

Ukraine – Complex Emergency

JULY 11, 2022

SITUATION AT A GLANCE

- U.S. Secretary of State Blinken announces nearly \$368 million in additional humanitarian assistance for Ukraine on July 9.
- Following the withdrawal of GoU forces from Lysychansk, the governor of Donetsk urges the estimated 350,000 civilians remaining in the *oblast* to evacuate to safer areas in Ukraine.
- GoRF attacks severely limit civilian access to safe drinking water and increase risks of communicable disease through the destruction of critical infrastructure.
- OHCHR verifies extensive attacks on civilians and civilian infrastructure in Ukraine, including summary executions, destruction of hospitals and schools, and incidents of CRSV.

TOTAL U.S. GOVERNMENT HUMANITARIAN FUNDING For the Ukraine Response in FY 2022 ¹	USAID/BHA ²	\$782,418,917
	State/PRM ³	\$499,322,974
Total		\$1,281,741,891

For complete funding breakdown with partners, see detailed chart on page 8

³ U.S. Department of State's Bureau of Population, Refugees, and Migration (State/PRM)

KEY DEVELOPMENTS

Secretary of State Blinken Announces \$368 Million in Additional Humanitarian Assistance for Ukraine

On July 9, U.S. Secretary of State Antony J. Blinken announced nearly \$368 million in additional U.S. Government (USG) humanitarian assistance—including more than \$80 million in USAID/BHA funding and nearly \$288 million through State/PRM—for communities in Ukraine and refugee-hosting communities in neighboring countries adversely affected by the February 24 Government of the Russian Federation (GoRF) invasion. To date, the USG has contributed nearly \$1.3 billion in FY 2022 humanitarian assistance funding to support conflict-affected populations in Ukraine and refugees in neighboring countries. This total includes more than \$782 million and \$499 million from USAID/BHA and State/PRM, respectively. The additional funding will support USAID/BHA's and State/PRM's UN and international non-governmental organization (INGO) partners' efforts to provide life-saving emergency food assistance, health care, protection, shelter, and water, sanitation, and hygiene (WASH) support to conflict-affected populations across Ukraine, as well as refugees in neighboring countries. The newly announced funding will also support multipurpose cash assistance (MPCA) programming to help people meet their basic needs in areas with functioning markets.

GoRF Attacks Prompt Call for Donetsk Evacuations Following GoU Withdrawal from Lysychansk

GoRF attacks continued to threaten civilian populations, damage critical infrastructure, and limit humanitarian access in eastern Ukraine's Donbas Region—comprising Donetsk and Luhansk *oblasts*—in early July, relief actors report. Following weeks of bombardment and intense armed clashes that generated significant civilian casualties, Government of Ukraine (GoU) forces withdrew from Luhansk's Lysychansk city—the last remaining GoU-controlled city in the *oblast*—on July 3, only days after GoRF forces took control of neighboring Severodonetsk city in late June, according to international media. As of early July, civilians remaining in Severodonetsk were unable to move out of Luhansk into GoU-controlled areas due to frontline insecurity, the destruction of critical bridges leading out of the city, and other impediments imposed by GoRF forces; moreover, the UN and other humanitarian agencies have no access to the city, relief actors report.

Meanwhile, GoRF operations have shifted west toward Donetsk's Kramatorsk and Sloviansk cities in recent days, with GoRF missile strikes resulting in the deaths of at least 18 civilians and causing widespread damage to civilian infrastructure in both cities in early July, international media report. Additional GoRF missile strikes on a residential building on July 9 in Donetsk's Chasiv Yar town killed at least 24 civilians, with emergency responders still searching for survivors of the attack as of July 11, according to international media. The governor of Donetsk has urged the estimated 350,000 civilians remaining in the *oblast* to evacuate to safer areas in Ukraine, citing the growing threat to civilians from the GoRF advance. More than 300,000 civilians have already evacuated the *oblast* by rail since the GoRF invasion of Ukraine on February 24, according to the governor. While civilian evacuations are ongoing, they remain dangerous due to the persistent shelling of railroads and other civilian infrastructure.

