SECTION C - DESCRIPTION/SPECIFICATIONS/STATEMENT OF WORK

RULE OF LAW STABILIZATION - FORMAL COMPONENT

Background

After more than thirty years of conflict and ten years after the fall of the Taliban, rule of law continues to be a central challenge facing Afghanistan's democratic development. The country continues to struggle with the establishment of a judicial system with the capacity to deliver justice in an effective and efficient manner. Despite the efforts of numerous donors, Afghanistan remains at the nascent stages of rule of law development, with most activities continuing to focus on rebuilding the institutions of justice, providing access to legal resources, and training on the fundamentals of procedure and law.

The Rule of Law Stabilization Program – Formal Component (RLS-F Program) is designed to support two pillars of the U.S. Government Rule of Law Strategy and continue USAID assistance to the rule of law in Afghanistan. The two pillars of this Strategy are: 1) building capacity and addressing corruption within the justice sector; and 2) building the leadership capacity of the Afghan government’s justice sector and civil society. The RLS-F Program supports this strategy through the following objectives: 1) building the capacity of the judiciary and law schools; and 2) strengthening public legal awareness.

Through the initial phase of the RLS-F Program from May 2010 through July 15, 2012, achievements include expanding the initial training program for judges from one to two years; training more than 600 judges on substantive law, judicial ethics, and women’s rights; developing and training moot court teams at five law schools throughout the country and facilitating the nationwide competition; and supporting the establishment of legal clinics and the capacity-building of law school libraries.

Goal

The overall goal of the RLS-F Program is to strengthen the formal justice system of Afghanistan so that citizens can reliably and peacefully resolve their disputes, judgments and decisions of the courts are enforceable and in accordance with the law, and legal education is strengthened to prepare the next generation of judges, prosecutors, and lawyers.

Link to USG Strategic Objectives

The RLS-F Program supports directly the U.S. Government’s Rule of Law Strategy, an Afghan-led program that is in line with transition plans. The Rule of Law Strategy has two objectives:

1. focus U.S. rule of law assistance in Afghanistan on constructive programs that will (a) offer Afghans meaningful access to fair, efficient, and transparent justice based on Afghan law, and (b) help eliminate Taliban justice and defeat the insurgency; and

2. help increase the Afghan government’s legitimacy and improve its perception among Afghans by promoting a culture that values the rule of law above the exercise of inappropriate and/or illegal influence.

The Strategy consists of four pillars: 1) building capacity and addressing corruption within the justice sector; 2) reforming Afghanistan’s corrections system as a means to reduce radicalization; 3) providing security and space for traditional justice systems to re-emerge organically; and 4) building the leadership capacity of the Afghan government’s justice sector and civil society. The RLS-F Program will support Pillars one and four of the Strategy.
USAID PROGRAM CONTEXT:

USAID Afghanistan’s overarching Assistance Objective (AO) 1 for Democracy and Governance is, “improved performance and accountability of governance.” Five intermediate results comprise this AO, the first of which is:

IR 1.1: Increased Public Confidence in the Rule of Law System

This IR is further broken down into five sub-IRs:

1.1.1: Formal Rule of Law system improved
1.1.2: Availability of quality legal education expanded
1.1.3: Citizen awareness of legal rights and legal processes of judicial system increased
1.1.4: Strengthened traditional dispute resolution and justice in contested areas
1.1.5: Enhanced implementation of national anti-corruption

The RLS-F Program supports the first three of the sub-IRs. In addition, this program follows closely the USAID Administrator’s guidance on Afghan Assistance for 2011. The guidance emphasizes that “USAID’s assistance should create incentives for the peaceful resolution of conflict and away from violence and insurgency. In governance, core investments include expanding access to justice and dispute resolution by working with formal and traditional entities at the provincial and district level, and supporting pluralistic and inclusive governance by state and local institutions that addresses drivers of conflict and sources of instability.” Furthermore, the priority placed upon rule of law was reaffirmed in the Bonn Conference Conclusions.

Project Description

The overarching U.S. objective of assistance in the governance sector is to improve the performance and the accountability of governance in Afghanistan. In relation to the rule of law, the aim is to increase public confidence in the rule of law system. The RLS-F Program aims to meet this objective through: 1) building the capacity of the judiciary and law schools, and 2) strengthening public legal awareness. RLS-F builds the capacity of the judiciary and the faculties of law, and supports the Supreme Court by providing professional training to judges and strengthening the capacity of the courts in managing and budgeting.

The RLS-F Program is designed to build the capacity within the judiciary and law schools, and raise public legal awareness to persuade the citizens of Afghanistan that they can reliably resolve their disputes and assert their rights through the state justice system. This component has two complementary objectives, each supporting a pillar of the U.S. Government Rule of Law Strategy: Capacity Building of the Judiciary and of the Faculties of Law (Supporting Pillar 1 of the ROL Strategy); and Public Legal Outreach and Awareness through Strategic Communications (Supporting Pillar 4 of the ROL Strategy).

