

# Ukraine – Complex Emergency

MARCH 31, 2022

## SITUATION AT A GLANCE

- The GoRF's war against Ukraine continues to result in civilian deaths and generate further population displacement, damage civilian infrastructure, and exacerbate humanitarian needs across the country.
- The GoU continues to facilitate the evacuation of civilians from conflict-affected areas, including the besieged city of Mariupol, amid reports of forced displacement by GoRF forces.
- Conflict has displaced 4.3 million children in Ukraine, prompting concerns over their exposure to protection risks.
- Nearly half of Ukraine's population has expressed concern over food access amid conflict-related disruptions to food production and supply chains countrywide.

<b>TOTAL U.S. GOVERNMENT HUMANITARIAN FUNDING</b> For the Ukraine Response in FY 2022 <sup>1</sup>	USAID/BHA <sup>2</sup>	\$89,997,307
	State/PRM <sup>3</sup>	\$211,622,792
<b>Total<sup>4</sup></b>		<b>\$301,620,099</b>

*For complete funding breakdown with partners, see detailed chart on page 8*

<sup>1</sup> Funding figures reflect a portion of publicly announced funding that has been committed or obligated as of March 25, 2022.

<sup>2</sup> USAID's Bureau for Humanitarian Assistance (USAID/BHA)

<sup>3</sup> U.S. Department of State's Bureau of Population, Refugees, and Migration (State/PRM)

## TIMELINE

**February 24, 2022**

GoRF armed forces commence attacks across Ukraine.

**February 24, 2022**

USAID/BHA announces the activation of a DART to lead the USG humanitarian response to the crisis in Ukraine and a Washington, D.C.-based RMT to support the DART.

**February 27, 2022**

The USG announces nearly \$54 million in additional humanitarian assistance, including \$28 million from USAID/BHA and \$25.6 million from State/PRM.

**March 1, 2022**

The UN launches flash appeal for Ukraine and UNHCR launches the Regional Refugee Response Plan.

**March 3, 2022**

The first USAID/BHA relief commodities arrive in Lviv for onward distribution.

**March 9, 2022**

U.S. Vice President Kamala Harris announces an additional \$53 million in USG humanitarian assistance.

**March 15, 2022**

State/PRM announces an additional \$186 million in assistance.

**March 24, 2022**

The White House announces \$1 billion in USG humanitarian assistance.

**March 29, 2022**

The number of refugees fleeing conflict in Ukraine reaches 4 million.

## KEY DEVELOPMENTS

### Conflict Results in At Least 1,232 Civilian Deaths, Displaces 10.6 Million People

Conflict in Ukraine following the Government of the Russian Federation (GoRF) invasion in late February continues to result in civilian deaths, displace millions of people, and destroy civilian infrastructure, generating large-scale humanitarian needs, the UN reports. The conflict resulted in at least 1,232 civilian deaths, including 112 children, and injuries to at least 1,935 people between February 24 and March 30, according to the Office of the UN High Commissioner for Human Rights. The UN agency notes that actual figures are likely significantly higher as ongoing hostilities disrupt and delay reporting.

In addition, between February 24 and late March, the GoRF invasion displaced approximately 10.6 million people—nearly 25 percent of Ukraine's population—with approximately 6.5 million people displaced internally as of mid-March, according to the Protection Cluster, the coordinating body for humanitarian protection activities, comprising UN agencies, non-governmental organizations (NGOs), and other stakeholders. As of March 30, nearly 4.1 million people fleeing the war in Ukraine had crossed into neighboring countries, the Office of the UN High Commissioner for Refugees (UNHCR) reports. Nearly 2.4 million people—approximately 60 percent of new refugees from Ukraine—had fled to Poland alone. Conflict-affected populations are also seeking refuge in Romania, Moldova, Hungary, Slovakia, the Russian Federation, and Belarus, while hundreds of thousands of people have transited to other countries in Europe. The International Organization for Migration (IOM) notes that as of late March, more than 30 percent of households displaced by the Ukraine crisis reported having at least one member who suffers from a chronic illness, nearly 20 percent have at least one member who lives with a disability, and nearly 30 percent of surveyed internally displaced households reported having at least one child aged five years or younger, underscoring the vulnerability of recently displaced households.