Sustained GoRF Offensive Damages Civilian Infrastructure, Exacerbates Humanitarian Needs

Recent GoRF attacks on eastern, southern, and western Ukraine have limited civilian access to safe drinking water and electricity, the UN reports. On July 5, GoRF missile strikes injured at least one person and damaged a water tower in western Ukraine's Khmelnytskyi *Oblast*, international media

report. Moreover, more than 625,000 civilian energy grid consumers—including households, businesses, and other public institutions—in Donetsk and Luhansk had been without electricity for several weeks as of June 29, while an estimated 81,000 people in southeastern Ukraine’s Zaporizhzhya *Oblast* were without gas supplies as of June 22, according to the UN and the GoU Ministry of Energy. The UN estimates that approximately 13 million people across Ukraine require WASH assistance, largely due to conflict-related damage to water treatment facilities, pipelines, and pumps, as well as limited ability to repair damaged water infrastructure as a result of continued hostilities. Populations’ lack of access to clean water and adequate sanitation services has increased the risk of communicable disease outbreaks countrywide, relief actors report.

Humanitarian access to conflict-affected areas to address needs resulting from damaged civilian infrastructure remained limited as of June 30; access constraints remain most severe in areas with active hostilities, including Donetsk, Kharkiv, Kherson, Luhansk, Mykolayiv, and Zaporizhzhya *oblasts*, according to an INGO. In addition to security-related limitations on humanitarian movement, restrictions on relief operations are imposed by GoRF forces and *de facto* authorities in non-GoU-controlled areas (NGCAs), with reports of relief worker detention in these areas, the INGO reports.

UN, Relief Actors Highlight International Humanitarian Law Violations in Ukraine

In a June 29 report, the Office of the UN High Commissioner for Human Rights (OHCHR) highlighted widespread violations of international humanitarian law and the deterioration of human rights conditions across Ukraine since the GoRF February 24 invasion. OHCHR verified extensive attacks on civilians and civilian infrastructure in Ukraine, including summary executions and other unlawful killing of civilians across more than 30 settlements in Chernihiv, Kharkiv, Kyiv, and Sumy *oblasts* while the areas were under GoRF control in late February and March. In addition, OHCHR documented conflict-related damage or destruction to more than 180 medical facilities and 230 educational facilities between February 24 and May 15, though the actual number of damaged and destroyed facilities is likely much higher. OHCHR also investigated growing reports of conflict-related sexual violence (CRSV) since the GoRF invasion, verifying more than 20 of the nearly 110 allegations of CRSV received by the UN Human Rights Monitoring Mission in Ukraine between late February and mid-May. Most incidents—including cases of gender-based violence (GBV), torture, and forced public nudity—are attributable to GoRF forces, with women and girls comprising the majority of all alleged CRSV survivors. OHCHR continues to monitor and verify attacks on civilians and civilian infrastructure, and the UN agency had verified 4,889 civilian deaths and injuries to nearly 6,300 others as of July 4, though the actual number of civilian casualties is likely far higher.

KEY FIGURES

87,000

Number of USAID/BHA-provided high-thermal blankets delivered for distribution in Ukraine

U.S. GOVERNMENT RESPONSE

LOGISTICS AND RELIEF COMMODITIES

During the initial weeks of the GoRF invasion, USAID/BHA partners worked to rapidly transport relief commodities to Ukraine from neighboring countries. Between late February and late April, USAID/BHA provided the International Organization for Migration (IOM) approximately 87,000 blankets and 18,500 kitchen sets to improve living conditions for displaced people; 20,000 High Energy Biscuits (HEBs) to meet emergency food needs; and 4,800 10-liter water containers, as well as water tanks and treatment units, to improve access to safe drinking water and prevent disease among communities in Ukraine.

