The award is designed to foster greater accountability of institutions and leaders to citizens and to fortify the resilience of states and societies against internal and external shocks. The activities implemented under the award will contribute directly to the achievement of the Sustainable Development Goals (SDGs) on Democracy, Human Rights and Governance, which is its support sector. The focus of the award is on institutional strengthening efforts that develop the capacity of accountability mechanisms, particularly at the local level, to fulfill their mandates more efficiently and effectively. It also seeks to contribute to the overarching goal of USAID's Strategy on Democracy, Human Rights and Governance, which is to support democracy in response to complex political crises. USAID/OTI's program team, comprised of USAID/OTI staff in Washington and regional offices in Africa, Asia, and the Pacific, will work with the government, local authorities, and civil society organizations to design and implement activities that will strengthen accountability and transparency in host countries.

The need for humanitarian assistance can address both conflict and natural hazard-induced displacements. The award will enable Missions which issue task orders under it to select from a range of program implementation to support good governance, transparency, and accountability in host countries.

The objective of this IDIQ is to provide USAID's Office of Transition Initiatives (OTI) with the means to support USAID's Office of Transition Initiatives (OTI) with the means to support democracy in response to complex political crises. USAID/OTI's program team, comprised of USAID/OTI staff in Washington and regional offices in Africa, Asia, and the Pacific, will work with the government, local authorities, and civil society organizations to design and implement activities that will strengthen accountability and transparency in host countries.

To be determined within 12 months of award execution

*Multiple awards of varying length with an individual award value of less than $1.5M each are anticipated over a 5-year period.*

The overarching goal of USAID's Strategy on Democracy, Human Rights and Governance, which is to support democracy in response to complex political crises.

This activity will focus on the provision of services through health system strengthening measures, including (1) strengthening the policy environment for urban child protection; (2) integrating strategies across urban services; (3) improving livelihoods for urban slum populations; (4) facilitating linkages between urban services organizations and support organizations. Project acquire and custodians will be tracked through different data collection, reporting, and reporting systems and applications throughout the project. The New Integrated Benin Private Sector Health Program will support the Ministry of Health and Social Security in strengthening services at the national and regional level; improve monitoring to ensure child protection laws and rights are implemented; and raise awareness and educate the public on child protection issues.

The new activity to assist the Government of Benin to scale up Public Primary Education Development Program (PPEDP), as well as all schools and centers. The technical assistance will take the form of training services, promotion and dissemination of good practices, and technical, academic and other child protection service design and implementation.

The activity will highlight partnerships between schools and children to ensure opportunities for children to learn outside school and at home. Furthermore, stakeholders and activities across the agriculture and energy sectors in Tajikistan, leading to increased economic growth in the key sectors of agriculture and energy.

The highest-risk secondary and tertiary juvenile populations. To accomplish this goal, this program will work effectively to collaborate with those providers in order to improve public safety.

The overall goal of this project is to create a risk-based juvenile justice system that reduces recidivism among vulnerable youth, including girls and young women. The project will improve the quality of juvenile justice services through an integrated approach, with a focus on evidence-based practices, and will seek to increase the number of children and youth who are effectively diverted from the juvenile justice system.

The project will be implemented in the 20 most populous districts of the country, which account for approximately 70% of the juvenile population in Honduras. The project will be carried out in partnership with the Ministry of Justice and the national juvenile justice system, as well as with local governments and non-governmental organizations.

The project will use a multi-method approach, including data collection and analysis, capacity building, and implementation of evidence-based practices. The project will also work to build a collaborative network with other stakeholders, including the academic community, to share knowledge and best practices.

The project will be evaluated through a mixed-methods approach, including process and impact evaluations. The project will also have an emphasis on transparency and accountability, with regular reporting and oversight mechanisms in place.

The project will be implemented for 5 years, with a 4-month implementation duration. The project will be evaluated annually to ensure that the system is operating effectively and making progress towards the project goals.

### Additional Notes
- **Program Name:** President’s Young Professional Program (PYP)
- **Objective:** To provide training and development opportunities for young professionals in the field of international development.
- **Funding Period:** 2016
- **Start Date:** 3/31/2016
- **End Date:** 10/31/2017
- **Funding:** N/A
- **Contract:** N/A
- **Comments:** N/A
Achieving this purpose is contingent on resolving three primary areas of concern:

(1) Improving the enabling environment for GI adoption;
(2) Improving information generation and management for private sector to step into the market; enhance Sindh’s competitiveness and create opportunities for future on-budget support from USAID.

Project (PEEP), SEEA will engage with Government of Sindh and private sector to focus on policy reforms to improve competitiveness and public accountability mechanisms, as well as shared value creation for the poor while increasing the possibility to receive future on-budget support from USAID.

Overview

SEEA is a four year, $10 million activity with a goal to support policy reforms through the Project. The activity will be evaluated for impact.

Scope

SEEA will engage with Government of Sindh and private sector to focus on policy reforms and local governance programs to improve competitiveness and public accountability mechanisms, as well as shared value creation for the poor while increasing the possibility to receive future on-budget support from USAID.

The U.S. Agency for International Development (USAID) Mission to Zambia seeks to carry out USAID's objectives in Zambia through the implementation of activities that focus on several areas of intervention. This is accomplished through the utilization of strategic partnerships with local and international NGOs, private sector organizations, and the private sector as a whole. The following activities are intended to achieve these objectives:

1. **Conflict Mitigation and Management, Journal Program Enhancements**
   - Objective: To strengthen local capacity to strategize information in response to MONUSCO operations.
   - Budget: $25 Million
   - Duration: 5 years
   - Start Date: 5/30/2018
   - End Date: 11/01/2023
   - Funding: Cooperative Agreement
   - Location: Zambia

2. **Let's Read Zambia**
   - Objective: To strengthen local capacity to strategize information in response to MONUSCO operations.
   - Budget: $25 Million
   - Duration: 5 years
   - Start Date: 5/30/2018
   - End Date: 11/01/2023
   - Funding: Cooperative Agreement
   - Location: Zambia

3. **Let's Read Zambia**
   - Objective: To strengthen local capacity to strategize information in response to MONUSCO operations.
   - Budget: $25 Million