Meanwhile, the destruction of civilian infrastructure in Ukraine continues, leaving civilians countrywide without adequate shelter and disrupting access to essential services for millions of people, the UN reports. According to the State Emergency Service of Ukraine, conflict destroyed 650 residential buildings and damaged 48 educational facilities between late February and late March. Additionally, the UN World Health Organization (WHO) had recorded 74 confirmed attacks on health facilities as of March 29. In Donetsk *Oblast's* Mariupol, which remains besieged by GoRF-aligned forces, local authorities estimate that hostilities have destroyed at least 80 percent of the city's infrastructure, significantly disrupting access to food, water, and health services. Overall, the Government of Ukraine (GoU) estimates that the country's damages and losses due to ongoing fighting amount to nearly \$565 billion as of late March.

## **GoU Evacuates Civilians, Warns GoRF May Be Forcibly Displacing Civilians**

The GoU continues to work to establish evacuation routes from conflict-affected cities to other areas of Ukraine. More than 13,600 people were reportedly evacuated from conflict-affected areas of the country along GoU evacuation routes between March 25 and 27, including more than 4,900 people evacuated from Mariupol, according to the UN. Overall, the UN estimates that 60,000 people had evacuated the city to other areas of Ukraine as of March 29. Humanitarian conditions in Mariupol remain dire as access and security constraints have prevented relief convoys from entering the besieged city since late February. Local authorities report that approximately 160,000 people—or 30 percent of Mariupol’s population prior to the GoRF invasion—remained largely without access to essential goods and services, such as food, safe drinking water, and electricity as of late March.

GoU authorities and relief actors continue to express concern regarding the reported forced evacuation of residents from Mariupol to the Russian Federation. GoRF-aligned forces had reportedly forcibly evacuated 20,000 to 30,000 additional civilians to areas under their control and to Russian Federation territory as of March 29, according to the mayor of Mariupol. Additionally, President of Ukraine Volodymyr Zelenskyy reported on March 27 that GoRF forces reportedly forcibly transported more than 2,000 children from Mariupol to unknown locations in the Russian Federation between February 24 and late March. Some children were reportedly abducted, with GoRF authorities forcing them to cross into the Russian Federation from Ukraine without parental accompaniment. GoU officials have repeatedly raised the issue of forced displacement from Mariupol to the Russian Federation’s Taganrog city in recent weeks, with GoRF officials continuing to assert that many Ukrainian civilians have independently crossed into the Russian Federation in search of refuge from the ongoing war.

## **Conflict Displaces 4.3 Million Children; GoU and UNICEF Respond**

As of March 23, active conflict in Ukraine had displaced 4.3 million children, representing more than half of the country’s total child population, according to IOM, and accounting for half of all people fleeing Ukraine to neighboring countries, the UN Children’s Fund (UNICEF) reports. Due to growing concerns regarding human trafficking and irregular transportation of children out of Ukraine, authorities are taking additional protective measures and introducing requirements for separated children crossing borders. The GoU recently established a national coordination task force on child protection, of which U.S. Government humanitarian partner UNICEF is a member. The task force aims to urgently address critical issues—such as preventing child trafficking and exploitation, and tracking the relocation of children in state custody—and plans to provide support for children who are attempting to cross borders or evacuate as well as those who are unaccompanied or separated from their families. In addition, host governments in neighboring countries are scaling up efforts to respond to protection risks among children and other vulnerable groups fleeing Ukraine.

With support from USAID/BHA and other donors, UNICEF had dispatched nearly 1,050 metric tons (MT) of emergency supplies to support conflict-affected children and families in Ukraine as of March 23. The supplies will benefit more than 8 million people, including 2 million children, countrywide.

## **Nearly Half of Ukraine’s Population Concerned Over Food Access**

After one month of conflict, the UN World Food Program (WFP) estimates that approximately 45 percent of Ukraine’s remaining population is concerned about having access to sufficient food to meet their basic needs. Surveyed populations reported food as one of their top three concerns, along with safety and fuel for transportation. WFP anticipates that one out of five people in Ukraine may already be employing negative food coping mechanisms, such as foregoing meals and reducing meal sizes, to meet

their basic food needs. In addition, more than 60 percent of wholesale traders, retail traders, and food distributors report challenges maintaining supplies and providing access to key food items to the population, the UN Food and Agriculture Organization (FAO) reports. Meanwhile, the demand for basic commodities is spiking while food reserves are dwindling and overall supply is decreasing due to conflict-related disruptions in local agricultural production. WFP notes that fuel shortages and a scarcity of drivers and vehicles are further limiting food access as farmers are less able to deliver their commodities to markets. In addition, Ukraine's major ports have largely suspended operations while commercial ships are increasingly threatened by naval attacks, limiting market activity. WFP anticipates food insecurity to increase among vulnerable populations in the coming weeks and months as the conflict persists.