Objective 1: Capacity Building of the Judiciary and Faculties of Law

(a) Capacity Building of the Judiciary and Court Administrators

RLS-F will work at both the regional/district levels and at the national level to continue building the overall capacity of the judiciary and administrative court personnel. At the regional/district levels, the component will improve the institutional capacity of state justice institutions including the anti-
corruption courts in key population centers all over the country, but particularly in the south and east. In consultation with Afghan justice sector officials (judges, prosecutors, and Ministry of Justice officials), RLS-F will develop judicial training programs that will focus on transferring/enhancing the practical skills of judges so they can successfully perform priority tasks, improve their ethical standards, and gain self-confidence. At the national level, RLS-F will build the capacity of the Afghan Supreme Court to enable the Afghan judiciary to independently sustain efforts to raise the professional quality and ethical standards of judges, and support the training in substantive and procedural law, as well as judicial ethics and women’s rights. RLS-F will support the development of professional court staff with training on key issues such as budget, finance, and human resource management.

(b) Capacity Building of the Afghan Faculties of Law

The development and reform of Afghan law faculties is critical to the future development of the judiciary, prosecutors and defense lawyers in Afghanistan. These efforts will produce a generation of competent legal professionals, where few exist today, and provide meaningful access to justice.

Objective 2: Public Legal Outreach and Awareness through Strategic Communications

Thirty years of strife and a culture of impunity have undermined the confidence of the Afghan people in the ability of their government to govern fairly and protect them from criminals and insurgents. This feeling of vulnerability works to the advantage of insurgents therefore, in addition to strengthening the institutional capacity and human capacity of the state courts, a continuing public awareness and education program is needed to increase confidence in the justice system.

Building on lessons learned from previous years, RLS-F will build the capacity of Afghan justice institutions to produce popular radio and television programs designed to create interest and pride in the Afghan justice system. RLS-F will ensure that justice-themed, entertaining rule of law concepts will be developed by Afghans that educate and motivate through entertainment, and that programs are conducted at both the regional and national levels with messaging tailored to the societal norms of the area of operation. Outreach programs will be in Dari and Pashtu and will include messages, for example, portraying women in heroic or otherwise positive and influential roles in advancing justice and the rule of law.

RLS-F will develop the capacity of the Supreme Court to conduct their own public outreach that promotes the successful implementation of initiatives and legislation that supports the security and well-being of the population (such as improvements in laws or cases involving access to education, health, access to justice, human rights, and successful prosecutions of corrupt officials). Such capacity within the Afghan government will allow for public outreach and education to continue, without continued donor support.

Gender Analysis

Gender considerations and women’s rights are important aspects of this program. The RLS-F Program has been successful in increasing female participation in the justice sector and increasing knowledge and recognition of women’s rights. These objectives will remain a focus of the RLS-F Program. Moreover, a gender analysis will be conducted during the first 60 days of RLS-F, during the period of July 15 to September 15, 2012. The RLS-F Program will be modified and re-aligned in accordance with the findings and recommendations of that analysis to ensure that the program’s objectives are appropriate and effective.

Expected Results

Through the RLS-F Program, the courts of Afghanistan will be staffed with judges that are trained on the appropriate application of Afghan substantive law and international standards on judicial ethics.
and anti-corruption. Court staff will be trained to provide professional court administrative services which will increase the efficiency and transparency of court procedures. Law students will be taught by professors that use modern teaching methodologies and with legal texts and curricula that have been revised and updated by Afghan legal scholars. The new curricula will be approved and utilized in all law faculties in the Afghanistan.

Citizens will be more confident in resolving their disputes peacefully through either the formal justice sector.

- Number of pilot courts demonstrating improvement in one or more key case processing or case management performance measures;
- Number of law students, lawyers, judges, prosecutors, or court personnel benefitting from improved teaching facilities and curricula;
- Number of students involved in legal clinic work;
• Number of Afghan citizens reached by campaigns supported by USG to foster public awareness and respect for the rule of law; and,
• Number of print publications produced and disseminated through legal outreach campaigns.

**Direction and Coordination**

RLS-F will work with a cadre of Afghan advisors based in Kabul and in regional offices in Kandahar, Nangarhar, Balkh, Kapisa and Herat, with the goal of leading implementation to better coordinate the national level reforms, as well as to implement program activities at the regional and district levels.

RLS-F activities will be under the broad oversight of Embassy Kabul's Coordinating Director for Rule of Law and Law Enforcement (CDROLLE) and the specific oversight of the Democracy and Governance Office in USAID Kabul. The project implementer will work under the supervision and direction of a USAID ROL Team member, the Contracting Officer's Representative (COR), based at USAID in Kabul, who will be responsible for formal contract oversight/coordination with the Embassy ROL team and the four regional platforms.

The formal justice sector component will be implemented with the support of GIRoA (e.g. the Supreme Court, the Ministry of Justice, and the Ministry of Higher Education), local NGOs, and Afghan experts. Their combined expertise and capacity will be utilized to the greatest extent possible in order to maximize available resources, build local capacity, and sustain rule of law strengthening efforts. Afghan partners will be carefully screened to ensure their non-partisanship, transparency, accountability, and responsiveness. RLS-F efforts will be well coordinated with other organizations and development partners to avoid duplication and enhance synergies.

