If at any time the owner is in breach of the above, then USAID may terminate and/or claim damages resulting from the breach. A sanctioned party means any persons, entities, bodies, or vessels designated by a sanctioning authority of the United Nations, European Union, United Kingdom, United States of America or any other applicable competent authority or government.

(1.a) Cargo/Laydays/Quantities:

| <u>Ref:</u> | <u>Cargo</u> | <u>Laydays</u> | <u>Quantity</u> |
|-------------|-----------------|----------------------|---------------------------------|
| AC | - Bulk Sorghum- | December 1-10. 2023. | 22,000 MT & 449,000 empty bags. |

The lay days are December 1, 2023 and December 10,2023. Failure to not make the load period is not material. Any offers that are likely to not meet the lay days are subject to rejection at the discretion of USAID if it affects the timeliness or contribute to a delay in the delivery of any USAID-financed emergency cargo(es) to intended beneficiaries.

If the awardee fails to tender the contracted Vessel, or substitute approved by Charterers, and same is not accepted within the laydays, whether or not the option to cancel is exercised, Owners are to be fully responsible for all charges attributable to the failure to tender and be accepted before the canceling date of the charter, including but not limited to the grain carrying charges covering interest, storage, insurance and fumigation, and excess freight or re-procurement costs. In which case it will be a condition of payment of freight that Owners submit as part of their documentation "Paid" invoices from Commodity Suppliers or a certification from such Suppliers that carrying charges did not accrue. Charterers may deduct any carrying chargers from payment of ocean freight without further notice.

(1.b) Empty bags to be transported freight free on the same vessel as cargo carried.
Empty bags delivery: See Proforma Charter Party Clause 51 for full details of the requirement.

(1.c) Contracted quantities will be on a min/max basis.

(1.d) Offerors are encouraged to review other Title II PL480 / FAS cargoes in the market for possible combination with the USAID cargoes with the 10,000 MT USAID Sorghum for Djibouti and the 20,850 MT WFP Sorghum for Sudan, both loading out of G-CC-ADM.

1.e) All offers are subject to Charterer's approval and the USAID Proforma Charter Party terms. Any offers involving prior part cargo(es) are subject to the review and approval of the Charterers. The charterer may at their discretion reject an offer if the charterer determines that award of this contract may affect the timeliness or contribute to a delay in the delivery of any USAID-financed emergency cargo(es) to intended beneficiaries. (E.g., If an offeror already has been awarded a contract to transport a USAID-financed emergency food assistance cargo and proposes to ship the cargo covered by this solicitation with that prior part cargo, and there is no overlap between the laydays for these separate cargoes, such a proposal would likely delay emergency food assistance reaching people in urgent need of it, which would impair broader Food for Peace programming.)

(1.f) Subject to (1.e)., The USAID cargo may be commingled with other part cargoes contracted under separate Charter parties provided said cargo(es) are of the same commodity, quality and specification as procured under the same USDA assigned Purchase Order. Otherwise, USAID cargo to be separated by vessel's natural segregation or otherwise by Kobe-type separation. Separation, if any, shall be at owner's time, risk and expense. If Kobe separation used, Owner must construct the separation so that fumigation of the cargo is effective and the separation/ stowage must be approved by the National Cargo Bureau (NCB), all at Owner's time, risk and expense.

(1.g) Offers are to provide information on vessel's current position, its ETA load port, vessel's ETA basis discharge port (in transit) and ETA (s) at final delivery destination point(s). This itinerary should

also provide vessel's estimated transit time from load port to discharge port, and, if applicable, estimated truck transit times from end of bagging line to final delivery destination point(s).

(1.h) Offers are to provide past performance information. If the offeror has transported any USAID-financed cargo(es) that have not met the ETA of any bill of lading within the past year, the offer should include relevant information, including the identity of the charterer, the contract number, the ETA, the actual date of delivery, and contact information for the charterer. Offers may also include explanations of such delays.

(1.i) Evaluation: The government will award contract(s) based upon lowest price, technically acceptable lowest landed cost in deference to cargo preference.

Named vessel in an offer are viewed as a representation of the type and kind of vessel that will be provided. Failure to offer exactly as per the above terms will render an offer non-compliant and as such the offer will not be considered.

Offers with ancillary charges (e.g. bagging/stacking/inland freight) deemed to be outside the competitive range may be subject to a counter-offer or negotiated reduction in order to be considered for an award.

Further freight offer evaluations will be based on Djibouti discharge port basis Full Berth Terms, no demurrage/ no despatch / no detention with owners to have cargo bagged and delivered to Free On Truck Door consignee's/receiver's designated warehouses in a Djibouti Bonded, Free Trade Zone, Djibouti.