Moreover, USAID/BHA is supporting the UN World Food Program (WFP) to lead the Logistics and Emergency Telecommunications (ETC) clusters, the coordinating bodies for humanitarian logistics and ETC activities, comprising UN agencies, NGOs, and other stakeholders. As part of its role as the Logistics Cluster lead, WFP is coordinating logistics services for the broader humanitarian response, developing common advocacy to address logistical challenges, facilitating humanitarian convoys and corridors to hard-to-reach areas, and establishing logistics bases to consolidate and prioritize humanitarian cargo deliveries. As of early July, the Logistics Cluster had facilitated the movement of nearly 20,000 cubic meters of humanitarian assistance commodities for distribution to conflict-affected households in Ukraine since late February.

Meanwhile, State/PRM is supporting IOM and the Office of the UN High Commissioner for Refugees (UNHCR) to provide logistics support and relief items to the refugee response in neighboring countries.

\$212 Million

In dedicated FY 2022
USAID/BHA funding for
life-saving food assistance

FOOD SECURITY

To meet increasing food needs following the February 24 GoRF invasion, USAID/BHA is supporting WFP and five INGO partners to scale up food assistance operations in Ukraine. WFP is supporting local bakeries providing bread to conflict-affected populations, distributing ready-to-eat rations and general food commodities, and disbursing cash-based transfers and vouchers for food. WFP food assistance helps people fleeing active fighting, households who have lost income sources due to conflict, and other conflict-affected populations access the food they need. Overall, WFP had provided food assistance or cash distributions to approximately 6.8 million people in Ukraine as of June 17. USAID/BHA is also supporting Catholic Relief Services (CRS) to provide cooked meals to people in collective shelters in Moldova who have fled the war in Ukraine.

\$245 Million

In dedicated FY 2022
USAID/BHA support for
MPCA

MULTIPURPOSE CASH ASSISTANCE

The USG supports IOM, UNHCR, WFP, five INGOs, and an implementing partner to provide MPCA to help conflict-affected individuals meet their basic needs. Cash allows displaced or other conflict-affected people to access food, household items, shelter, safe drinking water, and other supplies through local markets, and provides a faster and more efficient means of reaching vulnerable communities than providing in-kind commodities.

With support from USAID/BHA and other donors, WFP had provided cash-based transfers and vouchers to more than 1.7 million people as of June 17. Meanwhile, as of July 8, State/PRM partner UNHCR had enrolled more than 540,000 people across Ukraine to receive MPCA, with more than 391,000 individuals having already received their first payments. State/PRM is also supporting IOM and UNHCR to provide MPCA to refugees in neighboring countries, as well as the UN Children's Fund (UNICEF) to provide cash

assistance to vulnerable households with children in transit. As of July 4, UNHCR had enrolled nearly 377,000 people in Moldova, Poland, Romania, and Slovakia in its MPCA program.

3.3 Million

Number of people that can receive health care with supplies distributed by USG partner UNICEF

HEALTH

To support the health needs of conflict-affected populations, USG humanitarian partners are providing health care supplies, medicine, and other health assistance in Ukraine and neighboring countries. USAID/BHA is supporting UNICEF, the UN World Health Organization (WHO), the UN Population Fund (UNFPA), and five INGO partners to respond to emergency health needs in Ukraine, including trauma care and the provision of other essential health care services. With USG and other donor support, UNICEF provided medical supplies sufficient to treat approximately 3.3 million people across Ukraine from February 24 to June 28.

Meanwhile, USAID/BHA partner WHO had delivered approximately 630 metric tons (MT) of life-saving medical supplies—including essential medicines, medical equipment, and trauma care supplies—to health facilities in Ukraine as of June 27, with the majority of items delivered to regions of the country experiencing active hostilities. With USAID/BHA support, WHO has also delivered medicines and health care equipment sufficient to meet the needs of approximately 650,000 individuals, emergency surgical supplies to conduct up to nearly 16,000 surgeries, at least 20 ambulances, and 26 generators to maintain power supplies in health facilities.