**Monitoring and Evaluation**

To ensure optimal project performance, a Performance Monitoring Plan (PMP) will be established. The PMP will reflect well-constructed project theories of change, and the PMP indicators should be selected to show how the projects' inputs are producing outputs, outcomes and results. The implementing partner should report on the indicators included in the PMP as well as any other indicators agreed upon between the implementing partner, COR and the monitoring and evaluation unit in the OPPD office. Progress on these indicators should be reported through Afghan Info, USAID/Afghanistan's project management tool, when possible. Appropriate indicators must be disaggregated by gender. Reported indicators will be reviewed for their validity by the COR and cleared or sent back for revision in a timely manner. While ODG in Kabul will manage the RLS-F Program, field based on-site monitors (OSMs) may carry certain monitoring functions. In particular, CORs may utilize OSM reports to verify the accuracy of data submitted to them by the implementing partner. In addition to indicator reporting, the implementing partner may provide brief contextual narratives on at least a quarterly basis to explain any discrepancies between actual project performance and the previously anticipated results. Given that USAID/Afghanistan operates in a high-threat environment, the implementing partner and the COR should consider the use of alternative monitoring strategies as set out in ADS 202.3.6.4 when traditional monitoring strategies cannot work.

One or more evaluations may be conducted on this project. Due to this, the implementing partner will need to establish baseline data for the project and clearly explain the methodology used to collect this data. Third party data may be acceptable as baseline data. Per USAID’s evaluation policy, either a performance or impact evaluation will be required if the total dollar value of this project at the time of the agreement exceeds the mean dollar value of USAID/Afghanistan’s projects. If the project decides to conduct an impact evaluation, clear structures of control and treatment groups must be agreed upon between the COR, the implementing partner and OPPD before project implementation begins. If possible, specific evaluation questions drawn from the theory of change should be proposed at the outset of project implementation. During an evaluation, the process for collecting
baseline data should be the same as the methodology used to collect baseline data. If that is not possible, the process for collecting evaluation data should do its best to replicate the process used to collect baseline data.
D.1 AIDAR 752.7009 MARKING (JAN 1993)

(a) It is USAID policy that USAID-financed commodities and shipping containers, and project construction sites and other project locations be suitably marked with the USAID emblem. Shipping containers are also to be marked with the last five digits of the USAID financing document number. As a general rule, marking is not required for raw materials shipped in bulk (such as coal, grain, etc.), or for semi finished products which are not packaged.

(b) Specific guidance on marking requirements should be obtained prior to procurement of commodities to be shipped, and as early as possible for project construction sites and other project locations. This guidance will be provided through the cognizant technical office indicated on the cover page of this contract, or by the Mission Director in the Cooperating Country to which commodities are being shipped, or in which the project site is located.

(c) Authority to waive marking requirements is vested with the Regional Assistant Administrators, and with Mission Directors.

(d) A copy of any specific marking instructions or waivers from marking requirements is to be sent to the Contracting Officer; the original should be retained by the Contractor.

H.22 USE OF SYNCHRONIZED PRE-DEPLOYMENT AND OPERATIONAL TRACKER (SPOT) FOR CONTRACTORS SUPPORTING A DIPLOMATIC OR CONSULAR MISSION OUTSIDE THE UNITED STATES (SUPPLEMENT TO FAR 52.225-19)

In accordance with paragraph (g) Personnel Data, of FAR clause 52.225-19 “Contractor Personnel in a Designated Operational Area of Supporting a Diplomatic or Consular Mission Outside the United States (MAR 2008) “the Contracting Officer hereby identifies DoD’s Synchronized Pre-deployment and Operational Tracker (SPOT) as the required system to use for this contract in Afghanistan.

In accordance with Section 861 of the FY08 National Defense Authorization Act (FY08 NDAA), P.L. 110-181, USAID and the Departments of Defense (DOD) and State (DOS) have entered into a Memorandum of Understanding (MOU) under which USAID has agreed to establish a common database including information on contractors and contractor personnel performing work in Afghanistan. The MOU identifies SPOT as the common database to serve as the repository for this information. Information with regard to Afghan nationals will be entered under procedures provided separately by the Contracting Officer.
All contractor personnel must be accounted for in SPOT. Those requiring SPOT-generated Letters of Authorization (LOAs) must be entered into SPOT before being deployed to Afghanistan. If individuals requiring LOAs are already in Afghanistan at the time the contractor engages them or at the time of contract award, the contractor must immediately enter into SPOT each individual upon his or her becoming an employee or consultant under the contract. Contract performance may require the use of armed private security contractor personnel (PSCs). PSCs will be individually registered in SPOT. Personnel that do not require LOAs will still be required to be entered into SPOT for reporting purposes, either individually or using an aggregate tally methodology. Procedures for using SPOT are available at http://www.dod.mil/bta/products/spot.html. Further guidance may be obtained from the Contracting Officer’s Technical Representative or the Contracting Officer. It is emphasized that SPOT applies to sub-awards and that this provision must be included in all sub-awards at any tier.

To remain registered in the CCR database after the initial registration, the Contractor is required to review and update on an annual basis from the date of initial registration or subsequent updates its information in the CCR database to ensure it is current, accurate and complete. (1) The Contractor has entered all mandatory information, including the DUNS number or the DUNS+4 number, into the CCR database; and
(2) The Government has validated all mandatory data fields, to include validation of the Taxpayer Identification Number (TIN) with the Internal Revenue Service (IRS), and has marked the record “Active”. (c) If the offeror does not have a DUNS number, it should contact Dun and Bradstreet directly to obtain one.
(1) An offeror may obtain a DUNS number—
(i) Via the Internet at http://fedgov.dnb.com/webform or if the offeror does not have internet access, it may call Dun and Bradstreet at 1-866-705-5711 if located within the United States; or
(ii) If located outside the United States, by contacting the local Dun and Bradstreet office. The offeror should indicate that it is an offeror for a U.S. Government contract when contacting the local Dun and Bradstreet office.