## KEY FIGURES

**18,500**

Number of USAID/BHA-provided high thermal blankets delivered to Ukraine

## U.S. GOVERNMENT RESPONSE

### LOGISTICS AND RELIEF COMMODITIES

USAID/BHA partners are working to transport relief commodities to Ukraine from neighboring countries and provide these items to conflict-affected individuals as security and humanitarian access conditions permit. USAID/BHA is providing IOM with in-kind winterization supplies and hygiene kits and has delivered approximately 18,500 high thermal blankets—to support more than 23,000 displaced individuals vulnerable to harsh winter weather—to the UN agency in Lviv *Oblast*. IOM had distributed 18,300 of these blankets to displaced people in collective centers in Dnipropetrovsk, Ivano-Frankivsk, Lviv, Mykolayiv, and Zakarpattya *oblasts* as of March 22. USAID/BHA has also delivered an additional 21,500 high thermal blankets; nearly 20,000 high energy biscuits; more than 18,500 kitchen sets; 4,800 water containers; 30 water bladder kits; and seven water treatment units to IOM in Poland, which the UN agency transported to Lviv city for onward distribution to populations in need in Ukraine.

Moreover, USAID/BHA is supporting WFP to lead the Logistics and Emergency Telecommunications clusters. As part of its role as the Logistics Cluster lead, WFP is coordinating logistics services for the broader humanitarian response, developing common advocacy to address logistical challenges, facilitating humanitarian convoys and corridors, and establishing logistics bases to consolidate and prioritize humanitarian cargo deliveries. The UN agency is also exploring options to support cargo movement through dedicated sea vessels.

Meanwhile, State/PRM is supporting IOM and UNHCR to provide logistics support to the refugee response in neighboring countries.

### FOOD SECURITY

To support increasing food needs among conflict-affected individuals in Ukraine, USAID/BHA partner WFP is procuring immediate response rations sufficient to feed 125,000 people for five days. USAID/BHA support is also enabling the UN agency to scale-up its emergency team presence in Ukraine, as WFP had not operated in the country since 2018. WFP plans to assist up to 3.1 million conflict-affected individuals in Ukraine, as well as 300,000

**\$55 Million**

In dedicated FY 2022 USAID/BHA funding for life-saving food assistance

crisis-affected individuals in neighboring countries with USAID/BHA and other donor support.

As part of this effort, USAID/BHA funding is enabling WFP to procure and distribute more than 8,300 MT of in-kind food assistance rations to support more than 119,000 people for four months; provide cash-based transfers to nearly 30,700 people for four months; and deliver approximately 240 MT of emergency food assistance, including high energy biscuits, to 239,000 people.

Overall, with USAID/BHA and other donor support, WFP had reached more than 1 million individuals with food assistance, including rapid response rations, bread distributions, general food assistance, and cash-based transfers for food from February 24 to March 29. The UN agency maintained more than 1,140 MT of food commodities in stock in Ukraine; 940 MT of commodities in transit within Ukraine; and 19,400 MT of food commodities in the agency's pipeline for Ukraine.

USAID/BHA is also supporting Catholic Relief Services (CRS) to provide cooked meals to people in collective shelters in Moldova who have fled the war in Ukraine.

## MULTIPURPOSE CASH ASSISTANCE

USAID/BHA supports IOM and two NGOs and State/PRM supports IOM, UNHCR, and an implementing partner to provide multipurpose cash assistance (MPCA) to help conflict-affected individuals meet their basic needs. MPCA also enables households to obtain shelter and winterization needs.

A USAID/BHA INGO partner is supporting approximately 1,500 IDPs in Donetsk's Volnovakha city with MPCA and is preparing for MPCA distributions in other areas of Donetsk where banks are operational. The INGO is also distributing food vouchers to IDPs in Chernivtsi and Ivano-Frankivsk *oblasts*. State/PRM partner UNHCR had enrolled nearly more than 8,900 people in Lviv and Zakarpattia *oblasts* in its MPCA program as of March 27, with plans to expand to other *oblasts* to reach approximately 360,000 people.