State/PRM is also supporting WHO to provide health care to refugees in neighboring countries. This includes meeting urgent trauma care needs by deploying emergency medical teams; providing trauma kits, essential medical supplies and equipment, and logistics support to fill urgent gaps; and extending access to coronavirus disease (COVID-19) services to refugee populations, including vaccinations. With State/PRM support, WHO is also preventing and responding to vaccine-preventable diseases, such as measles and polio; providing psychosocial support to vulnerable populations and frontline health care workers; and preventing sexual exploitation and abuse.

In addition, State/PRM is supporting UNFPA in Hungary, Moldova, Poland, and Slovakia to strengthen local health systems' capacity to absorb an increased refugee caseload through the deployment of mobile and static integrated community sexual and reproductive health (SRH) and GBV health units, supplies, and interventions. State/PRM is also supporting UNICEF in neighboring countries to scale up health support, including to prevent disease outbreaks and support infection prevention and control training. In addition, State/PRM is supporting IOM to provide primary health care consultations, mobile health and emergency services, and mobile psychosocial support teams.

85,000

Number of people that USAID/BHA hygiene supplies provided to IFRC and an INGO can support in Ukraine

WASH

Disaster-affected populations are often more susceptible to waterborne diseases, such as cholera and dysentery, as disasters reduce local access to hygiene items, sanitation services, and safe drinking water. In response to the GoRF invasion of Ukraine, USG humanitarian partners are providing WASH supplies to conflict-affected populations, including hygiene kits containing soap and other items to reduce disease transmission; repairing damaged WASH infrastructure; and transporting and distributing safe drinking water in conflict-affected areas. In addition, USAID/BHA also supports the WASH Cluster to provide humanitarian coordination and information management support, including sharing critical information with humanitarian partners regarding conflict incidents affecting WASH infrastructure and services.

USAID/BHA supports IOM, UNICEF, and nine INGO partners to address WASH needs in Ukraine. With support from USAID/BHA and other donors, UNICEF has facilitated access to safe drinking water for approximately 2.6 million people in Ukraine by increasing water availability in collective sites, such as IDP shelters; conducting water trucking services; and distributing bottled drinking water between late February and late June. The UN agency has also distributed WASH commodities to more than 354,000 people across Ukraine. Moreover, UNICEF delivered 300 MT of essential supplies—including safe drinking water, nutrition rations, health and hygiene kits, and other WASH items—to six locations in Donetsk and Dnipropetrovsk *oblasts*, as well as to the Luhansk Regional State Administration, to be pre-positioned for further crossline delivery by local volunteer organizations, as of June 14.

USAID/BHA has also delivered 105 shipping pallets of hygiene supplies to the International Federation of Red Cross and Red Crescent Societies (IFRC), 95 pallets to IOM, and 65 pallets to an INGO partner in neighboring countries for onward distribution into Ukraine, with each pallet containing supplies sufficient to meet the needs of 500 people.

State/PRM partners are providing WASH assistance to conflict-affected communities in Ukraine and Ukrainian refugees in neighboring countries, including strengthening sanitation infrastructure in shelters and distributing hygiene kits to refugees. State/PRM is also supporting IOM to provide hygiene kits, safe drinking water, and water infrastructure.

18

Number of USG implementing partners providing essential protection services

PROTECTION

Armed conflict often exacerbates individuals' vulnerability to protection risks. People must cope with threats such as sexual violence, violence in the home, family separation, exploitative labor, and exclusion from life-saving humanitarian assistance, among other concerns. In response, USAID/BHA supports UNICEF, WHO, UNFPA, UN Women, and 11 INGOs to implement protection interventions for conflict-affected populations in

Ukraine. USAID/BHA partners provide mental health and psychosocial support (MHPSS) to children, persons with disabilities, and older people; operate mobile protection teams to reach remote communities with GBV prevention and response activities, legal assistance, and MHPSS; and conduct other protection activities. Specifically, USAID/BHA is supporting UNFPA's efforts to procure vehicles to establish mobile teams to provide MHPSS services in remote or hard-to-reach areas of Ukraine. With USAID/BHA and other donor support, the UN agency is also supporting facilities that provide services for GBV survivors, including CRSV survivors. Furthermore, USAID/BHA is supporting UNICEF to meet the protection needs of children in displacement centers, as well as assist unaccompanied and separated children, who are particularly vulnerable to exploitation. UNICEF provided an estimated 30,000 beneficiaries with integrated child protection and GBV response services as of June 28—while referring more than 60 percent of the beneficiaries to specialized health, social, and legal services—and reached nearly 13,000 beneficiaries with child protection information.