To remain registered in the CCR database after the initial registration, the Contractor is required to review and update on an annual basis from the date of initial registration or subsequent updates its information in the CCR database to ensure it is current, accurate and complete. Updating information
in the CCR does not alter the terms and conditions of this contract and is not a substitute for a properly executed contractual document.

(g) (1) (i) If a Contractor has legally changed its business name, “doing business as” name, or division name (whichever is shown on the contract), or has transferred the assets used in performing the contract, but has not completed the necessary requirements regarding novation and change-of-name agreements in Subpart 42.12, the Contractor shall provide the responsible Contracting Officer a minimum of one business day’s written notification of its intention to (A) change the name in the CCR database; (B) comply with the requirements of Subpart 42.12 of the FAR; and (C) agree in writing to the timeline and procedures specified by the responsible Contracting Officer. (2) The Contractor shall not change the name or address for EFT payments or manual payments, as appropriate, in the CCR record to reflect an assignee for the purpose of assignment of claims (see FAR Subpart 32.8, Assignment of Claims). I.7 52.209-5 CERTIFICATION REGARDING RESPONSIBILITY MATTERS (APR 2010)

(a)(1) The Offeror certifies, to the best of its knowledge and belief, that—

(i) The Offeror and/or any of its Principals—

(A) Are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(B) Have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State, or local) contract or subcontract; violation of Federal or State antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making
false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property (if offeror checks “have”, the offeror shall also see 52.209-7, if included in this solicitation);

(C) Are o are not o presently indicted for, or otherwise criminally or civilly charged by a governmental entity with, commission of any of the offenses enumerated in paragraph (a)(1)(i)(B) of this provision;

(D) Have o, have not o, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds $3,000 for which the liability remains unsatisfied.

(1) Federal taxes are considered delinquent if both of the following criteria apply:

(i) The tax liability is finally determined. The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(ii) The taxpayer is delinquent in making payment. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(2) Examples.

(i) The taxpayer has received a statutory notice of deficiency, under I.R.C. § 6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(ii) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. § 6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(iii) The taxpayer has entered into an installment agreement pursuant to I.R.C. § 6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(iv) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. 362 (the Bankruptcy Code).

(i) The Offeror has o has not o, within a three-year period preceding this offer, had one or more contracts terminated for default by any Federal agency.

(2) “Principal,” for the purposes of this certification, means an officer, director, owner, partner, or a person having primary management or supervisory responsibilities within a business entity (e.g., general manager; plant manager; head of a division or business segment; and similar positions).

This Certification Concerns a Matter Within the Jurisdiction of an Agency of the United States and the Making of a False, Fictitious, or Fraudulent Certification May Render the Maker Subject to Prosecution Under Section 1001, Title 18, United States Code.

(b) The Offeror shall provide immediate written notice to the Contracting Officer if, at any time prior to contract award, the Offeror learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
(c) A certification that any of the items in paragraph (a) of this provision exists will not necessarily result in withholding of an award under this solicitation. However, the certification will be considered in connection with a determination of the Offeror’s responsibility. Failure of the Offeror to furnish a certification or provide such additional information as requested by the Contracting Officer may render the Offeror nonresponsible.

(d) Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render, in good faith, the certification required by paragraph (a) of this provision. The knowledge and information of an Offeror is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

(e) The certification in paragraph (a) of this provision is a material representation of fact upon which reliance was placed when making award. If it is later determined that the Offeror knowingly rendered an erroneous certification, in addition to other remedies available to the Government, the Contracting Officer may terminate the contract resulting from this solicitation for default.

“Excessive pass-through charge”, with respect to a Contractor or subcontractor that adds no or negligible value to a contract or subcontract, means a charge to the Government by the Contractor or subcontractor that is for indirect costs or profit/fee on work performed by a subcontractor (other than charges for the costs of managing subcontracts and any applicable indirect costs and associated profit/fee based on such costs).

The notification shall identify the revised cost of the subcontract effort and shall include verification that the Contractor will provide added value; or

(2) Any subcontractor changes the amount of lower-tier subcontractor effort after award such that it exceeds 70 percent of the total cost of the work to be performed under its subcontract. b) Payment of the fixed fee shall be made as specified in the Schedule; provided that the Contracting Officer withholds a reserve not to exceed 15 percent of the total fixed fee or $100,000, whichever is less, to protect the Government’s interest. The Contracting Officer shall release 75 percent of all fee withholds under this contract after receipt of an adequate certified final indirect cost rate proposal covering the year of physical completion of this contract, provided the Contractor has satisfied all other contract terms and conditions, including the submission of the final patent and royalty reports, and is not delinquent in submitting final vouchers on prior years’ settlements. The Contracting Officer may release up to 90 percent of the fee withholds under this contract based on the Contractor’s past performance related to the submission and settlement of final indirect cost rate proposals.

(a) General. The Contractor will be reimbursed for reasonable, allocable and allowable travel and
transportation expenses incurred under and for the performance of this contract. Determination of
reasonableness, allocability and allowability will be made by the Contracting Officer based on the
applicable cost principles, the Contractor's established policies and procedures, USAID's established
policies and procedures for USAID direct-hire employees, and the particular needs of the project
being implemented by this contract. The following paragraphs provide specific guidance and
limitations on particular items of cost.

