The purpose of this modification# 01 is as follows:

- To change the location of the would-be shelter "Safe-house for At-risk Women & Girls" from Farah to Nimroz province and subsequently changing the program description to match with the place of performance. Following are the changes occurred within this modification.

Specific changes made to the FOG are as follows:

1. Section 2. Program Description, DELETE this section in its entirety and REPLACE it with the following:

I) Technical Approach

Voice of Women Organization (VWO) has successfully established and maintained safe houses for at-risk women and girls in Herat (since 2005) and in Badghis (since 2009). Both these facilities are continuing to function without any hindrance. As such VWO has gained an invaluable experience in carrying such critically important projects. VWO’s proposal for women shelters in Ghor and Farah provinces has recently been approved by IDLO/INL of US State Department and these facilities will be established in near future. The establishment of a similar facility in Nimroz province will complete the picture of the women’s rights protection in the Western region of Afghanistan. As such the project holds critical importance with regard to gender based violence and gender equality. VWO will have the following technical approach for the proposed projects:

i) Coordination & Cooperation Commission

A Coordination & Cooperation Commission (CCC) will be established in Nimroz to look-after the issues of women’s rights, legal and social protection of at-risk women. The idea is to have a stronger body that can commission emergency response to VAW issues and take bold decisions at short notice. The foremost responsibility of the CCC will be to devise and follow a comprehensive and practical case referral mechanism. The CCC will also play a vital role in resolving most complicated cases on emergency basis those are beyond the jurisdiction of VWO. This is extremely critical to ensure timely identification of potential cases of VAW and immediate response to the situation. The CCC will further coordinate and supervise the rest of the project activities through regular monthly as well as emergency meetings. Following is the list of CCC members:

1- Department of Women’s Affairs.
2- Voice of Women Organization
3- Afghanistan Independent Human Rights Commission.
4- Judiciary
5- Attorney General’s Office.
6- Provincial Council.
7- Department of Police.
8- Department of Public Health as member.
9- Department of Education as member.
ii) Family Guidance Center (FGC)

The main focus of the proposed project will be on providing family counseling, legal advice and legal services for the victims of violence and at-risk women and girls. Family Guidance Center (FGC) will be established in Zaranj city. The purpose of the CRFCC is to help the women avoid falling in a situation to run away or commit suicide (self-immolation) to get rid of the abuse. VWO will provide legal services to the victim, her family and in-laws as per their need. Legal aid will also be provided to those seeking legal assistance at the court. The previous experiences have revealed that most of the conflicts are resolved at a very early stage in CRFCC as both the parties get an opportunity to discuss their issues in a peaceful and conducive environment. Most of the problems are seen to be blown out of proportion by lack of knowledge, absence of a proper legal advice and negligence of the communities. The provision of legal advice at the very beginning significantly decreases the chances of a case to be proceeded in the courts. Pertinent to mention is that the services at the CRFCC will be provided not only to the shelter inmates but also to other women and families having a need for a legal advice.

There are no psychiatrists or psycho-social counselors available in Nimroz province to begin with. As such VWO has planned to hire one from Herat for the project and get three of the staff members trained for skills of psycho-social counseling in Nimroz. This will be an extremely important output of this project that local educated women and girls will learn the skills of psycho-social counseling and they will be encouraged to acquire a degree in the same field. This will benefit the DoWA office of Nimroz as well as thousands of women and girls in years to come.

iii) Legal Advice Center in Civil Courts

Legal advice center will be established within the premises of the civil courts of Zaranj city. Defense lawyers, hired under the project scope of work, will provide free legal advice and services (defense in courts) to families and individuals seeking access to justice. The presence of defense lawyers and availability of free legal advice in the courts of law will not only encourage the victims of violence to seek resolution of their family conflicts through the formal justice system but will also strengthen the judicial system to handle such cases. The communities will start believing in the formal system and will gradually switch over to it from the centuries old shura system.

iv) Vocational Training for Women and Girls

The project beneficiaries of the residential shelter as well as the most deserving women facing domestic violence due to poverty will be provided with opportunities of vocational training. It has been observed that poverty is the root cause of most of the family conflicts those result in violence against women. This component of the project addresses this very critical issue and will enable the women and girls to learn valuable skills for their future benefits. This will help to reduce the incidents of domestic violence against women.

The project is designed to provide training for skills those are required by the local markets in order to ensure that the trained women and girls are able to establish small scale businesses once they leave the shelter facility. The skills learned by the beneficiary women and girls will enable them to generate income and improve the financial conditions of their lives. The improved economy of the
families will have a positive impact on their sociology and a more peaceful and harmonious family atmosphere will be achieved.

v) Women’s Rights Awareness Outreach

One of the important components of the proposed project is the outreach awareness campaign for the target communities of Zarajan city and districts of Nimroz. VWO team, comprising of legal advisors and social workers will visit the communities and conduct awareness sessions to inform them about the services available at VWO, importance of the formal justice system, newly adapted EVAW law and other international conventions pertaining to women’s rights.

VWO carried out numerous outreach awareness campaigns in districts of Herat province with regard to women’s rights from 2007 to 2009 those brought very little change. It was realized that only making the women and girls aware of their rights alone will not have much impact unless the males of the communities are on-board. The strategy was changed for 2010 and 2011 with more focus on the male social actors (community elders, religious clergy, district officials and husbands & fathers of the victims of violence) in the project designs.

The approach of getting men on-board brought tremendous success and the response to our campaigns in 2010 and 2011 was overwhelming as the male members of the communities showed a lot more interest in learning about the women’s rights. As such the outreach awareness campaign of this particular project will also focus on changing the mindset of the male social actors and decision makers. Meetings and awareness sessions will be held with the male social actors to bring about a change in their perspective. Printed material (posters, pamphlets, visiting cards etc.) will be utilized to spread the word about the services provided by the project.

In addition, televised round table conferences and debates will be conducted to raise a voice against abuse of women’s rights. Four (4) such conferences and Four (2) regional seminars will be held during the currency of the project and each will focus on a different subject such as forced marriages, childhood marriages, exchange marriages and right to inheritance.

vi) Residential Shelter Facility (Safehouses)

This particular component of the proposed project is relatively a smaller one as the experience in Herat and Badghis tells us that a women shelter is a very new idea for the communities and needs to be gradually developed. The provision of CRFCC and legal advice will prepare the grounds for a complete women shelter in the future. A small scale shelter facility, accommodating 6-8 women and girls at a time, will be set up in Zarajn city to provide immediate safe refuge to the victims of violence and at-risk women and girls. This small scale shelter will be the satellite base of the VWO Herat shelter that is a very well established and recognized facility in the region.