State/PRM is also supporting IOM and UNHCR to provide MPCA to refugees in neighboring countries, as well as UNICEF to provide cash assistance to vulnerable households with children in transit.

## HEALTH

To support the health needs of conflict affected populations, USG humanitarian partners are providing health kits, medicine, and other health assistance. USAID/BHA is supporting UNICEF and WHO to respond to emergency health needs in Ukraine. As of March 25, USAID/BHA partner UNICEF had distributed medical supplies sufficient for 500,000 individuals

**\$5.5 Million**

In dedicated FY 2022

MPCA

**100,000**

Number of people  
USAID/BHA-funded  
interagency emergency  
health kits can support

for three months to 23 child health facilities across Ukraine. Further, between February 24 and March 25, UNICEF prepositioned supplies—including health equipment and essential medicines, hygiene kits, water supply system maintenance equipment, and education kits—sufficient to reach 8 million people in Ukraine’s capital city of Kyiv; Dnipropetrovsk *Oblast’s* Dnipro city; and Lviv city.

With USAID/BHA funding, WHO delivered 10 interagency emergency health kits—sufficient to sustain the health care of up to 100,000 people for three months—and five trauma and emergency surgery kits, with combined medicines and supplies to support at least 500 surgical operations in emergency situations, into Kyiv. In addition, WHO is developing emergency operations centers in eight *oblasts* to coordinate the emergency health response. Meanwhile, UNICEF is delivering health supplies to support displaced populations in central, eastern, and western Ukraine.

State/PRM is supporting WHO to provide health assistance to refugees in neighboring countries. This includes meeting urgent trauma care needs and emergency health care by deploying emergency medical teams; provision of trauma kits, essential medical supplies, and logistics support to fill urgent gaps; delivering generators and other infrastructural support items for hospitals and health facilities; providing medical equipment, including personal protective equipment; extending access to coronavirus disease (COVID-19) services to refugee populations, including vaccination, public health measures, testing and medical care; preventing and responding to vaccine-preventable diseases, such as measles and polio; providing mental and psychological support to populations and building capacity of frontline health care workers in managing stress-related conditions; and preventing of sexual exploitation and abuse.

In addition, State/PRM is supporting the UN Population Fund (UNFPA) in Moldova to increase health system capacity to absorb an increased refugee caseload through the deployment of mobile and static integrated community sexual and reproductive health (SRH) and gender-based violence (GBV) health units, supplies, and interventions to increase access to SRH and GBV prevention and response services. State/PRM is also supporting UNICEF in neighboring countries to scale up health support, including to prevent disease outbreaks and support infection prevention and control training. In addition, State/PRM is supporting IOM to provide primary health care consultations, mobile health and emergency services, and mobile psychosocial support teams.

## WASH

In response to water, sanitation, and hygiene (WASH) needs among conflict-affected populations in Ukraine, USG humanitarian partners are providing critical assistance, including by providing WASH commodities and increasing populations’ access to sanitation and safe drinking water. USAID/BHA has delivered 105 pallets of hygiene supplies to the International Federation of

**85,000**

Number of people that USAID/BHA hygiene supplies provided to IFRC and an INGO can support in Ukraine

Red Cross and Red Crescent Societies (IFRC) and 65 pallets to an international NGO (INGO) partner in neighboring countries for onward distribution into Ukraine; each pallet contains supplies sufficient to meet the needs of 500 people. In addition, USAID/BHA is supporting UNICEF to locally procure WASH supplies to support the WASH needs of 40,000 people in central, eastern, and western Ukraine during the initial weeks of displacement.

USAID/BHA also supports UNICEF and four NGO partners to address existing WASH needs by conducting hygiene promotion activities and distributing essential hygiene items to vulnerable communities and social institutions. In addition, USAID/BHA supports the WASH Cluster to provide humanitarian coordination and information management support, including sharing critical information with humanitarian partners regarding conflict incidents affecting WASH infrastructure and services. State/PRM partners are also conducting WASH activities among conflict-affected communities in Ukraine.

State/PRM is supporting UNICEF to provide WASH assistance to refugees in neighboring countries, including strengthening sanitation infrastructure in shelters and distributing hygiene kits to refugees. State/PRM is also supporting IOM to provide hygiene kits, safe drinking water, and water infrastructure.