(b) International travel. For travel to and from post of assignment the Contractor shall be reimbursed
for travel costs and travel allowances of travelers from place of residence in the United States (or
other location provided that the cost of such travel does not exceed the cost of the travel from the
employee's residence in the United States) to the post of duty in the Cooperating Country and return to place of residence in the United States (or other location provided that the cost of such travel does not exceed the cost of travel from the post of duty in the Cooperating Country to the employee's residence) upon completion of services by the individual. Reimbursement for travel will be in accordance with the applicable cost principles and the provisions of this contract, and will be limited to the cost of travel by the most direct and expeditious route. If a regular employee does not complete one full year at post of duty (except for reasons beyond his/her control), the costs of going to and from the post of duty for that employee and his/her dependents are not reimbursable hereunder. If the employee serves more than one year but less than the required service in the Cooperating Country (except for reasons beyond his/her control) the costs of going to the post of duty are reimbursable hereunder but the costs of going from post of duty to the employee's permanent, legal place of residence at the time he or she was employed for work under this contract or other location as approved by the Contracting Officer are not reimbursable under this contract for the employee and his/her dependents. When travel is by economy class accommodations, the Contractor will be reimbursed for the cost of transporting up to 22 pounds of accompanied personal baggage per traveler in addition to that regularly allowed with the economy ticket provided that the total number of pounds of baggage does not exceed that regularly allowed for first class travelers. Travel allowances for travelers shall not be in excess of the rates authorized in the Standardized Regulations (Government Civilians, Foreign Areas) - hereinafter referred to as the Standardized Regulations - as from time to time amended, for not more than the travel time required by scheduled commercial air carrier using the most expeditious route. One stopover en route for a period of not to exceed 24 hours is allowable when the traveler uses economy class accommodations for a trip of 14 hours or more of scheduled duration. Such stopover shall not be authorized when travel is by indirect route or is delayed for the convenience of the traveler. Per diem during such stopover shall be paid in accordance with the established practice of the Contractor but not to exceed the amounts stated in the Standardized Regulations.

(c) Local travel. Reimbursement for local travel in connection with duties directly referable to the contract shall not be in excess of the rates established by the Mission Director for the travel costs of travelers in the Cooperating Country. In the absence of such established rates the Contractor shall be reimbursed for actual travel costs of travelers in the Cooperating Country, if not provided by the Cooperating Government or the Mission, including travel allowances at rates not in excess of those prescribed by the Standardized Regulations.

(d) Travel for consultation. The Contractor shall be reimbursed for the round trip of the Contractor's Chief of Party in the Cooperating Country or other designated Contractor employee or consultant in the Cooperating Country performing services required under this Contract, for travel from the Cooperating Country to the Contractor's office in the United States or to USAID/Washington for consultation and return on occasions deemed necessary by the Contractor and approved in advance, in writing, by the Contracting Officer or the Mission Director.

(e) Special international travel and third country travel. For special travel which advances the purpose of the contract, which is not otherwise provided by the Cooperating Government, and with the prior written approval of the Contracting Officer or the Mission Director, the Contractor shall be reimbursed for (i) the travel cost of travelers other than between the United States and the Cooperating Country and for local travel within other countries and (ii) travel allowance for travelers while in travel status and while performing services hereunder in such other countries at rates not in excess of those prescribed by the Standardized Regulations.

(f) Indirect travel for personal convenience. When travel is performed by an indirect route for the personal convenience of the traveler, the allowable costs of such travel will be computed on the basis of the cost of allowable air fare via the direct usually traveled route. If such costs include fares for air or ocean travel by foreign flag carriers, approval for indirect travel by such foreign flag carriers must be obtained from the Contracting Officer or the Mission Director before such travel is undertaken,
otherwise only that portion of travel accomplished by United States-flag carriers will be reimbursable within the above limitation of allowable costs.

(g) Limitation on travel by dependents. Travel costs and allowances will be allowed only for dependents of regular employees and such costs shall be reimbursed for travel from place of abode to assigned station in the Cooperating Country and return, only if dependent remains in the country for at least 9 months or one-half of the required tour of duty of the regular employee responsible for such dependent, whichever is greater. If the dependent is eligible for educational travel pursuant to the "Differential and Allowances" clause of this contract, time spent away from post resulting from educational travel will be counted as time at post.

(h) Delays en route. The Contractor may grant to travelers under this contract reasonable delays en route while in travel status when such delays are caused by events beyond the control of such traveler or Contractor. It is understood that if delay is caused by physical incapacitation, personnel shall be eligible for such sick leave as provided under the "Leave and Holidays" clause of this contract.

(i) Travel by privately owned automobile. The Contractor shall be reimbursed for the cost of travel performed by a regular employee in his/her privately owned automobile at a rate not to exceed that authorized in the Federal Travel Regulations plus authorized per diem for the employee and for each of the authorized dependents traveling in the automobile, if the automobile is being driven to or from the Cooperating Country as authorized under the contract, provided that the total cost of the mileage and the per diem paid to all authorized travelers shall not exceed the total constructive cost of fare and normal per diem by all authorized travelers by surface common carrier or authorized air fare, whichever is less.