The satellite residential shelters (Safehouses) will be established in a very secure residential buildings within the main city of Zarajn. Security guards will be appointed with duty hours scheduled to cover 24 hours a day, seven days a week and closed circuit surveillance cameras will also be installed. The building will have proper bedrooms, lounge, kitchen, bathrooms, toilets and living room for the inmates. The rooms of the beneficiaries will be furnished with all the daily life necessities to support a comfortable and dignified living. In the wake of security and safety of the beneficiary women and girls, the location of the residential shelters will be generally kept secret and only the relevant quarters
(Department of Women Affairs, Office of Attorney General, Police Department, Afghan Independent Human Rights Commission and Officials of donor agency) will know about it. The facilities can only be visited by authorized personnel of VWO, donor and stakeholders. All such measures will be taken to ensure that the lives of the beneficiary women and girls are not at risk, as many of them are threatened for life by the male members of their families.

The residential beneficiary women and girls will be entitled to stay at the shelter facility until amicable and proper resolution of their cases. They will be provided with shelter, food, medicine, social support, vocational training and entertainment at the shelter facility. Legal advice through a qualified judge and case follow up through experienced defense lawyers will also be provided to the beneficiaries. A proper database of the admitted beneficiaries will be maintained by VWO for reporting and evaluation purposes. The database will ensure that the record of VAW cases is centralized and duplication of records is avoided.

vii) Case Identification & Referral Mechanism

The beneficiaries of the project will be identified through a pre-defined criteria developed by the CCC for the purpose. Female victims of violence or at-risk of being trafficked, victims of forced and childhood marriages, unaccompanied returnee refugees, women and girls escaping abuse from family members and women facing death threats will be given priority at the proposed shelter facility.

VWO will develop a comprehensive case referral mechanism among the relevant agencies in Nimroz. For the purpose, a complete set of prescribed referral forms (case identification, referral to agencies, referral to services, beneficiary undertaking, reintegration etc.) will be provided to all CCC members and upon identification of VAW case, they will immediately refer the cases to DoWA. VWO will receive all the referrals from DoWA with their official endorsement.

viii) Services at Shelter

The project beneficiaries will be provided with all the services at the shelters necessary to lead a purposeful and dignified life. The services and provisions will include shelter, food, clothing, medicine, legal advice, legal assistance, entertainment and vocational training.

There is no time limit for the beneficiaries to stay at the shelter and they will be attended to until an amicable and durable solution is found and they are reintegrated back. The VWO team and CCC members will ensure the safety and security of the reintegrated women and girls by following up with the families: The cases requiring short time intervention such as family conflicts and disputes will be resolved through family counseling and mediation sessions. They will be reintegrated back with a proper follow up procedure.

The women seeking divorce might have to stay for longer time at the shelter as a case of divorce normally takes about a year (lack of availability of witness, lack of having identification papers, change of courts from districts to cities) as it goes through three levels of court procedures until the final decision made by the Supreme Court. Women and girls rejected by their families might also stay for longer periods until a solution is found for them. It could be a job opportunity outside shelter to reintegrate them back into community for starting a new life. They could stay in the shelter during the night unless they find someone to live with. VWO will make efforts to place them on jobs where they can earn a living and be self-reliant in their future.
A qualified and experienced nurse will be hired to keep the health conditions of the beneficiaries under a constant check and she will provide them with first aid and basic treatment at the shelter. Anything beyond her capacity and resources will be referred to the city hospital for proper treatment. She will be responsible to carry out complete medical tests at the regional hospital, of each individual woman and girl admitted at the shelter facility. The tests will include Hepatitis, HIV and Tuberculosis. The nurse will also conduct regular sessions to impart knowledge on personal and environmental hygiene to the beneficiaries.

ix) Reintegration of Beneficiaries

The experience tells us that the most difficult part of the job is the reintegration of the women and girls back into their families and communities. This particularly requires continuous family counseling to change the mindset of the abusive family members. Whenever a beneficiary’s case is resolved and she needs to be reintegrated back with the family, the CCC will conduct a meeting and terms and conditions of reintegration will be discussed there. Personal guarantees of reputable community elders and written undertakings from the family members will be acquired to ensure the safety of the beneficiary women and girls.

There are certain cases where the family members are simply not ready to accept the woman and girls back and pose a constant threat to their lives. Such beneficiaries are long term residents of the shelter facility. VWO has a program of job placement for these women and girls. Eight (8) long term resident women and girls of Herat work in the day at the women-for-women restaurants in Herat city. These restaurants were established by VWO in 2006 as eateries and social points exclusively for women and girls. VWO cannot enforce any solution on these beneficiaries and the only way out is to reintegrate them back into society through job placement, if not into their own families. The beneficiaries of Nimroz will be provided with such opportunities within their locality.

x) Follow-up of Cases

The entire success of the CRFC and shelter facility is subject to safe and dignified reintegration of the women and girls back into their families. As such a proper follow up is required after the reintegration. This is very much critical to ensure the safety of the reintegrated victim. VWO caseworkers and legal advisors will maintain communication with the family and the victim for a couple of months and will make sure that the victim has started a normal life again. The caseworkers and supervisor of shelter will make telephonic inquiries once immediately after reintegration, once after three months and once after a year as well. The staff will also talk to the neighbors and community in addition to the beneficiary and her family to know about her status after reintegration.

In provinces and areas where VWO does not have offices and the staff cannot get to the families of the victim, the offices of International Committee of the Red Cross (ICRC) and Afghan Independent Human Rights Commission (AIHRC) have pledged to cooperate with VWO and they will arrange for the reintegration of the project beneficiaries.

xi) Monitoring & Evaluation

The day to day activities will be carried out under the watchful eyes of the project coordinator and supervisor. They will make sure that the consulting families and individuals are well attended and services are provided to
residential beneficiaries. The project supervisor will report to the project coordinator on weekly basis, the project coordinator will submit an activity report to program coordinator in Herat on monthly basis and a quarterly report will be furnished for donor, stakeholders and partners.

VWO senior management staff will visit the Nimroz women shelter project on quarterly basis for monitoring purposes. Monitoring visits of donor agency, government officials and human rights offices will also be arranged by VWO. The outcome of these visits will have a positive impact on the activities of the project team as they will further improve their performance.

II) Strategic Fit with US Governance Objectives

The proposed project directly and extensively adheres to the Article-5 (Protection of Human Rights) under the GAPS Areas of Interest on page 13 of the USAID Annual Program Statement No. 306-10-0020. The following objectives of the article are most relevant:

- Increasing citizen's awareness and understanding of and demand of their rights.
- Increasing legal assistance and services for victims of human rights abuses.
- Building sustainable linkages between local and international human rights organizations
- Building civil society capacity to monitor government promotion and protection of human rights and prosecution of human rights abuses.
- Promoting sub-national and/or national policy dialogue on human rights policy, and promoting the concept of rights-based development with a focus on realizing this right.
- Promoting dialogue among religious groups and promoting religious tolerance and respect for religious freedom.

The project further supports the Article-4 (Advocating for the Rule of Law) on page 12 of the same program statement. Following objectives of the article are most relevant:

- Increasing access to justice through legal aid and services.
- Promoting transparency in the legal system and the fair adjudication of cases according to prescribed law and process.
- Promoting the right to have a lawyer and the ability for lawyers to represent their clients according to the law.
- Provide communities an alternate forum of dispute resolution (other than a court) including support for traditional justice mechanism.
- Offering training to lawyers and enhancing legal practice in critical areas of law such as women's rights, land law and commercial law.

