C, respectively, organizations shall not be required to endorse or utilize a multisectoral or comprehensive approach to combating HIV/AIDS or to endorse, utilize, make a referral to, become integrated with, or otherwise participate in any program or activity to which the organization has a religious or moral objection. For example, for moral or religious reasons, some organizations choose not to provide condoms or other contraceptives. To accommodate an organization’s moral or religious objection as described in these sections, solicitations for HIV/AIDS programs must specify that an organization is eligible to compete for any funding opportunity as a prime partner, or as a leader or member of a consortium that comes together to compete for an award, even where the organization has a religious or moral objection to a specific activity or activities contemplated under the award. In organizing a consortium, members have flexibility to determine how to combine forces to provide comprehensive or integrated services.

Ultimately, an organization with a religious or moral objection may choose to submit an offer that does not respond to all of the specified activities. If such organization has properly notified the cognizant CO or AO of a religious or moral objection pursuant to the procedures set forth under Sections A.1(a) or C.1(a) in Attachments A and C, respectively, the offeror’s proposal will be evaluated based on the activities for which a proposal is submitted, and will not be evaluated favorably or unfavorably due to the absence of a proposal addressing the activity(ies) to which it objected and which it thus omitted. The cognizant CO or AO must consult GC/A&A immediately after receiving notification of a religious or moral objection to activities in a solicitation. Depending on the specific nature of the religious or moral objection, which activities the applicant has an objection to implementing, and the design of the particular solicitation, GC will work with the relevant AO/CO and technical staff to identify an appropriate approach.
F. Organization Issues

Sections A.3(b) and C.3(b) in Attachments A and C, respectively, require organizations to state in the award that they oppose the practices of prostitution and sex trafficking because of the psychological and physical risks they pose for women, men, and children. COs/AOs must therefore consider the “Organizational Integrity Guidance” below when determining a prospective or existing organization’s eligibility or compliance with these sections. COs/AOs must also obtain clearance from Agency legal counsel before issuing any written determination relating to organizational integrity pertaining to USAID awards.

Organizational Integrity of Recipient

Organizations must state in the award that they oppose prostitution and sex trafficking because of the psychological and physical risks they pose for women, men, and children. Due to organizational affiliations, such statement may be adversely implicated by the statements or activities of an affiliate of the awardee. In such cases, AOs and COs must consider the below guidance to assess whether there is such a risk. The Federal Acquisition Regulation (FAR) subpart 2.101 defines “Affiliates” as follows:

“Affiliates” means associated business concerns or individuals if, directly or indirectly—

(1) Either one controls or can control the other; or
(2) A third party controls or can control both.

There is no corresponding definition of “affiliates” in USAID assistance regulations.

Contractors and recipients of grants and cooperative agreements (hereafter collectively referred to as “Recipients”) must have objective integrity and independence from any affiliated organization that engages in activities inconsistent with the Recipient’s opposition to the practices of prostitution and sex trafficking because of the psychological and physical risks they pose for women, men, and children (“restricted activities”). A Recipient will be found to have objective integrity and independence from such an organization if:

(1) The affiliated organization receives no transfer of Leadership Act funds, and Leadership Act funds do not subsidize restricted activities; and

(2) The Recipient is, to the extent practicable in the circumstances, separate from the affiliated organization. Mere bookkeeping separation of Leadership Act funds from other funds is not sufficient. USAID will determine, on a case-by-case basis and based on the totality of the facts, whether sufficient separation exists. The presence or absence of any one or more factors relating to legal, physical, and financial separation will not be determinative. Factors relevant to this determination shall include, but are not limited to:

(a) Whether the affiliated organization is a legally separate entity;
(b) The existence of separate personnel or other allocation of personnel that maintains adequate separation of the activities of the affiliated organization from the recipient;
(c) The existence of separate accounting and timekeeping records;
(d) The degree of separation of the Recipient’s facilities from facilities in which restricted
activities occur; and
(e) The extent to which signs and other forms of identification that distinguish the
Recipient from the affiliated organization are present.