(j) Emergency and irregular travel and transportation. Emergency transportation costs and travel allowances while en route, as provided in this section will also be reimbursed not to exceed amounts authorized by the Foreign Service Travel Regulations for USAID-direct hire employees in like circumstances under the following conditions:

(1) The costs of going from post of duty in the Cooperating Country to the employee's permanent, legal place of residence at the time he or she was employed for work under this contract or other location for Contractor employees and dependents and returning to the post of duty, when the Contractor's Chief of Party, with the concurrence of the Contracting Officer or Mission Director makes a written determination that such travel is necessary for one of the reasons specified in subparagraphs (j)(1)(i) and (ii) of this section. A copy of the written determination shall be furnished to the Contracting Officer.

(i) Need for medical care beyond that available within the area to which the employee is assigned, or serious effect on physical or mental health if residence is continued at assigned post of duty, subject in either case, to the limitations stated in the clause of this contract entitled "Personnel - Physical Fitness of Employee and Dependents." The Mission Director may authorize a medical attendant to accompany the employee at contract expense if, based on medical opinion, such an attendant is necessary.

(ii) Death, or serious illness or injury of a member of the immediate family of the employee or the immediate family of the employee's spouse.

(2) When, for any reason, the Mission Director determines it is necessary to evacuate the Contractor's entire team (employees and dependents) or Contractor dependents only, the Contractor will be reimbursed for travel and transportation expenses and travel allowance while en route, for the cost of the individuals going from post of duty in the Cooperating Country to the employee's permanent, legal place of residence at the time he or she was employed for work under this contract or other approved location. The return of such employees and dependents may also be authorized by the
Mission Director when, in his/her discretion, he/she determines it is prudent to do so.

(3) The Mission Director may also authorize emergency or irregular travel and transportation in other situations, when in his/her opinion, the circumstances warrant such action. The authorization shall include the kind of leave to be used and appropriate restrictions as to time away from post, transportation of personal and/or household effects, etc. Requests for such emergency travel shall be submitted through the Contractor’s Chief of Party.

(k) Home leave travel. To the extent that home leave has been authorized as provided in the "Leave and Holidays" clause of this contract, the cost of travel for home leave is reimbursable for travel costs and travel allowances of travelers from the post of duty in the Cooperating Country to place of residence in the United States (or other location provided that the cost of such travel does not exceed the cost of travel to the employee’s residence in the United States) and return to the post of duty in the Cooperating Country. Reimbursement for travel will be in accordance with the applicable cost principles and the provisions of this contract, and will be limited to the cost of travel by the most direct and expeditious route. When travel is by economy class accommodations, the Contractor will be reimbursed for the cost of transporting up to 22 pounds of accompanied personal baggage per traveler in addition to that regularly allowed with the economy ticket provided that the total number of pounds of baggage does not exceed that regularly allowed for first class travelers. Travel allowances for travelers shall not be in excess of the rates authorized in the Standardized Regulations as from time to time amended, for not more than the travel time required by scheduled commercial air carrier using the most expeditious route. One stopover en route for a period of not to exceed 24 hours is allowable when the traveler uses economy class accommodations for a trip of 14 hours or more of scheduled duration. Such stopover shall not be authorized when travel is by indirect route or is delayed for the convenience of the traveler. Per diem during such stopover shall be paid in accordance with the established practice of the Contractor but not to exceed the amounts stated in the Standardized Regulations.

(l) Rest and recuperation travel. The Contractor shall be reimbursed for the cost of travel performed by regular employees and dependents for purposes of rest and recuperation provided that such reimbursement does not exceed that authorized for USAID direct hire employees, and provided further that no reimbursement will be made unless approval is given by the Contractor’s Chief of party.

(m) Transportation of motor vehicles, personal effects and household goods.

(1) Transportation, including packing and crating costs, will be paid for shipping from the point of origin in the United States (or other location as approved by the Contracting Officer) to post of duty in the Cooperating Country and return to point of origin in the United States (or other location as approved by the Contracting Officer) of one privately-owned vehicle for each regular employee, personal effects of travelers and household goods of each regular employee not to exceed the limitations in effect for such shipments for USAID direct hire employees in accordance with the Foreign Service Travel Regulations as in effect when shipment is made.

(2) If a regular employee does not complete one full year at post of duty (except for reasons beyond his/her control), the costs for transportation of vehicles, effects and goods to and from the post of duty are not reimbursable hereunder. If the employee serves more than one year but less than the required service in the Cooperating Country (except for reasons beyond his/her control) the costs for transportation of vehicles, effects and goods to the post of duty are reimbursable hereunder but the costs for transportation of vehicles, effects and goods from post of duty to the employee’s permanent, legal place of residence at the time he or she was employed for work under this contract or other location as approved by the Contracting Officer are not reimbursable under this contract.

(3) The cost of transporting motor vehicles and household goods shall not exceed the cost of packing,
crating and transportation by surface. In the event that the carrier does not require boxing or crating of motor vehicles for shipment to the Cooperating Country, the cost of boxing or crating is not reimbursable. The transportation of a privately-owned motor vehicle for a regular employee may be authorized by the Contractor as replacement of the last such motor vehicle shipped under this contract for the employee when the Mission Director or his/her designee determines in advance and so notifies the Contractor in writing that the replacement is necessary for reasons not due to the negligence or malfeasance of the regular employee. The determination shall be made under the same rules and regulations that apply to Mission employees.

