

U.S. Humanitarian Response to Hurricanes Iota and Eta

Back-to-back hurricanes unleashed heavy winds, rain, and severe flooding and landslides across Central America in November 2020. Hurricane Eta made landfall as a powerful Category 4 storm on November 3. Just two weeks later Hurricane Iota, a Category 5 storm at its strongest, traveled the same path through the region. On November 17, USAID deployed a Disaster Assistance Response Team (DART) to lead the U.S. Government's humanitarian response.

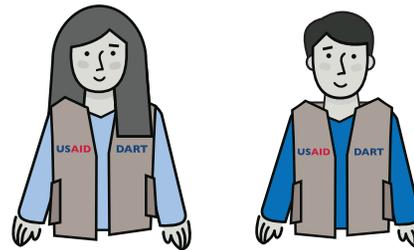

U.S. Government Assistance

Nearly \$53 million in humanitarian assistance provided to support affected communities in Honduras, Guatemala, Nicaragua, and Colombia.

USAID Disaster Assistance Response Team

This elite team was on the ground for four weeks conducting assessments, identifying humanitarian needs, and working with humanitarian partners and affected governments to deliver immediate aid.

USAID Relief Supplies

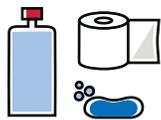

Nearly **340 rolls of plastic sheeting** will provide emergency shelter assistance for nearly **17,000 people**

Nearly **950 water containers**