The following organizations are statutorily-exempt from the requirement to state in their awards
that they oppose the practices of prostitution and sex trafficking because of the psychological and
physical risks they pose for women, men, and children: the Global Fund to Fight AIDS,
Tuberculosis and Malaria; the World Health Organization; the International AIDS Vaccine
Initiative; and any United Nations agency (the "Statutorily-Exempt Organizations"). As such,
AOs for awards to Statutorily-Exempt Organizations will not need to consider the
Organizational Integrity Guidance” above.

Attachment D includes the legislative and litigation background of this AAPD 12-04, and its

The prime contractor must flow this provision down in all subcontracts.

PROHIBITION ON THE PROMOTION OR ADVOCACY OF THE LEGALIZATION OR PRACTICE OF PROSTITUTION OR SEX TRAFFICKING (ACQUISITION) (APRIL 2010)

(a) This contract is authorized under the United States Leadership Against HIV/AIDS, Tuberculosis, and Malaria Act of 2003 (Pub.L. No. 108-25), as amended. This Act enunciates that the U.S. Government is opposed to prostitution and related activities, which are inherently harmful and dehumanizing, and contribute to the phenomenon of trafficking in persons. The contractor shall not use any of the funds made available under this contract to promote or advocate the legalization or practice of prostitution or sex trafficking. Nothing in the preceding sentence shall be construed to preclude the provision to individuals of palliative care, treatment, or post-exposure pharmaceutical prophylaxis, and necessary pharmaceuticals and commodities, including test kits, condoms, and, when proven effective, microbicides.

(b)(1) Except as provided in (b)(2) and (b)(3), by its signature of this contract or subcontract for HIV/AIDS activities, a non-governmental organization or public international organization awardee/subawardee agrees that it is opposed to the practices of prostitution and sex trafficking because of the psychological and physical risks they pose for women, men, and children.\(^9\)

(c) The following definitions apply for purposes of this provision:

- “Commercial sex act” means any sex act on account of which anything of value is given to or received by any person.

- “Prostitution” means procuring or providing any commercial sex act and the “practice of prostitution” has the same meaning.

ATTACHMENT D – Background

A. Leadership Act Statutory Provisions:

The Leadership Act was amended by the Consolidated Appropriations Act of 2004, Division D – Foreign Operations, Export Financing, and Related Programs Appropriations (―FY 04 Appropriations Act‖), Title II – Bilateral Economic Assistance, United States Agency for International Development, Child Survival and Health Programs Fund to exempt the Global Fund to Fight AIDS, Tuberculosis and Malaria, the World Health Organization, the International AIDS Vaccine Initiative, and any United Nations agency from certain requirements.

Section 301 of the Leadership Act, as amended, entitled ―Assistance to Combat HIV/AIDS,‖ includes the following provisions:

(d) ELIGIBILITY FOR ASSISTANCE. – An organization, including a faith-based organization, that is otherwise eligible to receive assistance under section 104A of the Foreign Assistance Act of 1961, under this Act, or under any amendment made by this Act or by the Tom Lantos and Henry J. Hyde United States Global Leadership Against HIV/AIDS, Tuberculosis, and Malaria Reauthorization Act of 2008, for HIV/AIDS prevention, treatment, or care—

1. shall not be required, as a condition of receiving such assistance—
   (A) to endorse or utilize a multisectoral or comprehensive approach to combating HIV/AIDS; or
   (B) to endorse, utilize, make a referral to, become integrated with, or otherwise participate in any program or activity to which the organization has a religious or moral objection; and

2. shall not be discriminated against in the solicitation or issuance of grants, contracts, or cooperative agreements under such provisions of law for refusing to meet any requirement described in paragraph (1).