(n) Unaccompanied baggage. Unaccompanied baggage is considered to be those personal belongings needed by the traveler immediately upon arrival at destination. To permit the arrival of effects to coincide with the arrival of regular employees and dependents, consideration should be given to advance shipments of unaccompanied baggage. The Contractor will be reimbursed for costs of shipment of unaccompanied baggage (in addition to the weight allowance for household effects) not to exceed the limitations in effect for USAID direct hire employees in accordance with the Foreign Service Travel Regulations as in effect when shipment is made. This unaccompanied baggage may be shipped as air freight by the most direct route between authorized points of origin and destination regardless of the modes of travel used. This provision is applicable to home leave travel and to short-term employees when these are authorized by the terms of this contract.

(o) Storage of household effects. The cost of storage charges (including packing, crating, and drayage costs) in the U.S. of household goods of regular employees will be permitted in lieu of transportation of all or any part of such goods to the Cooperating Country under paragraph (m) above provided that the total amount of effects shipped to the Cooperating Country or stored in the U.S. shall not exceed the amount authorized for USAID direct hire employees under the Uniform Foreign Service Travel Regulations.

(p) International ocean transportation.

(1) Flag eligibility requirements for ocean carriage are covered by the "Source and Nationality Requirements" clause of this contract.

(i) Transportation of things. Where U.S. flag vessels are not available, or their use would result in a significant delay, the Contractor may obtain a release from this requirement from the Transportation Division, Office of Procurement, U.S. Agency for International Development, Washington, D.C. 20523-1419, or the Mission Director, as appropriate, giving the basis for the request.

(ii) Transportation of persons. Where U.S. flag vessels are not available, or their use would result in a significant delay, the Contractor may obtain a release from this requirement from the Contracting Officer or the Mission Director, as appropriate.

(2) Transportation of foreign-made vehicles. Reimbursement of the costs of transporting a foreign-made motor vehicle will be made in accordance with the provisions of the Foreign Service Travel Regulations.

(3) Reduced rates on U.S. flag carriers. Reduced rates on United States flag carriers are in effect for shipments of household goods and personal effects of USAID contract personnel. These reduced rates are available provided the shipper states on the bill of lading that the cargo is "Personal property-not for resale-payment of freight charges is at U.S. Government (USAID) expense and any special or diplomatic discounts accorded this type cargo are applicable." The Contractor will not be reimbursed for shipments of household goods or personal effects in an amount in excess of the reduced rates available in accordance with the foregoing.

I.29  AIDAR 752.7008 USE OF GOVERNMENT FACILITIES OR PERSONNEL (APR 1984)

(a) The Contractor and any employee or consultant of the Contractor is prohibited from using U.S. Government facilities (such as office space or equipment) or U.S. Government clerical or technical personnel in the performance of the services specified in the contract, unless the use of Government facilities or personnel is specifically authorized in the contract, or is authorized in advance, in writing, by the Contracting Officer.

(b) If at any time it is determined that the Contractor, or any of its employees or consultants have used U.S. Government facilities or personnel without authorization either in the contract itself, or in advance, in writing, by the Contracting Officer, then the amount payable under the contract shall be reduced by an amount equal to the value of the U.S. Government facilities or personnel used by the Contractor, as determined by the Contracting Officer.

(c) If the parties fail to agree on an adjustment made pursuant to this clause, it shall be considered a dispute, and shall be dealt with under the terms of the clause of this contract entitled "Disputes".

I.30  AIDAR 752.7025 APPROVALS (APR 1984)

All approvals required to be given under the contract by the Contracting Officer or the Mission Director shall be in writing and, except when extraordinary circumstances make it impracticable, shall be requested by the Contractor sufficiently in advance of the contemplated action to permit approval, disapproval or other disposition prior to that action. If, because of existing conditions, it is impossible to obtain prior written approval, the approving official may, at his discretion, ratify the action after the fact.

I.31  AIDAR 752.7031 Leave and Holidays (OCT 1989)

(a) Vacation leave.

(1) The Contractor may grant to its employees working under this contract vacations of reasonable duration in accordance with the Contractor's practice for its employees, but in no event shall such vacation leave be earned at a rate exceeding 26 work days per annum. Reimbursement for vacation leave is limited to the amount earned by employees while serving under this contract. For regular employees during their tour of duty in the Cooperating Country, vacation leave is provided under this contract primarily for purposes of affording necessary rest and recreation. The Contractor's Chief of Party, the employee and the Cooperating Country institution associated with this project shall develop vacation leave schedules early in the employee's tour of duty taking into consideration project requirements, employee preference and other factors.
(2) Leave taken during the concluding weeks of an employee's tour shall be included in the established leave schedule and be limited to that amount of leave which can be earned during a twelve-month period unless approved in accordance with paragraph (a)(3) of this clause.

(3) Vacation leave earned but not taken by the end of the employee's tour pursuant to paragraphs (a)(1) and (2) of this clause will be forfeited unless the requirements of the project precluded the employee from taking such leave, and the Contracting Officer (with the endorsement of the Mission) approves one of the following as an alternative:

(i) Taking, during the concluding weeks of the employee's tour, leave not permitted under (a)(2) of this section, or

(ii) Lump-sum payment for leave not taken provided such leave does not exceed the number of days which can be earned by the employee during a twelve-month period.