## PROTECTION

10

Number of USG implementing partners providing essential protection services

In response to increasing protection concerns among both populations in conflict-affected areas and those crossing from Ukraine into neighboring countries, USG partners are providing protection assistance, including supplies and services. USAID/BHA is supporting UNICEF to deliver child protection supplies to support 40,000 people during the initial weeks of displacement in Ukraine. To address ongoing protection concerns in Ukraine, USAID/BHA supports seven NGOs to implement protection interventions for vulnerable populations. USAID/BHA partners provide psychosocial support services to children, persons with disabilities, and older people; operate mobile protection teams to reach remote communities; and conduct mine risk education activities to minimize protection risks.

In addition, State/PRM partners—including IOM, UNHCR, and UNICEF—provide protection and legal services to vulnerable individuals and are monitoring the impacts of ongoing hostilities. This includes through establishment of “Blue Dots,” which are multi-agency facilities that provide one-stop protection services and social service referrals to new refugee arrivals in neighboring countries. As of March 23, State/PRM partners had reached more than 24,000 people with protection services through seven “Blue Dots” in Moldova, Poland, and Romania, with plans to expand to 26 “Blue Dots” across Hungary, Moldova, Poland, Romania, and Slovakia.

In neighboring countries, State/PRM is providing protection support through IOM, UNFPA, UNHCR, and UNICEF, including GBV prevention and response, child protection, mental health and psychosocial support; prevention and response to trafficking in persons; and establishment of child-friendly and women and girl-friendly spaces.

## CONTEXT IN BRIEF

- The GoRF commenced widespread attacks against Ukraine on February 24, after months of gathering hundreds of thousands of military forces and heavy weaponry near its border with Ukraine. Immediately prior, the GoRF had ordered forces into Donetsk and Luhansk non-government-controlled areas after recognizing the areas' independence from Ukraine on February 21.
- On February 24, USAID announced the activation of a Disaster Assistance Response Team (DART) to lead the U.S. Government humanitarian response to the crisis in Ukraine, with staff in Krakow, Poland; Rzeszów, Poland; Budapest, Hungary; Chişinău, Moldova; Bucharest, Romania; and Košice, Slovakia. To support the DART, USAID activated a Response Management Team (RMT) in Washington, D.C. State/PRM staff in Warsaw, Poland; Budapest, Hungary; Chişinău, Moldova; Bucharest, Romania; Košice, Slovakia; and Washington, D.C., also continue to support response activities.
- Since March 2014, the conflict in eastern Ukraine has caused large-scale population displacement and widespread damage to infrastructure. The heaviest fighting has occurred in the easternmost *oblasts* bordering Russia, particularly Donetsk and Luhansk; however, the large influx of IDPs has also affected neighboring *oblasts*. The GoU estimated that the ongoing conflict had internally displaced approximately 1.4 million people as of October 2020. In addition, the UN estimates that 2.9 million conflict-affected people in eastern Ukraine will require humanitarian assistance in 2022.
- On November 26, 2021, U.S. Chargé d'Affaires Kristina A. Kvien renewed the disaster declaration for Ukraine for FY 2022 due to the widespread displacement and continued humanitarian needs of vulnerable populations in eastern Ukraine.

### USG HUMANITARIAN FUNDING FOR THE UKRAINE RESPONSE IN FY 2022<sup>1</sup>

IMPLEMENTING PARTNER	ACTIVITY	LOCATION	AMOUNT
Ukraine			
<b>USAID/BHA</b>			
FAO	Humanitarian Coordination, Information Management, and Assessments (HCIMA)	Countrywide	\$300,000

## PUBLIC DONATION INFORMATION

- The most effective way people can assist relief efforts is by making cash contributions to humanitarian organizations that are conducting relief operations. A list of humanitarian organizations that are accepting cash donations for disaster responses around the world can be found at [interaction.org](https://www.interaction.org).
- USAID encourages cash donations because they allow aid professionals to procure the exact items needed (often in the affected region); reduce the burden on scarce resources (such as transportation routes, staff time, and warehouse space); can be transferred very quickly and without transportation costs; support the economy of the disaster-stricken region; and ensure culturally, dietarily, and environmentally appropriate assistance.

- More information can be found at:
  - USAID Center for International Disaster Information: [cidi.org](https://cidi.org)
  - Information on relief activities of the humanitarian community can be found at [reliefweb.int](https://reliefweb.int).

USAID/BHA bulletins appear on the USAID website at [usaid.gov/humanitarian-assistance/where-we-work](https://www.usaid.gov/humanitarian-assistance/where-we-work)