III) Sustainability

Though the proposed project is financially donor dependent and would require continuous funding for a considerable period of time but would have a permanent social impact on the target communities. The project will simply change the mindset of the people with regard to women's social and legal rights and they will also be made aware of the recent legislation that adheres to women's rights in all spheres of life.

The management team of VWO will make all efforts to sensitize the government departments, especially Department of Women Affairs (DoWA) and Department of
Labor & Social Affairs (DoLSA), to realize that the protection of women's rights is primarily their responsibility. VWO will advocate for accommodating the needs of women shelter in the annual budgets of DoWA and DoLSA, Nimroz.

Certain income generating activities (production of potato chips, food processing and handicrafts) have been included in the design of this particular project. This is not only aimed at enhancing the skills of the shelter inmates but also to start an income generation to support the running cost of the shelter facility.

In addition, VWO will explore options to acquire a piece of land from the government and seek funds from a donor for constructing a permanent building for the women shelter in Nimroz. This will, no doubt, require hectic efforts and advocacy at all levels. VWO management will coordinate and negotiate the provision of land with the support of DoWA, Nimroz, to create a network of private sector organizations to support different parts of the annual budget of the women shelter.

IV) Gender Issues

The proposed project of safe house for at-risk women and girls is 100% gender oriented and addressed the most critical issue of women’s rights in a male dominated society that is strictly ruled by traditions and controlled by religious extremists. Majority of the project staff will be women and all the direct beneficiaries will be women at-risk and victims of domestic and other types of violence. As such the project explicitly addressed the gender issues.

V) Management and Operational Approach and Capability

i) Organizational Capacity

VWO has carried out numerous projects to promote women’s rights since its establishment in 1998. The Conflict Resolution & Family Counseling Centre (CRFCC) was run with the assistance of the Royal Embassy of Netherlands in 2005. Similarly VWO has been very active in providing social and legal assistance to the prisoners of Kabul Female Prison and Herat Female Prison. In addition, VWO is maintaining a residential shelter facility in Herat for at-risk women and girls since 2005. A similar facility is being maintained in Badghis province with the assistance of USAID since October, 2009 to protect victims of human trafficking.

The extensive experience with Herat and Badghis shelter projects and above mentioned clinics in Farah has enabled VWO to build a very strong team of psycho-social counselors, legal advisors, social workers and community mobilizers. The management of VWO has gained invaluable experience of working in the Western region and our team enjoys excellent relations with the local communities in the whole region. VWO has established strong links with the stakeholders and is held in very high esteem by the donor agencies as well.

ii) Qualification and Past Performance

VWO will be partnering with the Traveling Mercies International (TMI) of Philadelphia, USA for this particular project. VWO and TMI have worked together on a number of water schemes and certain other projects in Herat over the last 8 years. The TMI will support this project by providing the mandatory 10% of non-US Government funding. The 60,000US Dollars provided by the TMI will be used to cover the administration cost of the project which is not budgeted to USAID.
All other terms and conditions of the FOG remain unchanged.

2. Program Description

i) Technical Approach

has successfully established and maintained safe houses for at-risk women and girls in Herat (since 2005) and in Badghis (since 2009). Both these facilities are continuing to function without any hindrance. As such VWO has gained an invaluable experience in carrying such critically important projects. VWO will have the following technical approach for the proposed projects:

Coordination and Collaboration: Farah is one of the most backward of Afghan provinces in terms of women’s rights. The society is a closed one and under the heavy influence of religious clergy. In order to have a cohesive approach for the project, VWO officials will hold coordination meetings with line departments of government, provincial council, community representatives, religious leaders and other civil society organizations active in the area. The idea, goal, objectives and activities of the project will be shared with them in order to get them on board. This will pave the way for a smooth and fruitful implementation of the project activities in terms of administration and supervision.

Project Staff: Qualified and experience technical, administrative and support staff for the project will be appointed through an open merit system. Vacancies will be announced as per the approved project budget and interviews will be conducted of short listed candidates. VWO will designate a panel for this purpose that will comprise of senior staff members. The successful candidates will be provided with contract agreements and they will be engaged in an orientation training workshop as well.

Safe House: A spacious building for the safe house will be selected in a secure and peaceful area of Farah city and the same will be furnished with all the necessities to accommodate project beneficiaries. The premises will be protected with barbed wire, security cameras and security guards. The guards will be positioned within the premises and will be un-armed as per the code of conduct of NGOs.

Project Publicity: VWO will arrange for the publicity of the project through local print and electronic media in order to brain-storm the communities about the services being provided at the shelter facility. The issues of women’s rights and corresponding legislation will be highlighted for the awareness of the masses. This will entice the people to consult VWO office for their family disputes and utilize the formal system of justice.

Monitoring & Evaluation: The day to day activities will be carried out under the watchful eyes of the project coordinator and supervisor. They will make sure that the consulting families and individuals are well attended and services are provided to residential beneficiaries. The project supervisor will report to the project coordinator on weekly basis, the project coordinator will submit an activity report to program coordinator in Herat on monthly basis and a quarterly report will be furnished for donor, stakeholders and partners.

VWO senior management staff will visit the Farah women shelter project on quarterly basis for monitoring purposes. Monitoring visits of donor agency, government officials and human rights offices will also be arranged by VWO. The outcome of these visits will have a positive impact on the activities of the project team as they will further improve their performance.

ii) Strategic Fit with US Governance Objectives

The proposed project directly and extensively adheres to the Article-5 (Protection of Human Rights) under the GAPS Areas of Interest on page 13 of the USAID Annual Program Statement No. 306-10-0020. The following objectives of the article are most relevant:

- Increasing citizen's awareness and understanding of and demand of their rights.
- Increasing legal assistance and services for victims of human rights abuses.
- Building sustainable linkages between local and international human rights organizations
- Building civil society capacity to monitor government promotion and protection of human rights and prosecution of human rights abuses.
promoting sub-national and/or national policy dialogue on human rights policy, and promoting the
correct concept of rights-based development with a focus on realizing this right.
- Promoting dialogue among religious groups and promoting religious tolerance and respect for
religious freedom.