(b) Sick Leave. Sick leave is earned by employees in accordance with the Contractor's usual practice but not to exceed 13 work days per annum or 4 hours every 2 weeks. Additional sick leave after use of accrued vacation leave may be advanced in accordance with Contractor's usual practice, if in the judgment of the Contractor's Chief of Party it is determined that such additional leave is in the best interest of the project. In no event shall such additional leave exceed 30 days. The Contractor agrees to reimburse USAID for leave used in excess of the amount earned during the employee's assignment under this contract. Sick leave earned and unused at the end of a regular tour of duty may be carried over to an immediately succeeding tour of duty under this contract. The use of home leave authorized under this clause shall not constitute a break in service for the purpose of sick leave carry-over. Contractor employees will not be compensated for unused sick leave at the completion of their duties under this contract.

(c) Home leave.

(1) Home leave is leave earned for service abroad for use only in the United States, in the Commonwealth of Puerto Rico, or in the possessions of the United States.

(2) A regular employee who is a U.S. citizen or resident and has served at least 2 years overseas, as defined in paragraph (c)(4) of this clause, under this contract and has not taken more than 30 workdays leave (vacation, sick, or leave without pay) in the United States, may be granted home leave of not more than 15 workdays for each such year of service overseas, provided that such regular employee agrees to return overseas upon completion of home leave under an additional 2 year appointment, or for a shorter period of not less than 1 year of overseas service under the contract if the Mission Director has approved in advance. Home leave must be taken in the United States, the Commonwealth of Puerto Rico, or the possessions of the United States; any days spent elsewhere will be charged to vacation leave or leave without pay.

(3) Notwithstanding the requirement in paragraph (c)(2), of this clause, that the Contractor's regular employee must have served 2 years overseas under this contract to be eligible for home leave, Contractor may grant advance home leave to such regular employee subject to all of the following conditions:

(i) Granting of advance home leave would in each case serve to advance the attainment of the objectives of this contract;

(ii) The regular employee shall have served a minimum of 18 months in the Cooperating Country on his/her current tour of duty under this contract; and
(iii) The regular employee shall have agreed to return to the Cooperating Country to serve out the remainder of his/her current tour of duty and an additional 2 year appointment under this contract, or such other additional appointment of not less than 1 year of overseas service as the Mission Director may approve.

(4) The period of service overseas required under paragraph (c)(2) or paragraph (c)(3) of this clause shall include the actual days spent in orientation in the United States (less language training) and the actual days overseas beginning on the date of departure from the United States port of embarkation on international travel and continuing, inclusive of authorized delays en route, to the date of arrival at the United States port of debarkation from international travel. Allowable vacation and sick leave taken while overseas, but not leave without pay, shall be included in the required period of service overseas. An amount equal to the number of days vacation sick leave taken in the United States, the Commonwealth of Puerto Rico, or the possessions of the United States will be added to the required period of service overseas.

(5) Salary during travel to and from the United States for home leave will be limited to the time required for travel by the most expeditious air route. The Contractor will be responsible for reimbursing USAID for salary payments made during home leave if in spite of the undertaking of the new appointment the regular employee, except for reasons beyond his/her control as determined by the Contracting Officer, does not return overseas and complete the additional required service. Unused home leave is not reimbursable under this contract.

(6) To the extent deemed necessary by the Contractor, regular employees in the United States on home leave may be authorized to spend not more than 5 days in work status for consultation at home office/campus or at USAID/Washington before returning to their post of duty. Consultation at locations other than USAID/Washington or home office/campus, as well as any time in excess of 5 days spent for consultation, must be approved by the Mission Director or the Contracting Office.

(7) Except as provided in the schedule or approved by the Mission Director or the Contracting Officer, home leave is not authorized for TCN or CCN employees.

(d) Holidays. Holidays for Contractor employees serving in the United States shall be in accordance with the Contractor's established policy and practice. Holidays for Contractor employees serving overseas should take into consideration local practices and shall be established in collaboration with the Mission Director.

(e) Military leave. Military leave of not more than 15 calendar days in any calendar year may be granted in accordance with the Contractor's usual practice to each regular employee whose appointment is not limited to 1 year or less and who is a reservist of the United States Armed Forces, provided that such military leave has been approved in advance by the cognizant Mission Director or Assistant Administrator. A copy of any such approval shall be provided to the Contracting Officer.

(f) Leave Records. The Contractor's leave records shall be preserved and made available as part of the contractor's records which are required to be preserved and made available by the Examination of Records by the Comptroller General and Audit clauses of this contract.

I.32 AIDAR 752.7101 VOLUNTARY POPULATION PLANNING ACTIVITIES (JUNE 2008)

b) Prohibition on Abortion-Related Activities.

1) No funds made available under this contract will be used to finance, support, or be attributed to the following activities: (i) procurement or distribution of equipment intended to be used for the purpose of inducing abortions as a method of family planning; (ii) special fees or incentives to any person to coerce or motivate them to have abortions; (iii) payments to persons to perform abortions or to solicit persons to undergo abortions; (iv) information, education, training, or communication programs that seek to promote abortion as a method of family planning; and (v) lobbying for or against abortion. The term “motivate”, as it relates to family planning assistance, shall not be construed to prohibit the provision, consistent with local law, of information or counseling about all pregnancy options.

2) No funds made available under this contract will be used to pay for any biomedical research which relates, in whole or in part, to methods of, or the performance of, abortions or involuntary sterilizations as a means of family planning. Epidemiologic or descriptive research to assess the incidence, extent or consequences of abortions is not precluded.

c) The contractor shall insert this provision in all subcontracts.
