607 Determination Process

What are the steps to obtain a 607 Determination?

1. PVOs must select 5 countries where they plan to transfer Federal surplus property.
2. PVOs must submit a one-page project plan for each country.
3. PVOs must complete a 607 Determination Template for each country.
4. Upon completion of steps 1-3, the LEPP Team coordinates the submission of each 607 request to the USAID/Mission.
5. Once the program receives your organization’s first signed 607 Determination, access to the GSAXcess database is granted.

*Program participation is contingent upon obtaining a signed 607 Determination from the country in which you plan to transfer surplus property.*