The project further supports the Article-4 (Advocating for the Rule of Law) on page 12 of the same
program statement. Following objectives of the article are most relevant:

- Increasing access to justice through legal aid and services.
- Promoting transparency in the legal system and the fair adjudication of cases according to
prescribed law and process.
- Promoting the right to have a lawyer and the ability for lawyers to represent their clients according
to the law.
- Provide communities an alternate forum of dispute resolution (other than a court) including
support for traditional justice mechanism.
- Offering training to lawyers and enhancing legal practice in critical areas of law such as women’s
rights, land law and commercial law.

iii) Sustainability

Though the proposed project is financially donor dependent and would required continuous funding for a
considerable period of time but would have a permanent social impact on the target communities. The
project will simply change the mindset of the people with regard to women’s social and legal rights and
they will also be made aware of the recent legislation that adheres to women’s rights in all spheres of life.
The requirement of yearly funding can be reduced significantly by acquiring a permanent building for the
facility. This can be achieved by getting a piece of land from the government and constructing the building
by a donor agency.

iv) Gender Issues

The proposed project of safe house for at-risk women and girls is 100% gender oriented and addressed the
most critical issue of women’s rights in a male dominated society that is strictly ruled by traditions and
controlled by religious extremists. Majority of the project staff will be women and all the direct
beneficiaries will be women at-risk and victims of domestic and other types of violence. As such the
project explicitly addressed the gender issues.

Management and Operational Approach and Capability

i) Organizational Capacity

VWO has carried out numerous projects to promote women’s rights since its establishment in 1998. The
Conflict Resolution & Family Counseling Centre (CRFCC) was run with the assistance of the Royal
Embassy of Netherlands in 2005. Similarly VWO has been very active in providing social and legal
assistance to the prisoners of Kabul Female Prison and Herat Female Prison. In addition, VWO is
maintaining a residential shelter facility in Herat for at-risk women and girls since 2005. A similar facility
is being maintained in Badghis province with the assistance of USAID since October, 2009 to protect
victims of human trafficking.

VWO has established a treatment center for drug addicted women and children in Farah with the financial
and technical assistance of Colombo Plan. The project is funded by US Department of States through
International Narcotics & Law Enforcement Agency (INL). The facility was established in April, 2010 with
a contractual period of 24 calendar months. The center is providing residential and home-based treatment
services to hundreds of women and children in Farah.

The extensive experience with Herat and Badghis shelter project and above mentioned clinics in Farah has
enabled VWO to build a very strong team of psycho-social counselors, legal advisors, social workers and
community mobilizes. The management of VWO has gained invaluable experience of working in the
Western region and our team enjoys excellent relations with the local communities in the whole region. VWO has established strong links with the stakeholders and is held in very high esteem by the donor agencies as well.

The purpose of this database is to track and monitor development projects and maintain coordination between USAID/Afghanistan, USAID/Washington, Congress, International Security Assistance Forces (ISAF), implementing partners, the Government of Afghanistan, and other donors. This reporting process supports the Government of Afghanistan’s requirement that USAID provide information to the Ministry of Finance in order to track ongoing and completed donor-sponsored development activities.

In keeping with monitoring and reporting program performance, the Recipient shall provide at least a quarterly update of information on the activities under the award by entering this information into the Afghan Info. 12. **GENDER INTERGRATION REQUIREMENTS (DECEMBER 2010):**

USAID programs must address the needs and protect the rights of women and girls in Afghanistan. Therefore, USAID requires recipients to undertake efforts to prevent discrimination and violence against women and girls, provide economic and leadership opportunities, increase participation of women in the political process, improve security for women and girls, promote education, health and well-being, and other efforts designed to directly benefit women and girls. The Recipient shall integrate assistance to women into all aspects of development, planning, programming and implementation, as a part of this assistance program. Such integration shall contribute to the three pillars of development outlined in the ten-year National Action Plan for the Women of Afghanistan (NAPWA) 1) Security; 2) Government, Rule of Law, and Human Rights; and 3) Economic and Social Development. The Recipient shall establish the necessary implementation, management and reporting systems to separately track and report to USAID data on female beneficiaries and measurable impacts of activities intended to address the needs of women and girls. It is expected that the relevant indicators on female beneficiaries and impacts of activities on the needs of women and girls will vary by project. However, relevant indicators may include items such as:

1. The total number of women and girls supported through the agreement on a quarterly basis through Afghan Info;
2. Number of women accessing basic services, including education and health;
3. Number of interventions leading to increased employment and economic opportunities for women, as well of number of beneficiaries;
4. Number of interventions resulting in increased participation of women in government and civil society;
5. Number of activities supporting legal rights and public access for women; and,

Outcomes for women who have benefited from the agreement. The Recipient shall refer to USAID/Afghanistan's comprehensive Performance Management Plan (PMP) for complete list of gender indicators. To the extent possible, indicators applicable to the agreement will be disaggregated by gender.

13. **TERMINATION AND SUSPENSION - OCT 1998**

a. The Grant Officer may terminate this award at any time, in whole or in part, upon written notice to the recipient, whenever it is determined that the recipient has materially failed to comply with the terms and conditions of the award.

b. This award may be terminated at any time, in whole or in part, by the Grant Officer with the consent of the recipient. Both parties shall agree upon termination conditions, including the effective date and, in the case of partial terminations, the portion of the award to be terminated. The Grant to terminate shall be set forth in a letter from the Grant Officer to the recipient.

c. This award may be terminated at any time in whole or in part by the recipient upon sending written notification to the Grant Officer with the following information: the reasons for the termination, the effective date, and, in the case of a partial termination, the portion to be terminated. However, if USAID determines in the case of partial termination that the reduced or modified portion of the award will not accomplish the purposes for which the award was made, USAID may terminate the award in its entirety in accordance with paragraphs (a) or (b) above.

d. If at any time USAID determines that continuation of all or part of the funding for a program should be suspended or terminated because such assistance would not be in the national interest of the United States or would be in violation of an applicable law, then USAID may, following notice to the recipient, suspend or terminate this award in whole or part and prohibit the recipient from incurring additional obligations chargeable to this award other than those costs specified in the notice of suspension during the period of suspension. If the situation causing the
suspension continues for 60 days or more, then USAID may terminate this award on written notice to the recipient and cancel that portion of this award which has not been disbursed or irrevocably committed to third parties.

e. Termination and Suspension Procedures. Upon receipt of and in accordance with a termination notice as specified above, the recipient shall take immediate action to minimize all expenditures and obligations financed by this award and shall cancel such un-liquidated obligations whenever possible. Except as provided below, the recipient shall not incur costs after the effective date of termination.

The recipient shall within 30 calendar days after the effective date of such termination repay to the U.S. Government all unexpended USAID funds which are not otherwise obligated by a legally binding transaction applicable to this award. Should the funds paid by USAID to the recipient prior to the effective date of the termination of this award be insufficient to cover the recipient's obligations in the legally binding transaction, the recipient may submit to the Government within 90 calendar days after the effective date of such termination a written claim covering such obligations. The Grant Officer shall determine the amount(s) to be paid by USAID to the recipient under such claim in accordance with the applicable Cost Principles.

This provision must be included in all sub-agreements.