(e) LIMITATION. – No funds made available to carry out this Act, or any amendment made by this Act, may be used to promote or advocate the legalization or practice of prostitution or sex trafficking. Nothing in the preceding sentence shall be construed to preclude the provision to individuals of palliative care, treatment, or post-exposure pharmaceutical prophylaxis, and necessary pharmaceuticals and commodities, including test kits, condoms, and when proven effective, microbicides.
(f) LIMITATION. – No funds made available to carry out this Act, or any amendment made by this Act, may be used to provide assistance to any group or organization that does not have a policy explicitly opposing prostitution and sex trafficking, except that this subsection shall not apply to the Global Fund to Fight AIDS, Tuberculosis and Malaria, the World Health Organization, the International AIDS Vaccine Initiative or to any United Nations agency.”

During legislative debate on the Leadership Act, in response to a question from Senator Leahy on the Senate floor regarding provision (f) above, Senator Frist stated that “a statement in the contract or grant agreement between the U.S. Government and such organization that the organization is opposed to the practices of prostitution and sex trafficking because of the psychological and physical risks they pose for women . . . would satisfy the intent of the provision.”  149 Cong. Rec. S6457 (daily ed. May 15, 2003)(statement of Sen. Frist).

The Statement of Managers of the FY 04 Appropriations Act states that the conferees—intend that for purposes of this provision, the World Health Organization includes its six regional offices: The Americas (PAHO); South-East Asia (SEARO); Africa (AFRO); Eastern Mediterranean (EMRO); Europe (EURO); and Western Pacific (WPRO).”

Although the above-named public international organizations are exempt from section 301(f) of the Leadership Act, they are subject to the AAPD 12-04 provisions that implement sections 301(d) and (e) of the Leadership Act, as amended. However, as under AAPD 05-04, this AAPD 12-04 does not apply to USAID contributions to capital of multidonor trust funds, such as to the Trust Fund for the Global Fund to Fight AIDS, Tuberculosis and Malaria.

B. Leadership Act Litigation

Alliance for Open Society International (“AOSI”)/Pathfinder International (“Pathfinder”) – U.S. District Court for the Southern District of New York:

On June 29, 2006, the District Court for the Southern District of New York issued a preliminary injunction order, pending a final judgment on the merits, prohibiting Defendants USAID and HHS from enforcing the statutory requirement to have a policy opposing prostitution and sex trafficking against AOSI or Pathfinder.

Defendants also were prohibited from investigating or auditing AOSI or Pathfinder regarding compliance with this statutory requirement.

On August 7, 2008, the Court granted the request of two associations, Global Health Council (“GHC”) and InterAction, to be added as plaintiffs in the AOSI suit and extended the reach of the preliminary injunction to cover the members of those associations as well.

Therefore, in addition to being prohibited from enforcing the statutory requirement to have a policy opposing prostitution and sex trafficking against AOSI or Pathfinder, USAID and HHS are now prohibited from enforcing this statutory requirement against any member of GHC or InterAction. They are likewise forbidden from investigating or auditing members of GHC or InterAction regarding compliance with this statutory requirement.
GHC and InterAction have provided USAID with lists of member organizations, and these lists can be found at: [http://www.usaid.gov/business/business_opportunities/cib/pdf/GlobalHealthMemberlist.pdf].

**DKT International, Inc. (“DKT”) – D.C. Circuit Court of Appeals:**

Although DKT is a member of GHC, the D.C. Circuit Court of Appeals previously held in a separate lawsuit that USAID may enforce the statutory requirement to have a policy opposing prostitution and sex trafficking against DKT. In its order, the District Court for the Southern District of New York specifically barred DKT from benefiting from the preliminary injunction. Therefore, USAID continues to enforce the statutory requirement against DKT.

**C. Organizational Integrity Guidance**

In July 2007, USAID issued guidance designed to provide additional clarity for COs and AOs regarding the application of Section 301(f) of the Leadership Act.