In addition, State/PRM partners—including IOM, UNHCR, and UNICEF—provide protection and legal services to vulnerable individuals in Ukraine and neighboring countries. Partners are establishing Blue Dots, multi-agency facilities that provide one-stop protection services and social service referrals to new refugee arrivals in neighboring countries. As of June 21, UNHCR had established 40 Blue Dots reaching tens of thousands of people with protection services in Bulgaria, Hungary, Italy, Moldova, Poland, Romania, and Slovakia.

In neighboring countries, State/PRM is providing protection support through IOM, UNFPA, UNHCR, and UNICEF. Services include GBV prevention and response, child protection, and MHPSS support; prevention and response to trafficking in persons; and establishment of child-friendly and women and girl-friendly spaces, which not only offer case management and referral services, but also provide areas for women and children to feel physically and emotionally safe.

CONTEXT IN BRIEF

- The GoRF commenced widespread attacks against Ukraine on February 24 after mobilizing hundreds of thousands of military forces and heavy weaponry near its border with Ukraine. Immediately prior, the GoRF had ordered forces into Donetsk and Luhansk NGCAs after recognizing the areas' independence from Ukraine on February 21.
- The GoRF invasion marked a major escalation of conflict in Ukraine, where fighting in the country's eastern *oblasts* has caused large-scale population displacement and widespread damage to infrastructure since March 2014. The heaviest fighting has occurred in the easternmost *oblasts* bordering Russia, particularly Donetsk and Luhansk; however, the large influx of IDPs from these areas has also impacted neighboring *oblasts*. The UN estimated that 2.9 million conflict-affected people in eastern Ukraine required humanitarian assistance as of early 2022 prior to the February 24 GoRF invasion.
- On February 24, USAID announced the activation of a USAID Disaster Assistance Response Team (DART) to lead the USG humanitarian response to the crisis in Ukraine, with initial staff in Rzeszów, Poland; Chişinău, Moldova; Budapest, Hungary; Bucharest, Romania; and Bratislava, Slovakia. To support the DART, USAID activated a Response Management Team (RMT) in Washington, D.C. State/PRM staff in Warsaw, Poland; Budapest, Hungary; Chişinău, Moldova; Bucharest, Romania; Bratislava, Slovakia; and Washington, D.C., also continue to support response activities.
- On November 26, 2021, U.S. Chargé d'Affaires Kristina A. Kvien renewed the disaster declaration for Ukraine for FY 2022 due to widespread displacement and continued humanitarian needs of vulnerable populations in eastern Ukraine.

¹ Year of funding indicates the date of commitment or obligation, not appropriation, of funds. Funding figures reflect a portion of publicly announced funding that has been committed or obligated as of July 9, 2022.

PUBLIC DONATION INFORMATION

- The most effective way people can assist relief efforts is by making cash contributions to humanitarian organizations that are conducting relief operations. A list of humanitarian organizations that are accepting cash donations for disaster responses around the world can be found at [interaction.org](https://www.interaction.org).

- USAID encourages cash donations because they allow aid professionals to procure the exact items needed (often in the affected region); reduce the burden on scarce resources (such as transportation routes, staff time, and warehouse space); can be transferred very quickly and without transportation costs; support the economy of the disaster-stricken region; and ensure culturally, dietarily, and environmentally appropriate assistance.
- More information can be found at:
 - USAID Center for International Disaster Information: cidi.org
 - Information on relief activities of the humanitarian community can be found at reliefweb.int.

USAID/BHA bulletins appear on the USAID website at [usaid.gov/humanitarian-assistance/where-we-work](https://www.usaid.gov/humanitarian-assistance/where-we-work)