1. TERMINATION AND SUSPENSION (FEBRUARY 2012)

a. This award may be terminated at any time, in whole or in part, by either party upon receipt of written notification by the other party.

e. Termination and Suspension Procedures. Upon receipt of, and in accordance with a termination notice as specified above, the recipient must take immediate action to minimize all expenditures and obligations financed by this award and must cancel such un-liquidated obligations whenever possible. Except as provided below, the recipient is not entitled to any costs incurred after the effective date of termination. The recipient must within 30 calendar days after the effective date of such termination repay to the U.S. Government all un-liquidated funds not otherwise obligated by a legally binding transaction applicable to this award that cannot be cancelled without penalty by the recipient. Should the funds paid by USAID to the recipient prior to the effective date of the termination of this award be insufficient to cover the recipient’s obligations in a legally binding transaction applicable to this award, the recipient may submit to the Government within 90 calendar days after the effective date of such termination a written claim covering such obligations. The Agreement Officer must determine the amount(s) to be paid by USAID to the recipient under such claim in accordance with the applicable Cost Principles. This provision must be included in all sub agreements.

[END OF PROVISION]

2. DISPUTES (FEBRUARY 2012)

2. Have been convicted within the preceding three-year period preceding this proposal; been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State, or local) transaction or contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, receiving stolen

4. Have had one or more public transactions (Federal, State, or local) terminated for cause or default
within the preceding three years.

b. The recipient agrees that, unless authorized by the Agreement Officer, it will not knowingly enter into any sub-agreements or contracts under this grant with a person or entity that is included on the Excluded Parties List System (www.epis.gov). The recipient further agrees to include the following provision in any sub-agreements or contracts entered into under this award: 05/04/2012 Partial Revision

DEBARMENT, SUSPENSION, INELIGIBILITY, AND VOLUNTARY EXCLUSION (DECEMBER 2003)

c. The policies and procedures applicable to debarment, suspension, and ineligibility under USAID-financed transactions are set forth in 22 CFR 208.

[END OF PROVISION]

4. DRUG-FREE WORKPLACE (FEBRUARY 2012)

a. You as the recipient must comply with drug-free workplace requirements in subpart B (or subpart C, if the recipient is an individual) of 782, which adopts the Government-wide implementation (2 CFR part 182) of sec. 5152–5158 of the Drug-Free Workplace Act of 1988 (Pub. L. 100–690, Title V, Subtitle D; 41 U.S.C. 701–707).

[END OF PROVISION]

5. NONLIABILITY (NOVEMBER 1985)

USAID does not assume liability for any third party claims for damages arising out of this award.

[END OF PROVISION]

6. AMENDMENT (OCTOBER 1998)

The award may be amended by formal modifications to the basic award document or by means of an exchange of letters or forms between the Agreement Officer and an appropriate official of the recipient.

[END OF PROVISION]

7. NOTICES (OCTOBER 1998)

Any notice given by USAID or the recipient is sufficient only if in writing and delivered in person or mailed as follows:

(1) To the USAID Agreement Officer and Grant Officer's Representative (GOR), at the addresses specified in the award; and

(2) To recipient, at recipient's address shown in the award, or to such other address designated within the award. Notices are effective when delivered in accordance with this provision, or on effective date of the notice, whichever is later.

[END OF PROVISION]
8. METRIC SYSTEM OF MEASUREMENT (AUGUST 1992)

Wherever measurements are required or authorized, they must be made, computed, and recorded in metric system units of measurement, unless otherwise authorized by the Agreement Officer in writing when it has found that such usage is impractical or is likely to cause U.S. firms to experience significant inefficiencies or the loss of markets. Where the metric system is not the predominant standard for a particular application, measurements may be expressed in both the metric and the traditional equivalent units, provided the metric units are listed first.

[END OF PROVISION]

9. EQUAL PROTECTION OF THE LAWS FOR FAITH-BASED AND COMMUNITY ORGANIZATIONS (December 2009)

a. All the requirements of 22 CFR 205, Participation By Religious Organizations In USAID Programs, are applicable to the recipient and to sub-recipients which meet the definition of "Recipient" in 22 CFR 226. The requirements of 22 CFR 205 applies to both religious and secular organizations.

b. If the recipient makes subawards under this agreement, faith-based organizations must be eligible to participate on the same basis as other organizations, and must not be discriminated for or against on the basis of their religious character or affiliation.

c. The recipient must not engage in inherently religious activities, such as worship, religious instruction, or proselytization, as part of the programs or services directly funded with financial assistance from USAID. If the recipient engages in inherently religious activities, such as worship, religious instruction, and proselytization, it must offer those services at a different time or location from any programs or services directly funded by this award, and participation by beneficiaries in any such inherently religious activities must be voluntary. These restrictions do not apply to programs where USAID funds are provided to chaplains to work with inmates in prisons, detention facilities, or community correction centers, or where USAID funds are provided to religious or other organizations for programs in prisons, detention facilities, or community correction centers, in which such organizations assist chaplains in carrying out their duties.

d. The recipient must not use USAID funds for the acquisition, construction, or rehabilitation of structures to the extent that those structures are used for inherently religious activities. Where a structure is used for both eligible and inherently religious activities, USAID funds may not exceed the cost of those portions of the acquisition, construction, or rehabilitation that are attributable to eligible activities in accordance with applicable cost accounting principles. Sanctuaries, chapels, or other rooms that the recipient uses as its principal place of worship are ineligible for acquisition, construction, rehabilitation, or improvements using USAID funds.

e. The recipient may not discriminate against any beneficiary or potential beneficiary under this award on the basis of religion or religious belief. Accordingly, in providing services supported, in whole or in part, by this agreement or in its outreach activities related to such services, the recipient may not discriminate against current or prospective program beneficiaries on the basis of religion, a religious belief, a refusal to hold a religious belief, or a refusal to actively participate in a religious practice.

f. When the recipient is a religious organization, the recipient

(1) Retains its independence and may continue to carry out its mission, including the definition, practice,
and expression of its religious beliefs, provided that it does not use direct financial assistance from USAID to support any inherently religious activities, such as worship, religious instruction, or proselytization.

(2) Retains its authority over its internal governance and may retain religious terms in its organization's name, select its board members on a religious basis, and include religious references in its organization's mission statements and other governing documents.

(4) May use space in its facilities, without removing religious art, icons, scriptures, or other religious symbols.

g. The Secretary of State may waive the requirements of this provision in whole or in part, on a case-by-case basis, where the Secretary determines that such waiver is necessary to further the national security or foreign policy interests of the United States.

[END OF PROVISION]

10. IMPLEMENTATION OF E.O. 13224 -- EXECUTIVE ORDER ON TERRORIST FINANCING
(MARCH 2002)

The recipient is reminded that U.S. Executive Orders and U.S. law prohibits transactions with, and the provision of resources and support to, individuals and organizations associated with terrorism. It is the legal responsibility of the recipient to ensure compliance with these Executive Orders and laws. This provision must be included in all contracts/subawards issued under this agreement.

[END OF PROVISION]

11. MARKING UNDER USAID-FUNDED ASSISTANCE INSTRUMENTS (DECEMBER 2005)

a. Definitions:

Commodities mean any material, article, supply, goods or equipment, excluding recipient offices, vehicles, and non-deliverable items for recipient's internal use, in administration of the USAID-funded grant, cooperative agreement, or other agreement or sub-agreement.