This clarifying guidance was also issued to Contracting Specialists, Contracting Officers’ Technical Representatives (COTRs) and Agreement Officers’ Technical Representatives (AOTRs), Health Officers, and USAID’s implementing partners (e.g., grantees, recipients and contractors).

The guidance noted that in enacting the Leadership Act, Congress developed a framework to combat the global spread of HIV/AIDS, tuberculosis, and malaria. The Leadership Act provides that all HIV/AIDS funding recipients, subject to limited exceptions, must have a policy explicitly opposing prostitution and sex trafficking. The guidance noted it is critical to the effectiveness of Congress’s plan and to the U.S. Government’s foreign policy underlying this effort, that the integrity of Leadership Act HIV/AIDS programs and activities implemented by organizations receiving Leadership Act HIV/AIDS funds is maintained, and that the U.S. Government’s message opposing prostitution and sex trafficking is not confused by conflicting positions of implementing organizations.

Accordingly, USAID provided Organizational Integrity Guidance in AAPD 05-04 Amendment No. 1, and Amendment No. 3 to AAPD 05-04 modified that Organizational Integrity Guidance.

The guidance clarified that the Government’s organizational partners that have agreed that they oppose prostitution and sex trafficking because of the psychological and physical risks they pose for women, men, and children, may, consistent with the policy requirement, maintain an affiliation with separate organizations that do not satisfy the policy requirement, provided that such affiliations do not threaten the integrity of the Government’s programs and its message opposing prostitution and sex trafficking, as specified in this guidance. To maintain program integrity, adequate separation is required between any federally funded partner organization and an affiliate that engages in activities inconsistent with a policy against prostitution and sex trafficking.
The criteria for affiliate independence are modeled on criteria upheld as constitutional by the U.S. Court of Appeals for the Second Circuit in Velazquez v. Legal Services Corporation, 164 F.3d 757, 767 (2d Cir. 1999), and Brooklyn Legal Services Corp. v. Legal Services Corp., 462 F.3d 219, 229-33 (2d Cir. 2006), cases involving similar organization-wide limitations applied to recipients of federal funding.

A recipient of Leadership Act HIV/AIDS funds may maintain an affiliation with an independent organization that engages in activities inconsistent with an opposition to prostitution and sex trafficking because of the psychological and physical risks they pose for women, men, and children while remaining in compliance with the policy requirement.

The independent affiliate’s position on these issues will have no effect on the recipient organization’s eligibility for Leadership Act HIV/AIDS funds, so long as the affiliate satisfies the criteria for objective integrity and independence, as detailed in the guidance. By ensuring adequate separation between the recipient and affiliate organizations, these criteria guard against a public perception that the affiliate’s views on prostitution and sex trafficking may be attributed to the recipient organization and thus to the Government, thereby avoiding the risk of confusing the Government’s message opposing prostitution and sex trafficking.

D. Limited Contracting Exception for Providers of Certain Commercial Items or Services:

In October 2007, the contract provision implementing Sections 301(e) and 301(f) of the Leadership Act was amended in AAPD 05-04 Amendment No. 2 to provide a limited exemption from the policy requirement contained in Section 301 (f) (the “policy requirement”) for certain contracts and subcontracts for specific types of items and services. The provision exempts from the policy requirement contractors and subcontractors who are providing commercial items or services and where such activities do not involve any HIV/AIDS programmatic activities per se.

The Leadership Act policy requirement remains applicable to all contractors and subcontractors who directly implement HIV/AIDS programs by providing:

1. Supplies or services directly to the final populations receiving such supplies or services in host countries:

2. Technical assistance and training directly to host country individuals or organizations on how supplies or services are provided to the final populations receiving such supplies and services; or

3. The types of services listed in FAR 37.203(b)(1)-(6) that involve:
   - giving advice about substantive policies of a recipient,
   - giving advice regarding the activities referenced in (1) and (2), or
   - making decisions or functioning in a recipient’s chain of command.