Principal Officer means the most senior officer in a USAID Operating Unit in the field, for example, USAID Mission Director or USAID Representative. For global programs managed from Washington but executed across many countries, such as disaster relief and assistance to internally displaced persons, humanitarian emergencies or immediate post conflict and political crisis response, the cognizant Principal Officer may be an Office Director, for example, the Directors of USAID/W/Office of U.S. Foreign Disaster Assistance and Office of Transition Initiatives. For non-presence countries, the cognizant Principal Officer is the Senior USAID officer in a regional USAID Operating Unit responsible for the non-presence country, or in the absence of such a responsible Operating Unit, the Principal U.S Diplomatic Officer in the non-presence country exercising delegated authority from USAID.

Programs mean an organized set of activities and allocation of resources directed toward a common purpose, objective, or goal undertaken or proposed by an organization to carry out the responsibilities assigned to it.
Projects include all the marginal costs of inputs (including the proposed investment) technically required to produce a discrete marketable output or a desired result (for example, services from a fully functional water/sewage treatment facility).

Public communications are documents and messages intended for distribution to audiences external to the recipient’s organization. They include, but are not limited to, correspondence, publications, studies, reports, audio visual productions, and other informational products; applications, forms, press and promotional materials used in connection with USAID-funded programs, projects or activities, including signage and plaques; Web sites/Internet activities; and events such as training courses, conferences, seminars, press conferences, and so forth.

Sub-recipient means any person or government (including cooperating country government) department, agency, establishment, or for profit or nonprofit organization that receives a USAID sub-award, as defined in 22 CFR 226.2.

Technical Assistance means the provision of funds, goods, services, or other foreign assistance, such as loan guarantees or food for work, to developing countries and other USAID recipients, and through such recipients to sub-recipients, in direct support of a Development Objective – as opposed to the internal management of the foreign assistance program.

USAID Identity (Identity) means the official marking for the United States Agency for International Development (USAID), comprised of the USAID logo or seal and new brand mark, with the tagline that clearly communicates that our assistance is “from the American people.” The USAID Identity is available on the USAID Web site at www.usaid.gov/branding and USAID provides it without royalty, license, or other fee to recipients of USAID-funded grants, or cooperative agreements, or other assistance awards.

b. Marking of Program Deliverables

(1) All recipients must mark appropriately all overseas programs, projects, activities, public communications, and commodities partially or fully funded by a USAID grant or cooperative agreement or other assistance award or sub-award with the USAID Identity, of a size and prominence equivalent to or greater than the recipient’s, other donor’s, or any other third party’s identity or logo.

(2) The recipient will mark all program, project, or activity sites funded by USAID, including visible infrastructure projects (for example, roads, bridges, buildings) or other programs, projects, or activities that are physical in nature (for example, agriculture, forestry, water management) with the USAID Identity. The recipient should erect temporary signs or plaques early in the construction or implementation phase. When construction or implementation is complete, the recipient must install a permanent, durable sign, plaque or other marking.

(3) The recipient will mark technical assistance, studies, reports, papers, publications, audio-visual productions, public service announcements, Web sites/Internet activities and other promotional, informational, media, or communications products funded by USAID with the USAID Identity.

(4) The recipient will appropriately mark events financed by USAID, such as training courses, conferences, seminars, exhibitions, fairs, workshops, press conferences and other public activities, with the USAID Identity. Unless directly prohibited and as appropriate to the surroundings, recipients should display additional materials, such as signs and banners, with the USAID Identity. In circumstances in which the USAID Identity cannot be displayed visually, the recipient is encouraged otherwise to acknowledge USAID and the American people’s support.
(5) The recipient will mark all commodities financed by USAID, including commodities or equipment provided under humanitarian assistance or disaster relief programs, and all other equipment, supplies, and other materials funded by USAID, and their export packaging with the USAID Identity.

(6) The Agreement Officer may require the USAID Identity to be larger and more prominent if it is the majority donor, or to require that a cooperating country government’s identity be larger and more prominent if circumstances warrant, and as appropriate depending on the audience, program goals, and materials produced.

(7) The Agreement Officer may require marking with the USAID Identity in the event that the recipient does not choose to mark with its own identity or logo.

(8) The Agreement Officer may require a preproduction review of USAID-funded public communications and program materials for compliance with the approved Marking Plan.

(9) Sub-recipients. To ensure that the marking requirements “flow down” to sub-recipients of subawards, recipients of USAID-funded grants and cooperative agreements or other assistance awards will include the USAID-approved marking provision in any USAID-funded sub-award, as follows: "As a condition of receipt of this sub-award, marking with the USAID Identity of a size and prominence equivalent to or greater than the recipient’s, sub-recipient, other donor’s, or third party’s is required. In the event the recipient chooses not to require marking with its own identity or logo by the sub-recipient, USAID may, at its discretion, require marking by the sub-recipient with the USAID Identity."

(10) Any 'public communications', as defined in 22 CFR 226.2, funded by USAID, in which the content has not been approved by USAID, must contain the following disclaimer: "This study/report/audio/visual/other information/media product (specified) is made possible by the generous support of the American people through the United States Agency for International Development (USAID). The contents are the responsibility of [insert recipient name] and do not necessarily reflect the views of USAID or the United States Government."

(11) The recipient will provide the Agreement Officer’s Technical Representative (AOTR) or other USAID personnel designated in the grant or cooperative agreement with two copies of all program and communications materials produced under the award. In addition, the recipient will submit one electronic or one hard copy of all final documents to USAID’s Development Experience Clearinghouse.

C. Implementation of Marking Requirements
(1) When the grant or cooperative agreement contains an approved Marking Plan, the recipient will implement the requirements of this provision following the approved Marking Plan.

(2) When the grant or cooperative agreement does not contain an approved Marking Plan, the recipient will propose and submit a plan for implementing the requirements of this provision within [Agreement Officer fill-in] days after the effective date of this provision. The plan will include:

(i) A description of the program deliverables specified in paragraph (b) of this provision that the recipient will produce as a part of the grant or cooperative agreement, and which will visibly bear the USAID Identity.

(ii) The type of marking and what materials the applicant uses to mark the program deliverables with the USAID Identity.

(iii) When in the performance period the applicant will mark the program deliverables, and where the applicant will place the marking.

(3) The recipient may request program deliverables not be marked with the USAID Identity by identifying...
the program deliverables and providing a rationale for not marking these program deliverables. Program deliverables may be exempted from USAID marking requirements when:

(i) USAID marking requirements would compromise the intrinsic independence or neutrality of a program or materials where independence or neutrality is an inherent aspect of the program and materials;

(ii) USAID marking requirements would diminish the credibility of audits, reports, analyses, studies, or policy recommendations whose data or findings must be seen as independent;

(iii) USAID marking requirements would undercut host-country government “ownership” of constitutions, laws, regulations, policies, studies, assessments, reports, publications, surveys or audits, public service announcements, or other communications better positioned as “by” or “from” a cooperating country ministry or government official;

(iv) USAID marking requirements would impair the functionality of an item;

(v) USAID marking requirements would incur substantial costs or be impractical;

(vi) USAID marking requirements would offend local cultural or social norms, or be considered inappropriate;

(vii) USAID marking requirements would conflict with international law.

(4) The proposed plan for implementing the requirements of this provision, including any proposed exemptions, will be negotiated within the time specified by the Agreement Officer after receipt of the proposed plan. Failure to negotiate an approved plan with the time specified by the Agreement Officer may be considered as noncompliance with the requirements of this provision.

d. Waivers

(1) The recipient may request a waiver of the Marking Plan or of the marking requirements of this provision, in whole or in part, for each program, project, activity, public communication or commodity, or, in exceptional circumstances, for a region or country, when USAID required marking would pose compelling political, safety, or security concerns, or when marking would have an adverse impact in the cooperating country. The recipient will submit the request through the Agreement Officer’s Technical Representative (AOTR). The Principal Officer is responsible for approvals or disapprovals of waiver requests.

(2) The request will describe the compelling political, safety, security concerns, or adverse impact that require a waiver, detail the circumstances and rationale for the waiver, detail the specific requirements to be waived, the specific portion of the Marking Plan to be waived, or specific marking to be waived, and include a description of how program materials will be marked (if at all) if the USAID identity is removed. The request should also provide a rationale for any use of recipient’s own identity/logo or that of a third party on materials that will be subject to the waiver.

(3) Approved waivers are not limited in duration but are subject to Principal Officer review at any time, due to changed circumstances.

(4) Approved waivers “flow down” to recipients of subawards, unless specified otherwise. The waiver may also include the removal of USAID markings already affixed, if circumstances warrant.

(5) Determinations regarding waiver requests are subject to appeal to the Principal Officer’s cognizant Assistant Administrator (AA). The recipient may appeal by submitting a written request to reconsider the Principal Officer’s waiver determination to the cognizant AA.
e. Non-retroactivity
The requirements of this provision do not apply to any materials, events, or commodities produced prior to January 2, 2006. The requirements of this provision do not apply to program, project, or activity sites funded by USAID, including visible infrastructure projects (for example, roads, bridges, buildings) or other programs, projects, or activities that are physical in nature (for example, agriculture, forestry, water management) where the construction and implementation of these are complete prior to January 2, 2006 and the period of the grant does not extend past January 2, 2006.

[END OF PROVISION]

12. VOLUNTARY POPULATION PLANNING ACTIVITIES – MANDATORY REQUIREMENTS (MAY 2006)

Requirements for Voluntary Sterilization Programs
(1) Funds made available under this award must not be used to pay for the performance of involuntary sterilization as a method of family planning or to coerce or provide any financial incentive to any individual to practice sterilization.

Prohibition on Abortion-Related Activities:
(1) No funds made available under this award will be used to finance, support, or be attributed to the following activities: (i) procurement or distribution of equipment intended to be used for the purpose of inducing abortions as a method of family planning; (ii) special fees or incentives to any person to coerce or motivate them to have abortions; (iii) payments to persons to perform abortions or to solicit persons to undergo abortions; (iv) information, education, training, or communication programs that seek to promote abortion as a method of family planning; and (v) lobbying for or against abortion. The term “motivate”, as it relates to family planning assistance, must not be construed to prohibit the provision, consistent with local law, of information or counseling about all pregnancy options.

(2) No funds made available under this award will be used to pay for any biomedical research which relates, in whole or in part, to methods of, or the performance of, abortions or involuntary sterilizations as a means of family planning. Epidemiologic or descriptive research to assess the incidence, extent, or consequences of abortions is not precluded.

[END OF PROVISION]

APPLICABILITY: The Fly America portion of this provision is applicable only when flights are listed as or in milestones.

3. INTERNATIONAL AIR TRAVEL AND TRANSPORTATION (FEBRUARY 2012)

a. NOTIFICATION

(1) As long as prior budget approval has been met in accordance with paragraph a. above, a separate Notification will not be necessary unless:
(i) The primary purpose of the trip is to work with USAID Mission personnel, or
(ii) The recipient expects significant administrative or substantive programmatic support from the Mission. Neither the USAID Mission nor the Embassy will require Country Clearance of employees or contractors of USAID Recipients.

(2) Where notification is required in accordance with paragraph (1)(i) or (ii) above, the recipient will observe the following standards:
(i) Send a written notice to the USAID Grant Officer’s Representative (GOR) in the Mission. If the recipient's primary point of contact is a Technical Officer in USAID/W, the recipient may send the notice to that person. It will be the responsibility of the USAID/W GOR to forward the notice to the field.
(ii) The notice should be sent as far in advance as possible, but at least 14 calendar days in advance of the proposed travel. This notice may be sent by fax or e-mail. The recipient should retain proof that notification was made.

(iii) The notification must contain the following information: the award number, the GOR, the traveler's name (if known), date of arrival, and the purpose of the trip.

(iv) The USAID Mission will respond only if travel has been denied. It will be the responsibility of the GOR in the Mission to contact the recipient within five working days of having received the notice if the travel is denied. b. SECURITY ISSUES:

Recipients are encouraged to obtain the latest Department of State Travel Advisory Notices before traveling. These Notices are available to the general public and may be obtained directly from the State Department, or via Internet. This may be especially important for long-term posting.

c. USE OF U.S.-OWNED LOCAL CURRENCY:

Travel to certain countries will, at USAID's option, be funded from U.S.-owned local currency. When USAID intends to exercise this option, USAID will either issue a U.S. Government S.F. 1169, Transportation Request (GTR) which the grantee may exchange for tickets, or issue the tickets directly. Use of such U.S.-owned currencies will constitute a dollar charge to this grant.

d. THE FLY AMERICA ACT:

The Fly America Act (49 U.S.C. 40118) requires that all air travel and shipments under this award must be made on U.S. flag air carriers to the extent service by such carriers is available. The Administrator of General Services Administration (GSA) is authorized to issue regulations for purposes of implementation. Those regulations may be found at 41 CFR 301, and are hereby incorporated by reference into this award.

3. PROCUREMENT OF GOODS AND SERVICES (OCTOBER 1998)

APPLICABILITY: This provision is applicable when the procurement element of an award is over

The recipient may use its own procurement policies and practices for the procurement of goods and services under this award, provided they conform to all of USAID's requirements listed below and the standard provision entitled "USAID Eligibility Rules For Goods and Services," if applicable.

a. General Requirements:

(1) The recipient must maintain a written code or standards of conduct that will govern the performance of its employees engaged in the awarding and administration of contracts. An employee, officer, or agent must not participate in the selection, award, or administration of a contract supported by Federal funds if a real or apparent conflict of interest would be involved. Such conflict would arise when the employee, officer or agent, or any member of the employee's immediate family, the employee's partner, or an organization which employs or is about to employ any of the parties indicated herein, has a financial or other interest in the firm selected for an award. The officers, employees, and agents of the recipient must neither solicit nor accept gratuities, favors, or anything of monetary value from contractors or parties to sub-agreements. However, recipients may set standards for situations in which the financial interest is not substantial or the gift is an unsolicited item of nominal value. The standards of conduct must provide for disciplinary actions to be applied for violations of such standards by officers, employees, or agents of the recipient.

(2) All procurement transactions must be conducted in a manner to provide, to the maximum extent practical, open and free competition. The recipient must be alert to organizational conflicts of interest as well as noncompetitive practices among contractors that may restrict or eliminate competition or otherwise restrain trade. In order to ensure objective contractor performance and eliminate unfair competitive advantage, contractors that develop or draft specifications, requirements, statements of work, invitations for bids, and/or requests for proposals must be excluded from competing for such procurements. Contracts must be made to the offeror whose offer is responsive to the solicitation and is most advantageous to the recipient, price, quality, and other factors considered. Solicitations must clearly establish all requirements
that the bidder or offeror must fulfill in order to be evaluated by the recipient. Any and all offers may be rejected when it is in the recipient's interest to do so.

(3) All recipients must establish written procurement procedures. These procedures must provide, at a minimum, that:

(i) Recipients avoid purchasing unnecessary items,

(ii) Where appropriate, an analysis is made of lease and purchase alternatives to determine which would be the most economical and practical procurement, and

(iii) Solicitations for goods and services provide for all of the following:

(A) A clear and accurate description of the technical requirements for the material, product or service to be procured. In competitive procurements, such a description must not contain features which unduly restrict competition.

(B) Requirements which the bidder/offeror must fulfill and all other factors to be used in evaluating bids or proposals.

(C) A description, whenever practicable, of technical requirements in terms of functions to be performed or performance required, including the range of acceptable characteristics or minimum acceptable standards.

(D) The specific features of "brand name or equal" descriptions that bidders are required to meet when such items are included in the solicitation.

(E) The acceptance, to the extent practicable and economically feasible, of products and services dimensioned in the metric system of measurement.

(F) Preference, to the extent practicable and economically feasible, for products and services that conserve natural resources and protect the environment and are energy efficient.

(iv) Positive efforts must be made by the recipients to utilize U.S. small business, minority-owned firms, and women's business enterprises, whenever possible. Recipients of USAID awards must take all of the following steps to further this goal:

(A) Make information on forthcoming opportunities available and arrange time frames for purchases and contracts to encourage and facilitate participation by small businesses, minority-owned firms, and women's business enterprises. To permit USAID, in accordance with the small business provisions of the Foreign Assistance Act of 1961, as amended, to give United States small business firms an opportunity to participate in supplying commodities and services procured under the award, the recipient must to the maximum extent possible provide the following information to the Office of Small and Disadvantaged Business Utilization (OSDBU/MRC), USAID, Washington, DC 20523, at least 45 days prior to placing any order or contract in excess of $100,000:

(a) Brief general description and quantity of goods or services;

(b) Closing date for receiving quotations, proposals, or bids; and

(c) Address where solicitations or specifications can be obtained.

(B) Consider in the contract process whether firms competing for larger contracts intend to subcontract with small businesses, minority-owned firms, and women's business enterprises.
(C) Encourage contracting with consortiums of small businesses, minority-owned firms, and women's business enterprises when a contract is too large for one of these firms to handle individually.

(D) Use the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Department of Commerce's Minority Business Development Agency in the solicitation and utilization of small businesses, minority-owned firms, and women's business enterprises.

(v) The type of procurement instruments used (for example, fixed price contracts, cost reimbursable contracts, purchase orders, incentive contracts), must be determined by the recipient but, must be appropriate for the particular procurement and for promoting the best interest of the program or project involved. The "cost-plus-a-percentage-of-cost" or "percentage of construction cost" methods of contracting must not be used.

(vi) Contracts must be made only with responsible contractors who possess the potential ability to perform successfully under the terms and conditions of the proposed procurement. Consideration must be given to such matters as contractor integrity, record of past performance, financial and technical resources, or accessibility to other necessary resources. Contracts must not be made with firms or individuals whose name appears on the "Lists of Parties Excluded from Federal Procurement and Non-procurement Programs." USAID will provide the grantee with copy of this list upon request.

(vii) Recipients must, on request, make available for USAID, pre-award review and procurement documents, such as request for proposals or invitations for bids, independent cost estimates, etc., when any of the following conditions apply:

(A) A recipient's procurement procedures or operation fails to comply with the procurement standards in this part, and

(B) The procurement is expected to exceed [redacted]

(viii) The recipient must document some form of price or cost analysis in its procurement files in connection with every procurement action. Price analysis may be accomplished in various ways, including the comparison of price quotations submitted, and market prices, together with discounts. Cost analysis is the review and evaluation of each element of cost to determine reasonableness, allocability, and allowability.

(ix) Procurement records and files for purchases in excess of the recipient's own small purchase threshold must include the following at a minimum:

(A) Basis for contractor selection;

(B) Justification for lack of competition when competitive bids or offers are not obtained, and;

(C) Basis for award cost or price.

(x) A system for contract administration must be maintained to ensure contractor conformance with terms, conditions, and specifications of the contract and to ensure adequate and timely follow up of all purchases. Recipients must evaluate contractor performance and document, as appropriate, whether contractors have met the terms, conditions, and specifications of the contract.

b. The recipient must include, in addition to provisions to define a sound and complete contract, the following provisions in all contracts. The following provisions must also be applied to subcontracts.

(1) Contracts in excess of [redacted] must contain contractual provisions or conditions that allow for administrative, contractual, or legal remedies in instances in which a contractor violates or breaches the contract terms, and provide for such remedial actions as may be appropriate.
(2) All contracts in excess of a specified amount must contain suitable provisions for termination by the recipient, including the manner by which termination will be effected and the basis for settlement. In addition, such contracts must describe conditions under which the contract may be terminated for default as well as conditions where the contract may be terminated because of circumstances beyond the control of the contractor.

(3) All negotiated contracts (except those for less than the recipient's small purchase threshold) awarded by the recipient must include a provision to the effect that the recipient, USAID, the Comptroller General of the United States, or any of their duly authorized representatives, must have access to any books, documents, papers, and records of the contractor which are directly pertinent to the specific program for the purpose of making audits, examinations, excerpts, and transcriptions.

(4) In all contracts for construction or facility improvement awarded for more than $100,000, the recipient must observe generally accepted bonding requirements.

(5) Contracts, the principal purpose of which is to create, develop, or improve products, processes, or methods; or for exploration into fields that directly concern public health, safety, or welfare; or contracts in the fields of science or technology in which there has been little significant experience outside of work funded by the U.S. Government (USG), must contain a notice to the effect that matters regarding rights to inventions, intellectual property, and materials generated under the contract are subject to the regulations included in these grant provisions. The contractor must be advised as to the source of additional information regarding these matters.

The total procurement element includes procurement of all goods (for example, equipment, materials, supplies) and services.
